Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	HHS Poverty Guidelines	150.00%

4.2 Provide your LIHEAP program's definition for determining a crisis.

If you administer multiple crisis assistance programs (winter, summer, and/or year-round), Include all program definitions.

A crisis situation is defined as unusual circumstances beyond the family's control, that threaten a household with imminent loss of energy/power. In our area, we experience cold and extremely windy winters, and summers are dry and hot causing droughts. If energy is cut to a family, it could end in serious complications for those with medical devices, need to cook, etc. The cold weather can make a home uninhabitable and the hot weather can cause life threatening dangers. Families may be in transition and need payment or deposit assistance. Families do not need to use other resources first, they only need a disconnect or connection notice and the required application/documents. Applications are processed as soon as possible.

4.3 What constitutes a life-threatening crisis?

A life threatening crisis occurs when a family is going to lose power/heating/cooling within 24-36 hours.

Crisis Requirement, 2604(c)

4.4 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households? 48Hours
