	Heat and eat payment amounts will vary between \$21 and \$24 with clients living in colder heating regions and with larger household size receiving higher benefits. To ensure the SNAP household that is receiving a Heat & Eat benefit has an energy need, logic has been built into the SNAP and LIHEAP processing system. The following SNAP households will not receive a Heat & Eat benefit: • Any household that is currently receiving the Heating Standard Utility Allowance (HSUA). • Any household that has received LIHEAP in the current season. • Any household that has zero net income. • PA CAP households; • Households receiving nursing home care; • Households who are homeless; • Households receiving extended SNAP benefits; • Households living in a facility and not having a heating responsibility This logic helps ensure that the households receiving this benefit all have an energy need and haven't already received a LIHEAP benefit.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN

Section 4 - Crisis Assistance

Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	HHS Poverty Guidelines	150.00%

4.2 Provide your LIHEAP program's definition for determining a crisis.

If you administer multiple crisis assistance programs (winter, summer, and/or year-round), Include all program definitions.

- (1) The household shall meet the general eligibility requirements under \$601.31 (relating to general eligibility requirements), income limit, responsibility for heating costs, Pennsylvania residency and lawfully admitted non-citizen status.
- (2) The household shall be without heat or in imminent danger of being without heat because of a weather-related or energy-supply shortage emergency.
- (3) The household shall be eligible for a crisis benefit that, alone or combined with other resources available to the applicant household, will resolve the home-heating emergency.
 - (4) The applicant must provide proof of the home-heating emergency

Crisis benefits for energy-supply-shortage emergencies include payment for the following:

- 1. Home-heating fuel for a household that is out of fuel or if the heating fuel supply will last less than 15 calendar days. The payment may be for either the main or secondary fuel type and may include the cost of an added charge for off-hours delivery service. The payment amount will not exceed the cost of the delivery; including any necessary reconnect fees and/or minor furnace start-up costs. Any credit balance with the household's vendor will be deemed available to resolve the crisis and will be deducted from the household's benefit amount.
- 2. Utility bills to restore or continue home-heating service if the household is without heat or in imminent danger of being without heat because of actual or scheduled termination of the main or secondary source of heat by a utility company. The payment may include the charge, if required, for a service reconnection.

NOTE: Crisis benefits may be approved in this instance based on issuance of a termination notice. The following applies:

- (A) For utilities regulated by a governing body such as the Public Utility Commission (PUC), winter termination procedures prevent the termination of service without the governing body's approval from December 1 through March 31. Regulated utilities may still issue termination notices from December 1 through March 31. They cannot, however, act on these notices to terminate service without having been granted permission to terminate service by the governing body. In these situations, contact must be made with the utility to determine if the governing body has granted the utility permission to terminate service for the applicant household before crisis benefits may be authorized to relieve the emergency. The household is ineligible for crisis benefits if the utility has not been granted approval to terminate service.
- (B) For utilities not regulated by a governing body, a termination notice means that the utility has established a date when service will actually terminate, in accordance with the utility's current termination procedures. Documentation of the termination notice must be provided before crisis benefits may be authorized to relieve the emergency.

4.3 What constitutes a <u>life-threatening crisis?</u>

This must be a documented medical emergency. The local County Assistance Office (CAO) would either need to already have on file or the household would need to provide documentation from a doctor that someone in specific in the household would be in a life-threatening emergency if the household was without heat due to a specific medical condition. If the household provides a Release of Information, the CAO could also verify this information via collateral contact with the doctor as well.

For utilities regulated by a governing body such as the Public Utility Commission (PUC), winter termination procedures prevent the termination of service without the governing body's approval from December 1 through March 31. Regulated utilities may still issue termination notices from December 1 through March 31. They cannot, however, act on these notices to terminate service without having been granted permission to terminate service by the governing body. In these situations, contact must be made with the utility to determine if the governing body has granted the utility permission to terminate service for the applicant household before crisis benefits may be authorized to relieve the emergency. The household is ineligible for crisis benefits if the utility has not been granted approval to terminate service.

