Our Elders who are on a fixed or no income and disabled are our high priority in the Cocopah Tribe. Next are the households with young children (special needs). Our program will try to accommodate special needs such as; in the winter months if there is a need we will supply blankets.

Since, our winter months are very few during the year we do not get many requests for assistance. Our tribe distributes the profit share checks during this time and families use this monies to pay some of the energy costs for the households.

The working poor ties into the matrix, if the household has young children under the age of 6 years old.

We use the same matrix for both heating and cooling.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

We do send the payments directly to the vendors for the clients. This is to avoid having the power shut off. There is no longer an office for Arizona Public Service which is the only company that provides electric services to the Cocopah Tribe. There are only pay stations and some places do not except checks for payment, and some pay stations charge a small fee which some clients can not afford. The gas companies that the tribe uses has local offices in the city of Yuma. Some of the clients do not have transportation and our local transit service an individual would have to many transfers which is confusing for our Elders.

9.2 How do you notify the client of the amount of assistance paid?

After the check is processed and mailed or delivered, within 5 working days after the application is completed the coordinator will call the client or do a home visit. The coordinator will let the client know at that time how much they were approved for and to let them know that the check was mailed or delivered to the vendors. We will also inform the client about the balance, if there is one that needs to be paid. If this is a crisis assistance we will notify the client within 48 hours.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

The check that our finance department processes will have the client's name and account number on the check. The coordinator will review the check to make sure everything is correct before the check is mailed out to the vendor. When the next bill is delivered to the client, we have them check the bill and call our office to let us know if the amount that was paid is on the bill. There might be a few times where we will call the vendors; APS power company or propane companies to make sure the check was received and placed in the clients account.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

We have developed an understanding with Arizona Public Service and the clients have not expressed any concerns about any mistreatment from the vendor (APS). We try to have the clients write down the name of the person that they spoke to about their energy bill or gas bill if there is a problem.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Once the check is processed the finance department keeps a log on all LIHEAP transactions, and the information is given to the coordinator in the monthly report. The coordinator must sign for the LIHEAP checks and the check stub is placed with the clients application. Once that is done the coordinator inputs all information such as; clients name, address, acct. #, total energy bill amount, approved amount of assistance and when the check was mailed out to the vendor. This is how the coordinator monitors the spending of the LIHEAP funds.

<p>LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY</p>	

Section 11: Timely and Meaningful Public Participation, 2605(b)(12), 2605(C)(2)

11.1 How did you obtain input from the public in the development of your LIHEAP plan? Select all that apply.

- Tribal Council meeting(s)
- Public Hearing(s)
- Draft Plan posted to website and available for comment
- Hard copy of plan is available for public view and comment
- Comments from applicants are recorded
- Request for comments on draft Plan is advertised
- Stakeholder consultation meeting(s)
- Comments are solicited during outreach activities
- Other - Describe:

The LIHEAP coordinator makes home visit to Elders and families who have asked for assistance in the past year for comments about the LIHEAP program. Notices are placed in the Social Services office and community center. We also use our Newsletter by placing an ad twice a year. During our monthly director meetings the coordinator lets the directors know that if a family or individual is in need of energy assistance to refer the families to the LIHEAP program.

There has not been any reports of fraud or abuse in the community.

11.2 What changes did you make to your LIHEAP plan as a result of this participation?

We have improved our application and in-take process. We have helped a few families open an on-line account. This process has helped the clients get their current bill. Since there is no longer an office for Arizona Public Service in the local area we now have access to the energy information for the families. For future reference, we would like to have our younger families take a budgeting class when the families are seeking assistance.

Public Hearings, 2605(a)(2) - For States and the Commonwealth of Puerto Rico Only

11.3 List the date and location(s) that you held public hearing(s) on the proposed use and distribution of your LIHEAP funds?

	Date	Event Description
1	06/14/2018	Elders meeting this is public for the community
2	08/01/2018	posted the plan at the community center (no comments)
3	08/01/2018	Posted the plan at the Tribal Headquarters (no comments)

11.4. How many parties commented on your plan at the hearing(s)? 10

11.5 Summarize the comments you received at the hearing(s).

Some of the Elders were not happy with having to provide all the documents that the LIHEAP program is requesting for eligibility such as, proof of income, SS cards etc. The Elders were glad that they are given priority along with the handicap/disabled individuals. The Elders were pleased that we provide home visits because there are days when the elder has no transportation. And the Elders like that we only provide services to our three reservations. They felt that the surrounding cities Somerton and Yuma have agencies with more money that can provide assistance to the tribal members who live in the cities. We have tribal members who live in the cities of Yuma and Somerton, Since our program receives monies from the State and our program

receives a smaller amount the tribal members should seek assistance with the Yuma and Somerton agencies. If we do have a tribal member who lives in Yuma or Somerton and applies with our program, we would call the Yuma and Somerton LIHEAP offices to make sure the household did not receive assistance through these agencies. Which would be considered double dipping since our program receives money from the State. The Elders also express that the program is vital to the tribe since the program provide some relief during the summer months when the energy cost are very high.

11.6 What changes did you make to your LIHEAP plan as a result of the comments received at the public hearing(s)?

Same as it is stated in 11.2

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
