For a heat loss emergency due to failure of heating system assistance, renters are referred to the landlords. However, on a strict case by case basis, such situations may be reviewed for consideration if it can be documented and verified that the landlord is also low-income and does not have the resources to fix or replace the heating system. Cooling installs in rental units are restricted to portable units that will remain in the tenant's possession should the tenant move.

Determinatio	on of Benefits
4.8 How do y	you handle crisis situations?
~	Separate component
	Benefit Fast Track, no separate amount of crisis funds is issued. Rather benefits are issued to crisis customers within crisis response time frames.
	Other - Describe:
4.9 If you ha	ve a separate component, how do you determine crisis assistance benefits?
	Amount to resolve the crisis. \$0
✓	Other - Describe:
	Crisis assistance must resolve the crisis. There are times when clients may have to locate resources in additionto the amount of LIEAP Crisis benefit they are eligible for in order to completely resolve the crisis. Verification is required. There is no maximum benefit amount for the No Heat Broken Furnace crisis, however. To determine the crisis benefit levels for all Crisis types other than No Heat Broken Furnace, No Heat Prevention, and cooling assessment and remediation, Wyoming uses a sliding scale which is attached to this State Plan.

If No, explain.

• Yes O No

If No, explain.

Wyoming does not provide travel assistance. However, Wyoming does allow applications to be taken via telephone when the applicant is not able to apply online. This provides our diverse applicant population the greatest possible accessibility, preference, and ease in applying for assistance. Many of our Wyoming applicants live extremely remote and have zero to unreliable internet connectivity, so Wyoming allows the full range of

application submission options to ensure that no eligible applicant household is excluded due to restrictive application policies and procedures. If there is enough interest, the Intake Contractor in Wyoming will travel to local areas to assist with application completion and submission.

Section 10 - Program, Fiscal Monitoring, and Audit, 2605(b)(10) - Assurance 10

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES ADMINISTRATION FOR CHILDREN AND FAMILIES August 1987, revised 05/92, 02/95, 03/96, 12/98, 11/01 OMB Clearance No.: 0970-013 Expiration Date: 02/28/2027

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN Section 10 - Program, Fiscal Monitoring, and Audit

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of funds?

LIEAP funds are budgeted and tracked separately. The LIEAP program is assigned a unique chart of account number, which includes a unit number, program code, program period code, and an activity code to ensure we are within the eligible expenditure categories. LIEAP benefits paid out to fuel suppliers on behalf of eligible clients are tracked within the LIEAP computer system, and paid in the state accounting system with the activity codes attached to them. The Wyoming Department of Family Services utilizes a federally approved cost allocation plan and State personnel track their time via a time and effort system to ensure fiscal accounting for salaries, leases, and indirect costs.

Additionally, we receive an independent Single Audit as required. Unique coding is in place to track and report separately on Regular LIHEAP FFY24, LIEAP Supplemental, and LIEAP Infrastructure funds.

The DFS internal controls and procedures are developed and maintained by representatives of the Financial Services Division (FSD) on behalf of the Department. These procedures are reviewed and followed by Department employees, supervisors, managers, and administrators. Proper and adequate control in handling of public funds is the responsibility of all state administrators, managers, supervisors, and employees.

10.1a Provide your definitions of the following:

Obligation

When used in connection with a non-Federal entity, utilization of funds under a Federal award, obligations means orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non-Federal entity during the same or a future period. Payroll obligations are also time and effort costs for the allowable period of the grant.

