Section 9 - Energy Suppliers,, 2605(b)(7) - Assurance 7

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
ADMINISTRATION FOR CHILDREN AND FAMILIES

August 1987, revised 05/92,02/95,03/96,12/98,11/01
OMB Clearance No.: 0970-0075
Expiration Date: 04/30/2014

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

In a limited number of cases reimbursement may be made directly to a client for wood, propane or gasoline for generators upon presentation of a current valid receipt. These cases will also receive an assessment visit by appropriate personnel to assist with safety and energy efficient information whenever possible. We also purchase (or rent during cold winter months when purchase is too costly) propane tank direct from vendors for weatherization supplies (crisis component of program) water cooler pads, furnace filters and small repair parts and distribute these through our Environmental Health Department with the applicant paying and arranging for installation. In situations such as these, two estimates from two different vendors will be needed from the LIHEAP applicant. In cases where only one estimate can be obtained by the LIHEAP applicant the LIHEAP Coordinator will seek authorization from Chief Executive Officer or designee.

9.2 How do you notify the client of the amount of assistance paid?

Notification is issued both verbally and in writing. Written notification is done by submitting a LIHEAP voucher form to the LIHEAP applicant, the LIHEAP voucher form includes the LIHEAP applicant's name, account number, date pledge was called in, vendor contact person, dollar amount being paid and the remaining balance due. Also, a copy of the bill paid will be attached to the LIHEAP voucher.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Assuring that the home energy supplier performs what is required involves direct communication between Riverside-San Bernardino County Indian Health, Inc. and local vendors both verbally and in writing. Local vendors assign one representative to act on their behalf and Riverside-San Bernardino County Indian Health, Inc. submits a letter to the vendor outlining the LIHEAP program. Agency's Outreach and Environmental Health Departments will make home visits if needed. Assuring that the home energy supplier charges the eligible household the difference between the actual cost of home energy and the amount of payment made by those LIHEAP programs by establishment if their bill does not reflect the amount paid by this program and by checking applicant's bills in comparison to previous utility bills when they are returning for further assistance.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

Establishment of procedure with home energy suppliers to assure that LIHEAP eligible households are not treated adversely because of receiving LIHEAP assistance by communicating the purpose of this program and its operation both in writing and verbally to the home energy suppliers and obtaining their agreement to abide by this assurance, and by assigning staff available to deal with administrators in home energy companies should such problems occur.

In addition, assuring that any home energy supplier receiving direct payment will not discriminate against the eligible household on whose behalf a payment is made by comparing non-LIHEAP household energy bill amounts with those of LIHEAP participating households and having staff available to act as advocate on behalf of LIHEAP participating household should a form of discrimination arise. No distinction will be made between renters and owners regarding crisis and assistance payments, which will be based on existing need, except in crisis situations when a propane tank is needed for rented housing; in those cases the propane tank will be rented rather than purchased. Weatherization will be based on eligible recipient residing in the home and may include repairs on heating or cooling devices, repairs effecting efficient use of energy, purchase of heating or cooling all depending on community need and funding available. Assurance #15 which is not applicable and Riverside-San Bernardino County Indian Health, Inc., does not provide assurance #16.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

When purchasing wood, the vendor must deliver the wood before payment will be made. on several of the reservations where the LIHEAP applicant purchases wood usually the vendor/person selling the wood is a local tribal member who does this service as a side job since it is difficult to find vendors willing to travel to the reservation.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
