2.3 Check the appropriate boxes below and describe the policies for each.

Do you require an Assets test ? Yes No

Do you have additional/differing eligibility policies for:

- | | |
|---|---|
| Renters? | <input checked="" type="radio"/> Yes <input type="radio"/> No |

| Households with high energy burdens ? | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| Other? | <input type="radio"/> Yes <input type="radio"/> No |

Explanations of policies for each "yes" checked above:

Applicants who are renters are eligible to receive energy assistance benefits provided they meet all other eligibility requirements. Specific rental arrangements between the renter (tenant) and the landlord must be verified in order to determine if and how benefits will be paid.

- Applicants who are renters and pay their heating costs directly must identify their energy supplier and fuel type.
- Applicants who are renters (including roomers and boarders) and pay their energy costs indirectly as undesignated portions of rent payments are required to furnish the name, address, and phone number of the landlord to whom the rent payments are made. If their application is qualified, benefits will be paid to the landlord and their rent will be reduced accordingly.
- Applicants who are residents of subsidized housing must provide proof that they are directly responsible for paying their own heating costs and receive a lower benefit level than those with similar incomes that do not have access to subsidized housing since a utility allowance is incorporated into their subsidy.

Determination of Benefits 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.

During the crisis season, crisis situations are deemed "life threatening" if a household has a member that is over the age of 65, under the age of 2, or is experiencing an energy-related life threatening crisis. In these situations, vulnerable households are given priority. Under the office's arrearage assistance program, which is funded through state special funds (not LIHEAP), customers that are vulnerable populations may receive a waiver to obtain forgiveness of past due electric bills multiple times within a 7-year period as opposed to other customers that are not vulnerable population waivers that can only obtain the benefit once every 7 years.

The elderly, households with young children, and those facing an energy emergency that threatens their health or their life, have their crisis situation treated in an expedited way since it is determined to be "life threatening".

For renters, DHCD must obtain permission from the property owner before providing weatherization crisis assistance to a customer and the landlord must comply with DHCD Weatherization policies on rental housing.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

The vast majority of payments are made directly to home energy suppliers and Energy Supplier Agreements are established to facilitate such payments. Occasional payments are made directly to customers in special circumstances when a landlord or supplier will not accept the benefit payment. If a landlord refuses to sign a Landlord Agreement or an energy supplier refuses to sign an Energy Supplier Agreement, and there is no alternative energy supplier, then a payment may be made directly to a customer. Direct payment may also be used for purchase of unusual fuel types, such as wood pellets.

9.2 How do you notify the client of the amount of assistance paid?

Maryland sends a benefit letter to the customer's mailing address.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Maryland requires that all vendors send local administering agencies an Energy Delivery Record for reconciliation at the end of each year. Monitoring of vendors will also be performed in federal fiscal year 2018 to verify proper pricing and charges.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

Non-discrimination language is included in the vendor agreements executed with suppliers.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

Maryland requires that unregulated vendors provide a 3% discount off their cash price for the fuel delivered to program participants as part of their LIHEAP benefit.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

Maryland uses the State financial accounting system to manage LIHEAP funds. Separate budget costs are used to account for expenditures charged to LIHEAP, and separate sub-codes distinguish between various eligible uses of LIHEAP funds (e.g. administration, weatherization, client benefits, etc.).

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

Yes No

10.3. Describe any audit findings rising to the level of material weakness or reportable condition cited in the A-133 audits, Grantee monitoring assessments, inspector general reviews, or other government agency reviews of the LIHEAP agency from the most recently audited fiscal year.

No Findings

Finding	Type	Brief Summary	Resolved?	Action Taken

10.4. Audits of Local Administering Agencies

What types of annual audit requirements do you have in place for local administering agencies/district offices?

Select all that apply.

