LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component

| Add | Household size | Eligibility Guideline | Eligibility Threshold |
|-----|---------------------|------------------------|-----------------------|
| 1 | All Household Sizes | HHS Poverty Guidelines | 150.00% |

4.2 Provide your LIHEAP program's definition for determining a crisis.

- (1) Households with an energy crisis must not exceed the income and liquid resource standards, per LRBOI, Low Income Home Energy Assistance Program Income and Resource Level by Household Size. Households must meet the same income and resource criteria for Emergency Crisis Assistance Program (ECAP) as for heating and cooling assistance.
 - (2) Households must have a verified energy crisis. An energy crisis exists when the household:
 - (A) service is disconnected by the energy supplier;
- (B) has a verified, active cut-off order. In the event of limited funding, centralized LIHEAP staff prioritizes applications with cut-off notices scheduled within 72 hours and applications that contain at least one household member who is 55 years of age and older, blind, disabled, or a child under five years of age;
- (C) receives a refusal notice to provide additional energy needs from the energy supplier and the household's fuel tank indicator is at or below 10 percent during the regularly-scheduled ECAP period, or at 25 percent or less for households with a life-threatening medical situation;
 - (D) provides information regarding a new connection fee;
- (E) has a cash only, cash advance, or pre-paid account and has less than a \$25 minimum balance in the account. The household's utility bill shows that it is a cash only, cash advance, or pre-paid account and the balance amount; or
- (F) enters into a payment plan with the energy supplier to prevent a service cut-off. When the household enters into a payment plan to prevent service cut-off, centralized LIHEAP staff verifies the payment plan and the minimum amount needed to resolve the energy crisis for at least one month with the energy supplier.
- (3) The household must have experienced a precipitating factor that caused the household to choose between paying the energy bill and another vital household need.
- (A) Acceptable factors include, but are not limited to, temporary or short-term situations that caused the household to make a choice between paying the energy bill and:
 - (i) purchasing sufficient food for the household;
 - (ii) paying for emergency situations, such as medical expenses or disaster recovery; or
 - (iii) providing clothing for children in the household.
- (B) When the household was approved for the maximum ECAP payment during the most recent fiscal year, no further ECAP payments are made during the same fiscal year unless additional funds are authorized during a federally-declared disaster.

- (C) Households approved for less than the maximum ECAP payment may be approved for another ECAP payment during the same fiscal year, provided the total approved for all payments does not exceed the maximum ECAP payment, per LRBOI. Per 42 U.S.C. § **8624**(b)(16), an additional ECAP payment is not approved for the same fiscal year when the household:
- (i) refuses to participate in budget counseling and home energy conservation workshops provided by Community Action agencies;
 - (ii) does not show any progress in improving its situation; or
 - (iii) does not make an effort to maintain current utility bills.
- (4) The household must explain why the energy crisis need cannot be met by available income and liquid resources, even when income and liquid resources are equal to or below the standard, per LRBOI.
- (5) When the ECAP benefit amount is insufficient to establish, restore, or prevent the cut-off of the household's energy source, ECAP is authorized only when other resources can be combined with the ECAP payment to resolve the energy crisis. When other resources cannot be developed to help resolve the energy crisis, the ECAP application is denied.

4.3 What constitutes a life-threatening crisis?

To be considered a life-threatening medical situation, the energy crisis must involve the energy source required:

- (i) for life-saving medical equipment to be operational. The medical equipment must be prescribed by a licensed health care professional and require electricity to operate. When the medical equipment has an available battery backup in case of an electricity outage, the medical situation is not considered life-threatening. The client must provide a licensed health care professional's statement dated within the last 60-calendar day period or the most recent six months of medical records verifying that the medical equipment is prescribed and a battery backup is not available. Examples of life-saving medical equipment include, but are not limited to:
 - (I) a kidney dialysis machine;
 - (II) an iron lung;
 - (III) an oxygen concentrator or other type of oxygen machine; or
 - (IV) a cardiac monitor; or
- (ii) power heating or air conditioning equipment when the temperature is predicted to be hot or cold enough to create a life-threatening medical situation for a person with a pre-existing medical condition if the energy source is not functioning. To be considered a life-threatening medical situation, the temperature on the disconnection date must be predicted to be:
 - (I) a heat index of at least 101 degrees in summer months; or
 - (II) 32 degrees or lower during day-time hours, 20 degrees or lower during night time hours in winter months, or both.
 - (B) Authority for designating a medical situation as life-threatening is limited to a:
 - (i) licensed health care professional; or
 - (ii) public health official; and
- (2) 48 hours of receipt of a complete application when the energy crisis does not involve a life-threatening medical situation. A complete application means the application is signed and submitted and all verification is provided.

| The Members Assistance Department monitors expenditures through internal program spreadsheets that keep accurate account of amounts to Tribal citizens. The spreadsheet includes vendor and amount paid. Monthly, the department receives the Revenue and Expenditures report and the General Ledger. This information is crossed checked to program spreadsheets to ensure the amounts match. R and E reports are reviewed monthly to ensure funds are within allowable contractual period. System does not allow expenditures to account after contractual period. R and E will reflect any refunds from vendors. Components of items are listed by description heating, cooling and crisis. The expenditures are reported monthly by description of item as well. Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

- 1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
- 2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
- 3. For grantees other than individuals, Alternate I applies.
- 4. For grantees who are individuals, Alternate II applies.
- 5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
- 6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
- 7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
- 8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).
