The program will continue until May 3 1, 2022, or until funding is exhausted. The Weatherization program started July 1, 2021 utilizing HHS funding.

Illinois will not administer a separate Cooling assistance program during FY2022. Eligible customers will be assisted with both gas and ele ctric until May 31, 2022.

### Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	6	HHS Poverty Guidelines	200.00%
2	10	State Median Income	60.00%
3	15	HHS Poverty Guidelines	150.00%

### 4.2 Provide your LIHEAP program's definition for determining a crisis.

In the event of a household related crisis, the Illinois Department of Commerce and Economic Opportunity (the Department), in coordinati on with other pertinent agencies, will develop an appropriate response designed to eliminate the threat to life and health. Under such condition, the Department may utilize a portion of available 2022 LIHEAP funding to provide crisis assistance to low-income households affected by threatenin g conditions.

Reconnection Assistance (RA) will be provided when a household is in imminent disconnection status or is already disconnected by the utility from its primary heat source or from any secondary energy source that is heat related. The imminent threat disconnection definition will continue to be \$300 outstanding balance instead of seven (7) days prior to disconnected. Previously, disconnection was considered imminent when disconnection would occur within 7 days without the provision of crisis assistance. The Department made this change in light of the utility shut-off winter moratorium for gas and/or electric services that ended on March 31st, 2021 and further assist customers who continue to struggle during the current health emergency who will be subject to disconnection for nonpayment of utility charges.

Crisis assistance (Reconnection Assistance and Furnace Assistance) will be provided within 48 hours or 18 hours in the event of a life-thre atening situation affecting the individual household. The 48/18 hour timeframe is from the day the customer's application is completed and all required documentation has been received and verified. Although the Local Administering agencies are aiming to serve households within the 18/48 hours timeframe this requirement was exempted by HHS, in response to COVID-19.

The amount of Reconnection Assistance will be made to the respective utility(ies) regardless of the restoration of energy service(s). House holds are eligible for Reconnection Assistance payments not to exceed a total of \$1,200 per household per year. Eligible households are limited to one Reconnection Assistance payment for the primary energy source and one for the secondary. Both payments combined cannot exceed the appli cant benefit limit of \$1,200. Applications for primary and secondary Reconnection Assistance payments do not have to be done simultaneously. The household is allowed to apply for a Reconnection Assistance payment for one vendor. This is not to be interpreted to mean that the household is entitled to the maximum benefit. The time of the application, the amount for reconnection, and the availability of funding will determine if each household applying for Reconnection Assistance benefits will receive the maximum.

Previously, Reconnection Assistance was not to be made on behalf of a household unless it restored the household's energy service and/or the household made a good faith effort to pay its home energy bills. The Department will continue overriding the Good Faith Effort (GFE) and/or Customer Payment Responsibility (CPR) requirement during Program Year (PY) 2022 as part of our COVID-19 response to assist households in need.

Furnace Assistance will be provided until March 31, 2022 or until the furnace allocation is exhausted, to households that qualify for and re ceive a LIHEAP energy assistance benefit in the 2022 Program Year. Furnace Assistance benefits are for households that do not have an operating furnace and/or a safe heat source for their residence. Furnace Assistance benefits, which may include true-up, repair, or replacement, will be utilized to restore a vital heat supply to the home. The Furnace Assistance component will be operated in collaboration with the LAA's Weatherization program. The LAAs are uniquely situated to define and develop individualized responses to energy related emergencies. Packaged (heating and cooling) units may be repaired or replaced using Furnace Assistance, as with any other furnace, replacements of these units must be justified as the safest, most effective measures needed to safely restore heat to the residence. Additionally, water heating venting correction are allowable health and safety expenditure.

Beginning September 1, 2021, the Department will include a new Pilot Program as part of the Furnace Assistance Program. The pilot program is called Furnace Voucher Pilot Program. This pilot program will be optional and LIHEAP Local Administering Agencies that decide to administer this pilot will be pre-approved by the Department. Some LAAs will administer the Furnace Assistance Program as a 100% Furnace Voucher Pilot Program and others may offer a hybrid program where some customers can be assisted through the traditional Furnace Assistance Program and others through the Furnace Voucher Pilot Program.

