Section 9 - Energy Suppliers**

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

Payments are made directly to home energy suppliers based on information provided on the client's bill or past due or disconnect notice. Vendors are notified by fax, email or phone call (followed up by written documentation) that payment will be made on the client's behalf, including the name, account number and amount of payment. LIHEAP Coordinator also makes sure that accounting has a W-9 form and invoice with check request.

9.2 How do you notify the client of the amount of assistance paid?

By phone, letter or in person

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Applicant supply a current bill at the time of applying for assistance. The supplier bills our client before they apply and they bring a current bill to be paid. The unpaid difference is the responsibility of the applicant. When the assistance is more than the bill the vendor puts a credit on the next months bill. Propane receiptants get the price of propane from the propane company and they know what percentage their tank will hold.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

Applicants are to notify the Nation if they are treated adversely so the Nation can handle the situation on a case by case basis. Relationships with local energy companies are cooperative. Typically LIHEAP payments are welcomed by the energy companies and lead to no adverse impact on the households receiving assistance. Everyone is treated the same before, during and after benefits are determined.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

Attach a copy of the template statewide vendor agreement or a policy that indicates local agreements must adhere to statewide policies and assurances.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