Expenditures

Charges made by a non-Federal entity to a project or program for which a Federal award was received. (a) The charges may be reported on a cash or accrual basis, as long as the methodology is disclosed and is consistently applied. (b) For reports prepared on a cash basis, expenditures are the sum of: (1) Cash disbursements for direct charges for property and services; (2) The amount of indirect expense charged; (3) The value of third-party in-kind contributions applied; and (4) The amount of cash advance payments and payments made to subrecipients. (c) For reports prepared on an accrual basis, expenditures are the sum of: (1) Cash disbursements for direct charges

for property and services; (2) The amount of indirect expense incurred; (3) The value of third-party in-kind contributions applied; and (4) The net increase or decrease in the amounts owed by the non-Federal entity for: (i) Goods and other property received; (ii) Services performed by employees, contractors, subrecipients, and other payees; and (iii) Programs for which no current services or performance are required such as annuities, insurance claims, or other benefit payments.

Expenditure timeframe

Allowability of the grant. The start date through the end date. Obligation starts based on the grant and liquidated is in the grant award as well.

Administrative costs

All direct and indirect costs associated with the management of grant programs. Often capped by the grantor at a certain percentage of the grant.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133? O Yes O No

10.2a - if yes, describe your auditor selection process.

The State of Wyoming has an annual audit performed by an external audit firm annually which includes a compliance audit under the OMB's Uniform Guidance. The Wyoming Department of Family Services is included in this audit as an agency of the State. The audit considers all federal funds under OMB's Uniform Guidance and various programs across State agencies can be chosen for audit in any given year based on the external auditor's assessment of risk based on the federal expenditures reported. The LIHEAP program is included in the population of programs that could be chosen for audit.

The State of Wyoming external audit is contracted through the Wyoming Department of Audit who issues an RFP for audit services every 4-5 years, approximately.

The auditors select based on total amount reported on the SEFA and if other questions are answered yes. LIEAP had a lot of funding AND a new program manager. The auditor bases their decision based on risk assessments and a 5 year period.

10.3. Describe any audit findings of the grant recipient (i.e. State/Tribe/Territory) rising to the level of material weakness or reportable condition cited in the single audits, inspector general reviews, or other government agency reviews from the most recently audited fiscal year.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

There is only one (1) local agency for LIEAP intake and processing. The LIEAP grantee program manager selects LIEAP files from the database for review. A random sampling of approved applications will be selected at the end of each month for review.

Monthly management meetings are conducted, which include the local administering agency's managers and grantee program manager.

The two (2) Weatherization Program agencies receive a minimum of one (1) comprehensive administrative review annually, in addition to ongoing on-site quality control inspections of completed weatherization units.

10.7. Describe how you select local agencies for monitoring reviews. Attach a risk assessment if subrecipients are utilized.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN Section 12 - Fair Hearings

Section 12: Fair Hearings, 2605(b)(13) - Assurance 13

12.1 How many fair hearings did the Grant recipient have in the prior federal Fiscal Year? 0

12.2 How many of those fair hearings resulted in the initial decision being reversed? $\,0\,$

12.3 Describe any policy and/or procedural changes made in the last federal Fiscal Year as a result of fair hearings?

N/A

12.4 Describe your fair hearing procedures for households whose applications are denied and/or not acted upon in a timely manner.

Applicants who receive a Notice of Action may request a local conference to have the decision reviewed. The local conference starts at the local agency first. If it cannot be resolved there, it is escalated to the grantee Program Manager for further review. If it is found that the determination is incorrect, the application will be re-processed and approved. If the determination was accurate, the applicant is clearly informed of the reason(s) for the decision and is provided with referrals to other resources for which he/she may be eligible, including the right to request an administrative hearing.

Most concerns are resolved at the local conference step. It is rare for a concern to rise to the level of an administrative hearing. Clients are informed of their right to request an administrative hearing. Additionally, Wyoming has Contested Case Rules in place to address administrative hearings and to provide procedural consistency.

Applicants are encouraged to submit their requests for appeals as soon as they receive their denial notice if they believe the denial may be in error. However, we allow them 10 business days from the receipt of denial notice to submit a request for appeal. Reasons for appeal include, but are not limited to, disagreement with denial, reason stated on notice of denial, benefit amount (client believes benefit should be higher, for example), and, applications not acted upon within 45 days of receipt.

