Dear Mr. Wadda:

Upon review of the Eastern Shoshone LIHEAP and State LIHEAP FY2019 Household Reports and Fremont County census, Tribal enrollment, and demographic information, I have recommended the Eastern Shoshone LIHEAP allocation percentage be calculated at .0182 for Federal Fiscal Year 2020. This will be an increase over the FY2019 percentage of .0141 to account for an increase in need.

Per the agreement between the Eastern Shoshone Tribe and Wyoming Department of Family Services, we will review and adjust the allocation percentage annually.

Sincerely,