Heating Yes O No
Cooling C Yes O No
Crisis © Yes © No
Are there exceptions? • Yes O No
If yes, Describe.
Pay client directly in the following situations:
- Vendor refuses to participate in the LIHEAP program or has been removed from the list of participating vendors
- The household pays for heat as an undesignated part of rent
- The heating bill is in the name of a non-household member (due to death of household member, incarceration of household member, a household leaving the household, or poor credit history of household members making them unable to obtain utilities in their own name)
- Third-party billing
- Applicant is a roomer. A roomer is defined as an individual whose payment for lodging in a room includes heat and may include a private bathroom or one of the following: board, kitchen or bathroom privileges on a shared basis, or light housekeeping duties.
In these situations payments are made directly to the recipient. These account for 1.5% of all Cash payments and .2% of Crisis payment
Beginning from the program start date, the LIHEAP administering agency will send the applicant a written notice of the decision on eligibility within 30 days of the date of application. (1) The written notice will include an explanation of fair hearing rights and procedures. (2) The written notice will include the following: (i) If eligible. If the household is eligible, the written notice will include the type and amount of the benefit and the names of the payee. (ii) If ineligible. If the household is ineligible, the written notice will indicate the reason for the decision of ineligibility and provide a reference to the regulatory basis for the decision of ineligibility. DHS will give households that register for or access their "MyCOMPASSAccount" online the option to receive notices electronically instead of through traditional paper mail. Households that opt to receive electronic notices will be required to electronically sign a disclosure statement in which they agree to receive and read the electronic notices sent by the State agency. Users who opt to receive electronic notices may provide a valid email address, and the State agency will verify the email address provided by the user. Once the user is registered to receive electronic notices, he or she will receive a confirmation e-mail and a hard copy paper notice with instructions on how to login to their account view notices. When a notice is available electronically, the household will receive an e-mail notification with a link to the client's "MyCOMPASSAccount," where the household can login to view the notice. MyCOMPASSAccount is on a secure website that will protect the household's information through browser encryption, user name and password, time-out feature, and security questions
9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between a ctual cost of the home energy and the amount of the payment? Home energy suppliers must sign a Vendor Agreement with the Department agreeing to this condition. Suppliers may be subject to auditing by the Department's contractor.
9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP

Home energy suppliers must sign a Vendor Agreement with the Department agreeing to this condition. Suppliers may be subject to auditing by the Department's contractor.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

C Yes O No

If so, describe the measures unregulated vendors may take.

Attach a copy of the template statewide vendor agreement or a policy that indicates local agreements must adhere to statewide policies and assurances.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN

Section 10 - Program, Fiscal Monitoring, and Audit

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of funds?

Application Monitoring Procedures: All applications approved at the local agency level and forwarded for payment will be submitted for all computerized eligibility checks before payment is made.

The Agency monitors and tracks LIHEAP funds in several different ways to ensure fiscal accounting and tracking of LIHEAP funds. The following is an overview of our procedures. Application Monitoring Procedures:

All applications approved at the local agency level and forwarded for payment will be submitted for all computerized eligibility checks before payment is made.

The computerized checking process includes:

- a. Check for duplicate Social Security Numbers in existing DHS systems;
- b. Verify Social Security Numbers, Social Security benefit amounts, and death information through data exchange with the Social Security Administration;
 - $c.\ Verify\ Supplemental\ Security\ Income\ payments\ through\ the\ State\ Data\ Exchange\ (SDX);$
 - d. Check for criminal information on all household members through data exchange with the Commonwealth Judicial Information System;
 - e. Check on family size and income;
 - f. Check for Cash payment above \$1,000;
 - g. Check for Crisis payment below \$25;
 - h. Check for total Crisis payment above \$1000; and
 - i. Determination of payment;
 - All fields must contain acceptable established elements (characters or numbers);
 - All required fields must be completed.

Agency Monitoring Procedures:

