6.1 Select all outreach activities that you conduct that are designed to assure that eligible households are made aware of all LIHEAP assistance available:

Place posters/flyers in local and county social service offices, offices of aging, Social Security offices, VA, etc.

Publish articles in local newspapers or broadcast media announcements.

Energy assistance information is also streamed through the 'DSS Network' at all DSS regional offices to inform DSS clients of the availability of heating assistance.

An early application period is used at the beginning of the program to allow agencies time to provide outreach to vulnerable households, especially those that are homebound.

If any of your LIHEAP components are not centrally-administered by a state agency, you must complete questions 8.6, 8.7, 8.8, and, if applicable, 8.9.

8.6 What is your process for selecting local administering agencies?

The Economic Opportunity Act allows for community action agencies (CAAs) to be designated and prioritized as community based organizations. As such, waivers from competitive procurement are secured by the state's Office of Policy and Management prior to contracting with CAAs to operate Low Income Home Energy Assistance Programs (LIHEAP). Additionally relating to the selection process, the annual Connecticut Energy Assistance Program (CEAP) Allocation Plan for LIHEAP specifically identifies the CAAs as the contractors for CEAP. This plan is reviewed by the State Office of Policy and Management, and submitted by the Governor to the state's LIHEAP legislative committees of cognizance for approval - Appropriations, Human Services and Energy/Technology.

8.7 How many local administering agencies do you use? 9

8.8 Have you changed any local administering agencies in the last year?

- Yes
- No

8.9 If so, why?

<input type="checkbox"/>	Agency was in noncompliance with grantee requirements for LIHEAP -
<input type="checkbox"/>	Agency is under criminal investigation
<input type="checkbox"/>	Added agency
<input type="checkbox"/>	Agency closed
<input checked="" type="checkbox"/>	Other - describe

The Human Resources Agency, Inc. (HRA) and Bristol Community Organization, Inc. (BCO) merged effective January 1, 2017 resulting in 9 local community action agencies instead of 10.

Community Action Agency of New Haven, Inc. (CAANH), experienced cash flow issues in FFY2017, resulting in delayed payments to LIHEAP deliverable fuel vendors. These issues have risen to the point of material weakness, threatening the financial stability of their organization.

The Department of Social Services (DSS), has intervened in light of the cash flow issues at Community Action Agency of New Haven (CAANH), and began making LIHEAP related utility payments directly to vendors for FFY2018, in addition to more stringent fiscal and program monitoring. The state has negotiated with another CAA to make deliverable fuel payments to vendors providing services in the CAANH catchment area.

New Opportunities, Inc. continues to work through their action steps to address the previously reported cash flow issues and the DSS Quality Assurance will continue to review, canceled checks for deliverable fuel vendors to ensure timely payments for New Opportunities, Inc. In addition, DSS will continue to make LIHEAP related utility payments directly to vendors in FFY 2019.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

The only exception to this is when the household's heat is included in their rent, in which case a check is sent directly to the household.

9.2 How do you notify the client of the amount of assistance paid?

All eligible clients receive an eligibility letter stating the amount of benefits they are awarded. Payments on behalf of utility heated households are sent directly by community action agencies (CAA) to their utility (with the exception of payments made directly by DSS to utility companies on behalf of New Opportunities, Inc. and Community Action Agency of New Haven, Inc.), and are reflected on the household's utility bill. Deliverable fuel heated households contact their CAA when they need fuel and are informed of their benefit balance prior to the authorization of each fuel delivery.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Participating deliverable fuel vendors each sign a document that specifies that they are not to charge clients for deliveries made through the program, should their retail price be higher than the fixed margin price.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

All home energy suppliers (except wood and coal), are required to sign an agreement which details the conditions of their participation. Please see the attached vendor agreements for deliverable fuel energy suppliers and utility energy suppliers.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

Each week, or more often if necessary, the Office of Community Services pulls Activity Summary Reports that include case processing information, demographics, and fiscal information such as funds committed, funds invoiced for payment, and actual expenditures. These reports are analyzed to ensure that funds are being committed in a timely manner and that funds are being expended properly and timely. Quarterly reports are required from community action agencies for the reporting of administrative expenditures. Reports are compared with each agency's approved budget, and payments are made accordingly.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

Yes No

10.3. Describe any audit findings rising to the level of material weakness or reportable condition cited in the A-133 audits, Grantee monitoring assessments, inspector general reviews, or other government agency reviews of the LIHEAP agency from the most recently audited fiscal year.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.
Each community action agency is assigned staff from the DSS Office of Community Services to provide technical assistance and monitoring oversight. Frequent on-site visits are conducted during the program year to review sample files and resolve any emergent issues. A sampling of deliverable fuel slips and associated payments are also examined during the program year to ensure accurate, proper, and timely payments.
10.7. Describe how you select local agencies for monitoring reviews.
Site Visits: All community action agencies are monitored.
Desk Reviews: DSS has access to the LIHEAP computer systems used by each community action agency. Beyond pulling caseload and fiscal information, we can review individual computer files to access the records of clients who have contacted DSS for assistance with their specific case. Note that this assistance is different from the formal appeal process that LIHEAP applicants/clients have the right to, i.e., a desk review of their case by the community action agency should they believe that they were wrongfully denied benefits, and if still unsatisfied, an appeal to the DSS Office of Legal Counsel, Regulations and Administrative Hearings. DSS also does an in depth review of heating system repair and replacement request to determine eligibility for repair/replacement.

