Young ch	ildren?	💽 Yes	O _{No}		
Househol	ds with high energy burdens?	🖸 Yes	O _{No}		
Other? 6 or more individuals in the household			C No		

Explanations of policies for each "yes" checked above:

Households with Elders, disabled and young children as well as high energy burdens are given priority because the Tribes' have prioritized these groups for LIHEAP assistance. Elders and the disabled are less able to cover the cost of energy for their homes due to low and fixed incomes. Households with 6 or more individuals are likely to have high energy burdens and limited sources of income. NCIDC reviews applicants for eligibility and gives the final approval of the application. Just because a household is in one of the priority groups it does not guarantee that they will get assistance. The household must also meet the LIHEAP requirements as well as be in one of the four priority groups.

Determination of Benefits 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance tovulnerable populations, e.g., benefit amounts, early application periods, etc.

Prior to the NCIDC considering a household for LIHEAP services, the Tribe is responsible for completing the intake process and providing a completed application packet, that has been vetted by the intake person at the Tribe and signed off as eligible. The NCIDC then assesses each application individually to assure they meet the required criteria and that the highest benefits go to households with the lowest income, elders or disabled, and those households with the highest energy costs or needs.

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):	
Income	
Family (household) size	
✓ Home energy cost or need:	
Fuel type	
Climate/region	
Individual bill	
Dwelling type	
Energy burden (% of income spent on home energy)	

Energy need							
Other - Describe:							
The NCIDC will assess each applicant individually to assure that the highest benefits go to households with the lowest income and the highest energy costs or needs. This system will take into account the level of household income, household size, energy burden, and provide priority services to the Elderly, disabled and young children. The \$1,300.00 threshold is the maximum that a household can receive, it does not mean that every household will get that amount. If a household can show need and meet the criteria they can receive up to as much as \$1,300.00 as per the scales incorporated into the current benefit matrix.

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds? The NCIDC maintains a financial accounting system in compliance with generally accepted accounting procedures. NCIDC LIHEAP program staff initiate formal written payment requests. Once a request is received, the fiscal department develops a check request with all the pertinent information that must be approved by the Executive Director or the Director's designee. When approval is given, a check is cut to the appropriate vendor and two authorized check signatories are required to finalize the check payment. The administration and the board of directors receive monthly updates of the financial transactions of the corporation for review and approval. Program staff and Fiscal staff reconcile their systems as a cross check.

	The NCIDC's methods for verifying applicant identities for the LIHEAP program is to require that the person submitting the application provide their name, address, phone number, social security number (SSN). The LIHEAP program coordinators are intimately familiar with the residents of their reservations, Rancherias or aboriginal territories, in large part because the majority of the Tribes in the NCIDC program have small populations. Validation of legitimate applicants is dependent on the Tribe's membership records and the Tribal LIHEAP coordinators knowledge of the community. Additional verification is collected in the process of certifying the client for services. For example, households in which one or more individuals are receiving assistance under TANF, Supplemental Security income, food stamps (SNAP) or Veterans or Survivor pensions are eligible for LIHEAP services. Hard Copy documentation for those programs further verifies the applicant or the applicant's household eligibility. Alone these documents do provide adequate identification, however in combination with proof of income, a California driver's license or identification card, social security number, utility bills or Tribal membership the identity of the applicant is verified.

	The majority of employment on reservations is within the Tribal government and its subsidiaries and Tribes are not required to report employment data to the state. Therefore, the state databases are inadequate for new hires on reservation.						
	In an effort to insure that all household members' income is accounted for, we require a "verification of unemployment/ no income statement (see attachment 7). We began this practice in FY 2011. It is required for all adults living in the household. The form assists in verifying that the household income and number of people living in the home is accurate on the application form. This form requires that all household members, 18 years or older to complete and sign a statement that verifies that they are unemployed or have no income. Additionally, the Tribal LIHEAP coordinator must also sign each form, as verification of household members and employment/income status.
