Approved Date																				
The first row represents 100% of the 2024 Federal Poverty Guidelines that were issued in the Federal Register Volume 89, Number 11, on January 17, 2024 by the U.S. Department of Health and Human Services (HHS) 42 U.S.C. 9902 (2) (https://aspe.hhs.gov/topics/poverty-economic-mobility/poverty-guidelines). For households with more than 8 persons, add \$5,380 to the 100% Federal Poverty Guideline for each additional person. The second row represents 60% State Median Income for Federal Fiscal Year 2025. In accordance with 45 CFR 96.85, 60% of each State's estimated median income for a four-person family is multiplied by the following percentages to adjust for household size for LIHEAP: 52 percent for one person, 68 percent for two persons, 84 percent for four persons, 100 percent for five persons, and 132 percent for six persons, add three percentage points to the percentage for a six-person household (132 percent), and multiply the new percentage by 60% of the State's estimated median income for a four-person household.																				
4 In Delaware \$72,577 = Estimated 60 Percent of the State Median Income for Four-Person Families for Federal Fiscal Year (FFY) 2025, for use in the Low Income Home Energy Assistance Program (LIHEAP). Published annually by the Federal Children and Families Administration in the Information Memorandum. The LIHEAP statute establishes 150 percent of the federal poverty level as the maximum income level allowed in determining LIHEAP income eligibility, except where 60 percent of state median (SMI) income is higher. However, the eligibility cannot go over 60% SMI and below 110% FPG. Federal 60% SMI estimates published LIHEAP-IM-2024-02 on March 29, 2024. 5 200% Income Percent Interval for the households is not allowed to exceed 60% State Median Income.																				
Flat LIHE			_	bsidized housi is greater thar		not included in the per month, then L			and rent is less on the LIHEAP	-	\$ 643 p	oer month