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Assurance 16 funds play a significant role in the ability of community action agencies to provide the appropriate case management activities aimed at reducing reliance on LIHEAP funds and reducing their overall energy needs. Such services include, but are not limited to, assistance with arrearage reduction, non-CEAP funded fuel banks, financial education, energy conservation and vendor mediation.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

DSS allocates less than the 5% maximum of the LIHEAP funds for these activities to the community action agencies. The agencies are required to submit quarterly fiscal and programmatic reports detailing their use of these funds for the specific purposes intended.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

Beyond the direct benefits to LIHEAP recipients as described in Section 13.4 below, clients benefited from budget counseling and money management services, energy conservation counseling, and vendor mediation.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

Services provided through Assurance 16-funded staff helped to leverage millions of dollars for LIHEAP recipients through enrollment in utility arrearage forgiveness programs (Matching Payment Program and NewStart), as well as through Operation Fuel, which is a non-profit organization that provides heating assistance to households that have exhausted their LIHEAP benefits, or that are at risk of losing their heat from shut-offs. Also, vendor mediation to prevent shut-off or reduce monthly budget payment and financial literacy to assist in money management.

13.5 How many households applied for these services? 14,503

13.6 How many households received these services? 8982

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 14:Leveraging Incentive Program, 2607(A)

14.1 Do you plan to submit an application for the leveraging incentive program?

Yes No

14.2 Describe instructions to any third parties and/or local agencies for submitting LIHEAP leveraging resource information and retaining records.

Fixed Margin Pricing Program (FMP) - Heating Oil vendors are required to post their retail price on fuel slips when they make a delivery. This price is posted in the energy assistance software, which allows for the tracking of the difference between the FMP and the retail price.

Operation Fuel and Arrearage Forgiveness Programs - Upon request, Operation Fuel and Utility Companies can provide the total amount of funding provided to LIHEAP clients through Operation Fuel or through utility-administered arrearage forgiveness programs.

14.3 For each type of resource and/or benefit to be leveraged in the upcoming year that will meet the requirements of 45 C.F.R. Â§ 96.87(d)(2)(iii), describe the following:

Resource	What is the type of resource or benefit ?	What is the source(s) of the resource ?	How will the resource be integrated and coordinated with LIHEAP?
1	Fixed Margin Pricing Program	The Fixed Margin Pricing Program will pay oil vendors making deliveries to LIHEAP households the lessor of their retail price or the margin over rack price based on information downloaded each work day from the Oil Price Information Service (OPIS). The daily fixed margin price is based on the daily New Haven rack average OPIS low sulfur distillate price, plus a fixed margin of 33 cents per gallon, plus the appropriate county differential, which ranges between counties from 3.3 cents to 11.5 cents per gallon.	Any leveraged funds will be used for direct program services to clients.
2	Operation Fuel	Operation Fuel is a private, non-profit organization that distributes privately raised funds through a network of fuel banks that accept and approve applications from households in need of emergency fuel oil deliveries or protection from shut-offs. Operation Fuel can, as funding permits and with the approval of its Board of Directors, on an annual basis provide limited assistance to LIHEAP households that are facing a crisis because they have exhausted all available LIHEAP benefits, or because they did not apply for the energy assistance program by the required deadlines.	Any leveraged funds received will be used for direct program services to clients.

3	Utility Arrearage Forgiveness Programs	Community Action Agencies may also refer eligible households to utility companies that operate arrearage forgiveness programs. Households that participate in these programs will have a portion of their arrears (back bills) forgiven if all payment arrangements are kept, and if the household has been approved for LIHEAP. In order to participate in the arrearage forgiveness programs, households must provide utility companies with verification as to the amount of the energy assistance payment which will be issued by the community action agency on their behalf. The amount of arrearage forgiveness received by the household is dependent on the amount of personal payments made by the household and the amount of the household's benefit.	Any leveraged funds received will be used for direct program services to clients.
4	Home Energy Solutions-Income Eligible	Households under 60% of the state median income may qualify for services through this program.	Any leveraged funds will be used for direct client services.

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

In December 2016, CT initiated a pilot project to automate performance measures data matching with its two LIHEAP source systems, and was able to report on all categories for Section V. Energy Burden Targeting for Module2-LIHEAP Performance Measures in January 2018 (for FFY 2016). Additional programming will be completed shortly to address data inconsistency for identifying High Burden Households. It is anticipated that meetings held with the five largest utility vendors in August 2018 regarding energy consumption for data matching will lead to substantially expanded aggregate reporting for CT, as it is in the process of enhancing its data matching ability with the two vendors who manage CT's LIHEAP database. Ongoing discussions to increase deliverable fuel vendor participation should also improve data collection for energy burden targeting. Additional automated enhancements will be addressed during FFY 2019 to glean preventative, resorative and weatherization data that is currently reported manually.