- Local agencies/district offices are required to have an annual audit in compliance with Single Audit Act and OMB Circular A-133
- Local agencies/district offices are required to have an annual audit (other than A-133)
- Local agencies/district offices' A-133 or other independent audits are reviewed by Grantee as part of compliance process.

Desk reviews

Client File Testing / Sampling

Other program review mechanisms are in place. Describe:

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

Protocol:

- The State Office of Home Energy Programs (OHEP) uses risk-based assessment to determine what agencies will be selected for monitoring.
- The OHEP Quality Assurance Analyst provides written notification to the local agency of the upcoming monitoring visit and what is needed from the agency in order to prepare for the visit. An entrance conference call is scheduled to discuss the upcoming visit and address any questions from the local agency.
- The Quality Assurance Analyst conducts remote monitoring of the local agency, as applicable, using the State's monitoring tool.
- The Quality Assurance Analyst visits the local agency to complete the monitoring of the local agency using the State's monitoring tool.
- An exit interview is conducted with the local agency Director to review preliminary results of the monitoring visit. The agency provides verbal response to any preliminary results that may result in findings or areas of concern.
- Within forty-five days of exit conference, State Director signs off on monitoring report and Quality Assurance Analyst provides report to local agency Director. Report summarizes any areas of concern, findings and/or corrective action required.
- Agency may provide official, written response to report within 30-days of issuance.
- If report includes findings and corrective action plan, local agency must submit update on corrective action 90-days after report is issued, with update on status of resolving findings.

10.7. Describe how you select local agencies for monitoring reviews.

Site Visits:

Local agencies are selected for monitoring reviews based on a risk-based assessment policy. The State weighs factors such as history of audit findings, size of agency, and application processing timeliness to determine which agencies are the highest risk that require auditing.

Desk Reviews:

The State adopted a Cost Allocation Policy to more clearly establish procedures for how local agency costs are distributed across administrative and direct program services activities. A time study is used to determine how local agency staff allocate their time on various eligible activities and the results are used to determine the allocation of costs.

10.8. How often is each local agency monitored ?

The State monitors a minimum of 40% of local agencies each year. Every agency will be monitored a minimum of once every three years.

10.9. What is the combined error rate for eligibility determinations? OPTIONAL

10.10. What is the combined error rate for benefit determinations? OPTIONAL

10.11. How many local agencies are currently on corrective action plans for eligibility and/or benefit determination issues? 0

10.12. How many local agencies are currently on corrective action plans for financial accounting or administrative issues? 0

11.2 What changes did you make to your LIHEAP plan as a result of this participation?

Maryland Office of Home Energy Programs received input on allowing cooling system repair and replacement as part of LIHEAP funding provided to the Department of Housing & Community Development's weatherization program.

Public Hearings, 2605(a)(2) - For States and the Commonwealth of Puerto Rico Only

11.3 List the date and location(s) that you held public hearing(s) on the proposed use and distribution of your LIHEAP funds?

	Date	Event Description
1	08/04/2017	Public Hearing - Baltimore County
2	08/14/2017	Public Hearing - Charles County

11.4 How many parties commented on your plan at the hearing(s)? 4

11.5 Summarize the comments you received at the hearing(s).

Comments focused on the nature of the application process and a hope that it could be made simpler and less burdensome.

11.6 What changes did you make to your LIHEAP plan as a result of the comments received at the public hearing(s)?

While no changes were made to the plan as a result of such comments, OHEP is well aware of concerns regarding the burdens of applying for benefits. Though it is not possible to waive many of the documents that some advocates wish to eliminate, OHEP is taking steps to streamline the application process for certain populations. OHEP has developed a streamlined application process for those customers applying with a Physician's Certification. In calendar year 2018, OHEP will launch a recertification process to streamline the applications of fixed-income seniors and disabled households.