Wyoming's LIEAP local agency is required by contract to act on all applications within 30 days and this is tightly tracked within the LIEAP computer system, unless lack of action was due to system issues or other factors outside of the Contractor's control. Crisis applications are the exception as they must be expedited. However, should an application not be acted on within this 30 day timeframe, the applicant may request a local conference or administrative hearing as outlined in section 12.4 above. We have not had any issues of this nature rise to the level of an administrative hearing.

12.5 When and how are applicants informed of these rights?

Applicant Rights and Responsibilities is attached and made part of the application package. All Notice of Action letters also inform applicants of these rights.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES ADMINISTRATION FOR CHILDREN AND FAMILIES

August 1987, revised 05/92, 02/95, 03/96, 12/98, 11/01 OMB Clearance No.: 0970-013 Expiration Date: 02/28/2027

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN Section 13 - Reduction of Home Energy Needs

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Some of these funds are used to purchase energy conservation educational materials. These materials are distributed by our Weatherization agencies to households receiving weatherization assistance, as well as by our LIEAP contractor. We believe that behaviors impact energy usage and as we weatherize the home to make it more energy efficient, educating the household members about energy conservation as well as energy efficiency helps them be more conservative energy consumers overall. We also distribute our educational materials at application fairs and other public venues where LIEAP applicants/clients are likely to attend.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

We budgeted only 1% of funds for this purpose and track it closely. We are changing how we use and track and report on these funds to be better able to demonstrate measurable outcomes.

13.3 Describe the impact of such activities on the number of households served in the previous federal Fiscal Year.

We have received positive feedback regarding these activities. We began measuring energy consumption in the FFY 2016 season and are now better positioned to measure the impact of these activities. We do believe that educating clients about their energy consumption behaviors and the workings of their homes increases the overall energy efficiency of those homes. For example, educating clients about simple things like shutting lights off and unplugging appliances when not in use impacts the overall energy consumption in the home. Another benefit of distributing educational outreach materials at application fairs, etc. results in eligible applicants learning about the program and submitting applications for the first time.

13.4 Describe the level of direct benefits provided to those households in the previous federal Fiscal Year.

There was no direct monetary benefit issued as part of our Assurance 16 activities.

13.5 How many households received these services? 625

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN Section 16 - Performance Goals and Measures

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP (Benefit Targeting Index, Burden Reduction Targeting Index, Restoration of Home Energy Service, and Prevention of Loss of Home Energy Service). Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

Wyoming now has performance data that is used to make data-driven program and policy decisions, and to better target our limited resources to those most in need. Wyoming is able to demonstrate measurable outcomes and is looking forward to continually improving upon those outcomes and increasing the impact to Wyoming's eligible citizens. Wyoming LIEAP is a key player in moving Wyoming families toward financial independence, better health, and overall well-being. In FFY 2025, Wyoming plans to use performance data to target households with the highest energy burdens for increased benefit amounts which will further lower the energy burdens for those households. Wyoming will also be analyzing performance data to assess the impacts of rising fuel

prices on pre- and post-LIEAP energy burdens to determine whether our benefit matrix needs further adjustment to offset the increased fuel prices.

The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. 3. For Grant recipients other than individuals, Alternate I applies.

4. For Grant recipients who are individuals, Alternate II applies.

5. Workplaces under grants, for Grant recipients other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the Grant recipient does not identify the workplaces at the time of application, or upon award, if there is no application, the Grant recipient must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the Grant recipients drug-free workplace requirements.

6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

7. If the workplace identified to the agency changes during the performance of the grant, the Grant recipient shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a Grant recipient directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the Grant recipients payroll. This definition does not include workers not on the payroll of the Grant recipient (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the Grant recipients payroll; or employees of subrecipients or subcontractors in covered workplaces).

Certification Regarding Drug-Free Workplace Requirements

Alternate I. (Grant recipients Other Than Individuals) The Grant recipient certifies that it will or will continue to provide a drug-free workplace by:,
