Upon receipt of every application they are time/date stamped, reviewed for member(s) in the household that are elderly, disabled, or have young children. The priority applications that have three, two, or one priority elements are put into priority order to further assure that the chosen priority areas are considered objectively. Benefit Matrix is reflective of calculating priority levels.							
3.4 Describe how you prioritize the provision of cooling assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.							
Elderly that are 60 and older, a member of the household (any age) is disabled, and/or children six and younger are the established priority applications. Applications are taken year-round or during a minimum of a two-week period to give ample time for the community to submit applications. Priority factors are reviewed first for funding and then the remaining non-priority applications are reviewed. All applications must have income verifications, proof of Tribal membership, and utility bill matches Tribal members name on their application. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