- 1. The first step of the agency's monitoring strategy begins at the County Assistance Office (CAO).
- •CAO staff members, involved in determining LIHEAP eligibility are mandated to participate in weekly Knowledge Reinforcement Sessions. Each LIHEAP Knowledge Reinforcement Session (LKRS) is 6 to 7 slides in length with 5 questions which must be answered correctly in order to complete the session. The sessions reinforce policy and procedural issues that are error prone, based on monitoring findings.
- •CAO supervisors complete reviews of LIHEAP applications using a review tool designed to guide the reviewer and accumulate meaningful statewide results. CAO supervisors and managers as well as staff in the Bureau of Program Evaluation (BPE) monitor the results of the supervisor reviews to identify trends and implement corrective actions.
- •Electronic conferences are held initially weekly, then biweekly or monthly, to provide the counties with real-time system, policy and operational updates that impact the LIHEAP workflow. The calls also provide a means for CAOs to get answers to questions or resolutions to issues encountered.
- •Both the CAOs and the monitoring staff communicate with the Policy team through the LIHEAP Training and Policy mailbox to address questions and issues on a daily basis as they arise. The shared responses ensure a uniform interpretation and consistent application of regulations throughout the agency.
- 2. For the second step of the agency's monitoring strategy BPE coordinates the annual LIHEAP monitoring reviews of CAOs and Crisis Contractors based on a two-year schedule for the CAOs. Additional CAOs are reviewed, as needed, based on extenuating circumstances or the recommendation of the Bureau of Operations. LIHEAP reviews are completed by a field-based monitoring team. Monitoring activities include:
- CAO and Crisis Contractor administration of LIHEAP activities including eligibility, benefit determination and corrective action through LIHEAP application reviews and on-site visits.
 - Over 2,600 LIHEAP applications are randomly selected through data mining techniques and random samples and reviewed annually.
 - Independent audit on-site reviews to reduce potential bias in the monitoring process.
 - Investigation and appropriate and timely escalation of information that suggests potential misuse, misrepresentation, or abuse.

- Issuance of preliminary and updated performance reports to CAOs to provide relevant data on accuracy and the composition of findings at both the county level and state level.
- Development of corrective action plans based on the findings from the monitoring team. The plans are implemented by OIM and monitored for compliance by BPE.
- Development and implementation of year-round program changes to increase program accuracy and integrity through collaboration with other bureaus. Examples include working with Staff Development in the development of LIHEAP training for the next LIHEAP season to incorporate situations found to be prone to error.

Additional monitoring procedures include the following:

Bureau of Financial Operations provides OIM with technical assistance and conducts performance audits of specific CAOs and crisis contractors, as needed, to resolve systemic problems.

- •Controls are built into the PROMISeTM system which vendors use to bill for LIHEAP Crisis claims to ensure the vendors bill for valid Crisis requests and are paid the amount they are authorized to receive.
- •The vendor unit assists heating vendors by answering questions, helping to file Crisis claims in PROMISe™, and reviewing vendor transactions.
- •Executive Staff from the Bureaus of Policy, Program Support, and Program Evaluation meet on a bi-weekly basis to discuss LIHEAP and all issues and topics pertinent to the program.
- CAO supervisors review a list of direct pay authorizations every Friday to ensure that the budgets are being authorized correctly and accurately.
- •The Comptroller's Office reviews the weekly LIHEAP vouchers for any questionable payments and works with OIM to ensure all payments issued to households are correct.
- •The field monitoring team conducts reviews of LIHEAP vendors to ensure compliance with the DHS LIHEAP Vendor Agreement, focusing on the following areas:
 - -Compliance with DHS Information Requirements
 - -Proper and Accurate completion of the Vendor Agreement
 - -Timeliness of Crisis delivery
 - -Application of LIHEAP benefit in accordance with vendor agreement and DHS Policy
 - -Proper handling of LIHEAP refunds
 - -Record Retention

10.1a Provide your definitions of the following:

Obligation

Pennsylvania's financial obligations (incurred and anticipated) refers to funds committed for a specific use related to administering the LIHEAP program. Examples of obligations include the issuance of benefits to LIHEAP clients, purchase orders related to LIHEAP, procurement of IT services to support the LIHEAP program, costs related to the administering of the weatherization program, cost related to the monitoring the LIHEAP program, and among other related LIHEAP obligations

Expenditures

Expenditures refers to the payment of funds for actual expenditures incurred to administer the LIHEAP program.

Expenditure timeframe

Pennsylvania's expenditures falls within two time frames. There is the state fiscal year (SFY) which runs from July 1, 202X to the following June 202X. Also, there is the federal fiscal year (FFY) which run from October 1, 202X to the following September 202X. PA's LIHEAP program for a given FFY follows the grant service period for the grant that was awarded to PA.

Administrative costs

Pennsylvania's administrative costs include all personnel, operating, and indirect costs that incurred to administer the LIHEAP program. IT planning costs are excluded from administrative costs and are included as program costs as per the PA's LIHEAP state plan.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

Yes □ No

10.2a - if yes, describe your auditor selection process.