Section 12: Fair Hearings, 2605(b)(13) - Assurance 13

12.1 How many fair hearings did the grantee have in the prior Federal fiscal year? 6

12.2 How many of those fair hearings resulted in the initial decision being reversed? 3

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

In an effort to be more transparent regarding fair hearings, the State program adopted a comprehensive Fraud, Repayment and Fair Hearing Rights Manual, that outlines the procedures for how local agencies handle all aspects of appeals and fair hearing processes.

12.4 Describe your fair hearing procedures for households whose applications are denied.

Households that are denied may reapply after 30-days should the circumstances of their denial change. Should the applicant disagree with the reason for denial, they may choose to resolve the issue informally with the local office or submit a request for a formal hearing through the Office of Administrative Hearings where an administrative law judge will hear the case and issue a ruling.

12.5 When and how are applicants informed of these rights?

All benefit notices sent out also include a Request for Fair Hearing form that provides details for how customers can appeal a program decision should they wish to do so.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

If an applicant does not submit the required documentation within the stated time frame they are sent a letter which informs them of the case status and the outstanding documents needed. The application is placed in "pending" status and the client has 15 days to produce the documentation. If the documentation is not submitted within this time frame, the application is denied. The applicant will receive a denial notice that includes a Request for Fair Hearing form. The client may choose to informally resolve the missing documents with their local agency, reapply after 30-days, or request a formal hearing to review the matter in front of the Office of Administrative Hearings.

If the applicant has processed the necessary documents but the agency has not processed the case in a timely manner and has been unresponsive to the applicant, a Request for Fair Hearing can be filed so that the case can be reviewed for an administrative law judge in the Office of Administrative Hearings.

12.7 When and how are applicants informed of these rights?

Applicants are informed of these rights on client letters such as the "Request for Additional Information" and the "Denial Letter". Clients are also provided appeal rights information on the application and in posters made publicly available at local administering agencies.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

The State formed a Policy Reform Advisory Group in January of 2015 to discuss the formation of an Assurance 16 program in Maryland. The Advisory Group met throughout 2015 and 2016 to refine the approach for Maryland. The result is the Supplemental Targeted Energy Program, or STEP. STEP will provide an incentive-based grant to customers that participate in a set of services designed to address long-term energy affordability issues, such as energy education, linkage to energy efficiency, linkage to non-energy benefits, and reduction in the unit-cost of energy. Assurance 16 funds will be used to cover the operational expenses of providing these services and state funding will be used to fund the incentive benefit. The program operational details are being finalized and expected to be fully operational during the 2018 Federal Fiscal Year.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

Funding will be awarded to grantees in a not-to-exceed amount that will ensure no more than 5% of LIHEAP funds are used for the activity.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

Fiscal Year 2018 will be the first year of implementing such a program.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

1. Energy Burden targeting (electric/gas) - The State developed an automated process for utilities to upload a text file of required bill usage data that will be imported into the State's central data management system for tracking. A report mirroring the LIHEAP performance measure report within OLDC is generated from the State database in order to analyze energy burden data for LIHEAP, but also ratepayer benefit dollars administered by the State.
2. Energy Burden Targeting (bulk fuel) - Similar to utility data, bulk fuel vendor bill usage data is imported into the State database for reporting purposes.
3. Restoration of Home Energy Service - The State tracks response to crisis situations through its central data management system for both customers that are disconnected and customers out of fuel at time of application. A new report is in development to provide responses to these two metrics. Because the State operates a ratepayer funded program in tandem with its federal LIHEAP grant, the report is being developed to exclude cases where ratepayer funds were the primary source of restoral of energy service as opposed to LIHEAP funds. Reporting on repair/replacement of inoperable home energy equipment will be provided by the Department of Housing & Community Development, which is subgranted funds by the Department of Human Resources for this purpose.
4. Prevention of Loss of Home Energy Service - Tracking of utility disconnect notices and imminent risk of running out of fuel is similarly tracked through the State's central database and will be incorporated in the new report under development. Only instances where LIHEAP funds are attributed to the prevention of loss of home energy service will be reported.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
