Section 4 - CRISIS ASSISTANCE

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES ADMINISTRATION FOR CHILDREN AND FAMILIES

August 1987, revised 05/92, 02/95, 03/96, 12/98, 11/01 OMB Clearance No.: 0970-013 Expiration Date: 02/28/2027

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN

Section 4 - Crisis Assistance

Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	State Median Income	60.00%

4.2 Provide your LIHEAP program's definition for determining a crisis.

If you administer multiple crisis assistance programs (winter, summer, and/or year-round), Include all program definitions.

The Fort Belknap LIEAP provides Year-Round Crisis Assistance to its consumers.

Consumers are subject to the various disconnect policies of the two electrical energy companies who send out disconnect notifications on a regular basis. The Fort Belknap LIEAP office strives to assist consumers before disconnect fees are attached to their delinquent and increases the balance due.

There is a constant need for propane in the households whose primary heating source is propane. The propane vendor only allows consumers in good standing to charge, others have to pay \$2.25 cash for 100 gallons of propane - which does not last long in the extreme weather here. Also, if a house is without electricity - their furnace that runs on propane does not work either.

Crisis assistance occurs when a consumer has a delinquent bill with a notice of termination of services for a scheduled date of disconnect or if they are already disconnected and they have no means of obtaining other sources of heat.

Crisis assistance also occurs when a consumer who utilizes propane as their main source of heat is down to 10-5% in their tank. This is a crisis here as the propane company delivers only 2x/week and must have \$225 for 100 gallons minimum.

4.3 What constitutes a <u>life-threatening crisis?</u>

A life-threatening crisis here is when a household is threatened with:

Immediate termination of services during inclement weather.

Lives in the rural areas of the reservation that is hard to reach.

A household that has residents on medical equipment and needs to have power provided for them.

A large household with young children.

A household with a disabled individual who is homebound with no other place to go.

Assistance must be given within 18 hours in the above cases and there are times when space heaters, blankets and flashlights must be provided if services cannot be restored at the time.

Crisis Requirement, 2604(c)

4.4 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households? 48Hours

4.5 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households in life-threatening situations? 18Hours