Single audits are completed through PA's Office of the Auditor General

10.3. Describe any audit findings of the grant recipient (i.e. State/Tribe/Territory) rising to the level of material weakness or reportable condition cited in the single audits, inspector general reviews, or other government agency reviews from the most recently audited fiscal year.

- •Both the CAOs and the monitoring staff communicate with the Policy team through the LIHEAP Training and Policy mailbox to address questions and issues on a daily basis as they arise. The shared responses ensure a uniform interpretation and consistent application of regulations throughout the agency.
- 2. For the second step of the agency's monitoring strategy BPE coordinates the annual LIHEAP monitoring reviews of CAOs and Crisis Contractors based on a two-year schedule for the CAOs. Additional CAOs are reviewed, as needed, based on extenuating circumstances or the

recommendation of the Bureau of Operations. LIHEAP reviews are completed by a field-based monitoring team. Monitoring activities include:

- CAO and Crisis Contractor administration of LIHEAP activities including eligibility, benefit determination and corrective action through LIHEAP application reviews and on-site visits.
 - Over 2,600 LIHEAP applications are randomly selected through data mining techniques and random samples and reviewed annually.
 - Independent audit on-site reviews to reduce potential bias in the monitoring process.
 - Investigation and appropriate and timely escalation of information that suggests potential misuse, misrepresentation, or abuse.
- Issuance of preliminary and updated performance reports to CAOs to provide relevant data on accuracy and the composition of findings at both the county level and state level.
- Development of corrective action plans based on the findings from the monitoring team. The plans are implemented by OIM and monitored for compliance by BPE.
- Development and implementation of year-round program changes to increase program accuracy and integrity through collaboration with other bureaus. Examples include working with Staff Development in the development of LIHEAP training for the next LIHEAP season to incorporate situations found to be prone to error.

Additional monitoring procedures include the following:

Bureau of Financial Operations provides OIM with technical assistance and conducts performance audits of specific CAOs and crisis contractors, as needed, to resolve systemic problems.

- •Controls are built into the PROMISeTM system which vendors use to bill for LIHEAP Crisis claims to ensure the vendors bill for valid Crisis requests and are paid the amount they are authorized to receive.
- ullet The vendor unit assists heating vendors by answering questions, helping to file Crisis claims in PROMISe TM , and reviewing vendor transactions.
- •Executive Staff from the Bureaus of Policy, Program Support, and Program Evaluation meet on a bi-weekly basis to discuss LIHEAP and all issues and topics pertinent to the program.
- •CAO supervisors review a list of direct pay authorizations every Friday to ensure that the budgets are being authorized correctly and accurately.
- •The Comptroller's Office reviews the weekly LIHEAP vouchers for any questionable payments and works with OIM to ensure all payments issued to households are correct.
- •The field monitoring team conducts reviews of LIHEAP vendors to ensure compliance with the DHS LIHEAP Vendor Agreement, focusing on the following areas:
 - -Compliance with DHS Information Requirements
 - -Proper and Accurate completion of the Vendor Agreement
 - -Timeliness of Crisis delivery
 - -Application of LIHEAP benefit in accordance with vendor agreement and DHS Policy
 - -Proper handling of LIHEAP refunds
 - -Record Retention

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

For the agency's monitoring strategy, BPE coordinates the annual LIHEAP monitoring reviews of CAOs and Crisis Contractors based on a two-year schedule for the CAOs. Additional CAOs are reviewed, as needed, based on extenuating circumstances or the recommendation of the Bureau of Operations. LIHEAP reviews are completed by a field-based monitoring team. Monitoring activities include:

- CAO and Crisis Contractor administration of LIHEAP activities including eligibility, benefit determination and corrective action through LIHEAP application reviews and on-site visits. Over 2,500 LIHEAP applications are randomly selected through data mining techniques and random samples and reviewed annually.
- Independent audit on-site reviews to reduce potential bias in the monitoring process. Investigation and appropriate and timely escalation of information that suggests potential misuse, misrepresentation, or abuse.
- Issuance of preliminary and updated performance reports to CAOs to provide relevant data on accuracy and the composition of findings at both the county level and state level.
- Development of corrective action plans based on the findings from the monitoring team. The plans are implemented by OIM and monitored for compliance by BPE.
- Development and implementation of year-round program changes to increase program accuracy and integrity through collaboration with other bureaus. Examples include working with Staff Development in the development of LIHEAP training for the next LIHEAP season to incorporate situations found to be prone to error.