Under the Furnace Voucher Pilot Program customers will: 1- apply for Furnace Assistance through their LAA; 2-LAA will document whet her the customer has a safe place to go if they do not have heat so the 48/18 hours requirement is met. The LAA provides a list of all HVAC contractors in the area. The list should state there may be more contractors in the area, this is a helpful tool for the customer to find an appropriate HV AC service provider; 3- customer is made aware the repair/replacement must be made by an established HVAC contractor; 4- customer receives a document that tells them the voucher amount is based on the type of existing heating system; 5- customer finds a contractor to make repairs/replace of existing HVAC equipment; 6- customer calls the LAA with information on furnace vendor selected, 7-LAA works with the contractor to make allowable voucher payment. Customer may have a Customer Payment Responsibility, if total bill exceeds the maximum Furnace Assistance ben efit amount; 8-Contractor signs a voucher acceptance form stating that safe heat has been restored to the customer, prior to voucher being paid.

### 4.3 What constitutes a life-threatening crisis?

Reconnection Assistance and Furnace Assistance will be provided within 18 hours from the date and time the customer's application is complete; if the energy crisis is life-threatening. For the purpose of implementing the 18-hour processing provision exists if the following conditions are met:

- The temperature is 32 Fahrenheit or below.
- The household is not protected by the Illinois Commerce Commission (ICC) rules or similar local laws.
- Reconnection is the only available remedy, i.e, the household does not have alternate

shelter, lacks a safe temporary means of heat, and/or is homebound.

Each local agency is required to develop specific written procedure to implement the 18-hour provision in an equitable manner, including f rom which the outside temperature was established (e.g. via Intellicast.com for the customer's city of residence). Outreach sites are required to sec urely scan and email applications that require an 18-hour response along with the supporting documentation to the LAA-Main Office via a secure file transfer system with the Department's prior approval.

Priority eligibility for elderly, disabled, young children and/or disconnected households is currently removed during this time as part of our COVID-19 response to assist households in need. In other words, all eligible households can start applying for Reconnection Assistance beginning September 1, 2021. Under this component funds may be used for either weather or supply emergencies that affect the entire eligible population or for crisis-related situations that affect an individual ho usehold to the extend funds are available. The policies for eligibility to receive crisis benefits are explained in Section 4.2 of this Model Plan.

Beginning September 1, 2021, the Department will consider households categorically eligible if one household member receives SNAP, T ANF Cash and AABD Cash benefits in the previous month from the date of application.

The additional/differing policy for renters whose utilities are included in rent state a one-time "Cash" benefit (in the form of a check to the customer) is available when the household's rent is greater than 30% of the household's monthly income. In response to the increase in need of assistance programs and the availability of funds, the Department is maintaining the LIHEAP income guidelines to 200% of the Federal Poverty Level and 60% State Median Income. **Determination of Benefits** 4.8 How do you handle crisis situations? 8.6 What is your process for selecting local administering agencies?

The Department has developed a network of Local Administering Agencies (LAAs) to act as local service providers in accordance with this assurance. We will continue utilizing these agencies, whenever possible, to operate the LIHEAP program. A Notice of Funding Opportunity (N OFO) process is issued for the replacement of a local agency due to poor performance and/or non-compliance.

The Department will give special consideration to the designation of such agencies, to any local or private nonprofit agency that was receiving federal funding under any low income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 or any other provision of law on the day before the date of the enactment of this Act, except that: (1) the state shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the state, and (2) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, the state shall give special consideration in the designation of LAAs to any successor that is operated in substantially the same manner as the predecessor agency that did receive funds for the fiscal year which the determination is made.

