Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

Applicants are paid directly if:

1. the household pays rent and pays home heating and electricity costs indirectly through rental payments, or
2. the vendor has not executed a Heating Assistance Program agreement.

A portion of the grant may be paid to the home energy supplier and the remainder to the applicant if the household pays home heating costs indirectly through rental payments, but pays directly for home electricity.

9.2 How do you notify the client of the amount of assistance paid?

Once eligibility is determined, the Eaglesun LIHEAP module system heating assistance generates two notices of action: one to the household explaining the amount of heating assistance and the distribution of benefits amongst their vendors; the other goes to the vendor listing the client's name, address, account number and grant amount.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Vendors paid in advance must confirm that the payment was received and credited to the eligible household's account.

New vendors, or vendors with past performance problems are paid only upon submission of delivery invoices.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

All vendors wishing to receive heating or crisis assistance payments on behalf of their eligible customers are required to sign a Venfor Heating Assistance Agreement with KANA. This agreement prohibits discrimination against HAP clients.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

We attempt to negotiate with the vendor on behalf of the client to apply the HAP payment for costs of current energy in lieu of outstanding balances.