10.7. Describe how you select local agencies for monitoring reviews. Attach a risk assessment if subrecipients are utilized.

Site Visits:

All agencies, aside from the largest processing locations are reviewed in a two year rotation. The largest processing locations are reviewed yearly. Size is determined by prior year volume. Some additional CAOs are reviewed, as needed, based on extenuating circumstances such as a change in processing style or prior year results

Desk Reviews:

Small processing locations, defined as those processing less than 5000 applications yearly, are monitored by desk review.

10.8. How often is each local agency monitored? Please attach a monitoring schedule if one has been developed. Biannually

- 12.2 How many of those fair hearings resulted in the initial decision being reversed? 13
- 12.3 Describe any policy and/or procedural changes made in the last federal Fiscal Year as a result of fair hearings?

None

- 12.4 Describe your fair hearing procedures for households whose applications are denied and/or not acted upon in a timely manner.
 - •The client must appeal within 30 days from the date of the written notice of a CAO decision or action. They may appeal by completing and signing the appeal section of any notice, sending a written or faxed request to the CAO, telling the CAO and following it up with a written request within 3 days, or sending a written request to the agency which notified the client of the decision.
 - •The CAO/agency will offer the client and his representative the opportunity to have a prehearing conference. This conference may be by telephone or face-to face. A prehearing conference is an effort to resolve an issue between the client and the CAO/agency before going to a hearing. If the issue can be resolved at the prehearing conference, the work and expense of an appeal hearing can be eliminated. The prehearing conference does not affect the client's right to have a hearing and it does not affect the requirements for submitting requests timely to Bureau of Hearings and Appeals (BHA).
 - •The BHA will designate an Administrative Law Judge (ALJ) who has the authority to make a decision on an appeal. The Director of BHA will affirm, amend, reverse, or remand the decision. The CAO, administering agency, or provider agency is bound by the decision, but may request reconsideration by the Secretary of Human Services. Only the client has the right to appeal to Commonwealth Court.

12.5 When and how are applicants informed of these rights?

Applicants sign a certification page as a condition of application. It states, "I understand I have the right to appeal any decision or undue delay in decision which I consider improper regarding this application." The explanation of the right to appeal also appears on the notice they receive informing them of the decision on their request for benefits

Section 16 - Performance Goals and Measures

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP (Benefit Targeting Index, Burden Reduction Targeting Index, Restoration of Home Energy Service, and Prevention of Loss of Home Energy Service). Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

Pennsylvania's Department of Human Services (DHS) created a semi-automated system in 2015 to gather energy data and generate performance measures reports. The system takes the following steps each FY:

- 1. A database is populated with data from LIHEAP-eligible households whose heating and electricity providers are known to DHS.
- 2. Files are generated from this database and securely sent to all providers who participate in performance measures data collection. The file contains identifying information for each household served by the provider.
 - 3. The provider enters the annual energy costs for each household in the file, when available, and returns it securely to DHS.
- 4.The database is populated with the annual energy data returned by the providers. 5.Using this data, the system generates the Energy Burden Targeting Report.
- 6.Using data stored in the eligibility system, the system also generates the two additional reports: Restoration of Home Energy Service and Prevention of Loss of Home Energy Service.

DHS has been successful in working with large utilities and energy providers to improve the process of collecting energy data. These organizations have the staff and technical expertise to expedite the collection and transmittal of data to DHS. The top 6 electric providers and the top 6 natural gas providers currently participate in the performance measures process. The top 12 fuel oil and top 11 propane providers also participate. Data collection remains a challenge for smaller providers, especially wood and coal providers. These small businesses often do not have the capability to provide the necessary data or are unable to follow technical instructions to receive and transmit the data securely. DHS is not currently attempting to add additional wood or coal providers to the process, since only a small percentage of Pennsylvania's LIHEAP recipients use these fuel types. DHS will, however, attempt to maintain the participation of the 5 providers who are already involved.

Report generation is entirely automated.

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

- 3. For Grant recipients other than individuals, Alternate I applies.
- 4. For Grant recipients who are individuals, Alternate II applies.

If the Grant recipient does not identify the workplaces at the time of application, or upon award, if there is no application, the Grant recipient must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the Grant recipients drug-free workplace requirements.
- 6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
