The assumption is that they have a working unit in ther possession AND most units only have a 1 or 2 year warranty and/or life. Units maybe returned to CPN to be cleaned & serviced then returned to inventory for safe storage until the following cooling season. Units that stop working may be exchanged for working units.

Yes No

If you responded "Yes" to question 4.16, you must respond to question 4.17.

4.17 Describe the terms of the moratorium and any special dispensation received by LIHEAP clients during or after the moratorium period.

When extreme temperatures are experienced within the State, utility companies providing services will not disconnect services until the extreme temperatures have ended. For example, temperatures at freezing and below 0 - heating companies usually will not disconnect the services for non-payment until the temperatures have returned to above freezing levels for at least 24 hours. For cooling season, utility companies within the state usually will not disconnect service where daily temperature indexes reach 100 degrees are higher. When the heat index no longer reaches 100 degrees, the utility is then subject to cut off. This is in effect by most municipalities or regions within the service area of that utility based on National Weather Service predictions.

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Provide energy reduction tips, pamphlets, and devices that can minimize energy consumption. Offer utility payment incentives for attending the education classes. Provide Testimony from other households what they tried and what worked for them.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

Budget process, internal fiscal controls. Accounting procedures and computer program tracks expenditures against budget with hard stop if budgeted amount would be exceeded.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

Measurement of the impact is difficult. However, as families have received energy reducing items as incentives for participation, we have seen households return to request more CFL light bulbs because they saw the value. When attending the Educational classes, participants have provided verbal testimony to others how they have used the tips or incentive items to lower their energy usage. Participants have told us that they have utilized the tips and saw reductions.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

Education Classes were held in person during the Heating & Cooling seasons. Participant Households receive \$100 incentive paid to their respective utility company for attending and participating in the class. People who do not attend the full class are not eligible. Special accommodations were made for those with special needs. One-on-one education is offered. Additional classes will be offered in September for those who may have missed or have received services since August 18, 2022.

In the Heating & Cooling Seasons all but 4 Households in attendance received the \$100 incentive We were unable to provide the incentive to those three because - had a positive credit already on their account or did not complete application process. 130 households signed up for the class. The actual number of people who attended and received the education is higher. We only counted the households represented. All Household received a package of CFL light bulbs or other small energy saving item; therefore we are including the full number of households in this reporting line.

13.5 How many households applied for these services? 290

13.6 How many households received these services? 286

If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For grantees other than individuals, Alternate I applies.
4. For grantees who are individuals, Alternate II applies.
5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).
