Expiration Date: 09/30/2020

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

In the event an eligible applicant uses gas to power a generator that is used to heat or cool their home, the exception of payment will be made payable to the applicant. Receipts of purchase will be required to be submitted to the office to validate proof of purchase. If applicant fails to provide the office with receipt of proof of purchase, this may result in denial of future applications submitted until the remainder of the fiscal year or until receipts have been submitted. Whichever comes first.

9.2 How do you notify the client of the amount of assistance paid?

During the application process the applicant is notified of the review and payment process in which the applicant is verbally given the amount approved and notified when the voucher or check becomes available and paid to the vendor. If a copy of payment is requested by the applicant, a copy of the receipt is given, mailed or hand delivered as proof of payment to the applicant.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

The process is to screen the bill/voucher by the energy supplier and check the consumption history, the electrical rate disclosure and reconcile the customer charge for accuracy.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The payment for LIHEAP funds is an internal code that is not shared with the applicant or vendor. This code is not printed or visible with the vendor check. Only the account holder and account number appear on the check stub. This practice ensures no adverse treatment for LIHEAP recipients.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

By issuing the maximum benefit amount depending on the energy burden of the household and LIHEAP Matrix, this will alleviate the risk of home energy crisis as the payment will issue an exertion on the account to avoid a disconnection. Upon interview, applicants receiving financial assistance for home energy costs are encouraged to make regular payments to prevent and minimize high energy burden or disconnects.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

Applications are submitted to the Community Liaison that then reviews the application for completeness and compares the declared income to the low income poverty guidelines issued by the United States Government for the fiscal year. This position also ensures that a vendor invoice is attached to all energy payments. The paperwork is then coded for review and processing by the Accounting Technicians. This second review is to ensure compliance of LIHEAP requirements. All checks require 2 signatures of either the President, or Vice-President, independent from the Finance Department.

No refunds will be issued. If payment is applied to the wrong an email will be sent to the vendors' Pledge Department and funds will be transferred to the correct applicant's account. In the event a check has not been cashed and returned to the Finance Department, the Accounts Payable Technician inputs in the Finance system the check and amount on check has been voided. A credit memo is then entered and the LIHEAP funds are returned to the original grant fund account.

The Quechan Indian Tribe has adopted by Resolution R-47-08; an accounting manual that details policies on Financial Procedures. Staff who are responsible for handling money are given an orientation about these procedures as the need arises. In addition the Tribe is required to have an annual audit per OMB Circular A-133 that is to be issued by September 30th of each year for the prior calendar year.

Expenditures of the Tribe are recorded in accounting records maintained by the accounting department. Once the line item for LIHEAP, HEATING/COOLING/CRISIS has been depleted, the accounting office will alert the Community Liaison and the Quechan Social Service Director. Line items for each different fiscal year are coded uniquely to separate years of funding.

The accounts of the Tribe are maintained in accordance with the principles of fund accounting to ensure observations of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds in accordance with the activities or objectives specified for the resources. Each fund is considered a separate accounting entity and its operations are accounted for in a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues and expenditures. Although accounts are separately maintained for each fund, funds that have similar characteristics have been combined into fund types, which are further classified into broad categories as follows:

Grants and Contracts – The grants and contacts fund account for the proceeds of specific revenue resources legally restricted to expenditures for specified purposes.

The modified accrual basis of accounting is used by the governmental funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. A one-year availability period is used for revenue recognition for all governmental fund revenues. Expenditures are recorded when the related fund liability is incurred. The accrual basis of accounting is utilized by the business-type activities. Under this method, revenues are recorded at the time the liability is incurred.
