Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

The LIHEAP Program employs an Energy Conservation Specialist who provides home visits and information on how to better conserve energy. LIHEAP produces public service announcements on our local radio stations, flyers, and brochures.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

The LIHEAP Director and the Program Monitor will electronically track the activities that are provided with this component of the LIHEAP funds.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

Eligible households were better able to track the usage of their home energy and were able to decrease some of their energy usage through knowledge of energy conservation. If households' electricity bill exceeds the amount of their assistance, the household is then responsible for the balance of their bill. This encouraged households to better conserve their energy to keep their electricity bills at a manageable level.

The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