To be eligible for funding opportunity, a local agency must submit an annual application to the Department for funding. In addition, LAAs are required to submit a standard grantee application and a program implementation plan prior to the start of the program year. Applications must include/demonstrate the following areas:

- 1- An effective outreach referral program (evidenced by services to customers in accordance with their incidence in the census-based cl ient population of the service area) and continuing planning process and capability (evidenced by demonstrated applicant staff capability to complete federal and/or state grant applications and reporting documents).
- 2- An accounting system that meets generally accepted accounting principles of the American Institute of Certified Accounts (AICPA) (1989).
  - 3- An effective citizen participation/community involvement program.

Beginning September 1, 2021, the Department will consider households categorically eligible if one household member receives SNAP, T ANF Cash and AABD Cash benefits in the previous month from the application date. LAAs will continue utilizing the Unreturned Customer report (available in LIHEAP.net) to reach out prior year customers who have not applied for assistance yet. The Department is allowing LAAs to enter new applications in the 2022 Program Year utilizing income documentation from seniors and disabled applicants from the 2021 Program Year. Verified income documentation will remain valid for 90 days, except for SSA/SSI households whose income changes annually and may be verified once a year. The Department will continue working with the LAAs to maximize these applications and help customers get served faster and more efficiently. The Department is including a LIHEAP insert in the SNAP, TANF Cash and AABD Cash approval letters to inform eligible households they can apply for LIHEAP. Finally, LAAs must use at least two required intake systems and accept customer documentation through several choices (in-person, customer portal, drop-box, fax, etc.

12.2 How many of those fair hearings resulted in the initial decision being reversed? None

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

### 12.4 Describe your fair hearing procedures for households whose applications are denied.

The Department developed a system that provides an opportunity for a fair resolution process to households whose claims for assistance u nder this Plan (including claims for weatherization assistance) are denied or are not acted upon within reasonable time. The resolution process includes three levels of review: The informal conference process conducted at the Local Administering Agency level; Review of the LAA decision at the State/Department's programmatic review level; and the formal administrative hearing through the Department's administrative hearing rules (5 6 Ill Admin Code 2605).

### Informal Conference Review Process

The LAA shall designate a hearing officer to conduct the informal conference. The informal conference is designed to understand the action taken or the reason for delay. At the end of the informal conference, the LAA will give the claimant a written statement describing the result of the conference and citing the policy reasons for the decision. A copy of the report must be filed in the applicant's file. In the event the claimant is not satisfied with the informal conference determination, the claimant may request a review at the Department's programmatic level by filing a Request for State Review with the Department within thirty (30) days of the informal conference determination. All informal conference determination in will contains Request for State Review attached to the determination.

### State/Department Programmatic Level Review

The Department shall designate a staff person to conduct the programmatic level review. During this process, the Department will review the claimant's file and the informal conference report. # LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

### Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and ther eby the need for energy assistance?

The Department conducts LIHEAP client education and counseling of customers who seek energy assistance. This counseling will encoura ge and enable these LIHEAP households to reduce the cost of their home energy through energy conservation and energy lifestyle (behavioral) mo diffications. This will potentially lower the household's energy cost and reduce the need of energy assistance.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

The maximum allowable expenditure amount is limited in the LAA's grant by item line to 3% which prevents expenditure of more than 5% of the grant amount on Assurance 16 activities. The Department anticipates utilizing up to 3% of the LIHEAP funds for Assurance 16 activities. This also prevents cumulative Assurance 16 expenditures for the entire grant to Illinois from exceeding the allowable 5%.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

Assurance 16 participants received energy savings kits and educational materials and counseling after eligibility determination.

13.4 Describe the level ofdirect benefitsprovided to those households in the previous Federal fiscal year.

Each household receives an energy savings kit in the mail and educational materials emailed or mailed to them. Each intake worker coach es each customer on energy savings based on their usage and household.

13.5 How many households applied for these services? 2,137

13.6 How many households received these services? 2,137

Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

- 1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
- 2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
- 6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
- 7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification
