Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	State Median Income	60.00%

4.2 Provide your LIHEAP program's definition for determining a crisis.

Explanation of 4.1 Eligibility Threshold: Ohio uses 60 percent of the State Median Income as it best correlates to 175 percent of the HHS Federal Poverty level. Households must be at or below 175% of the Federal Poverty Level in order to be determined eligible.

For Heating Crisis Assistance: a disconnection, notice of disconnection, establishing new service, less than 25 percent supply of deliverable fuel, recent diagnosis of COVID-19 or heating system needing repair to be operable are criteria to be considered in crisis.

For Summer Crisis Assistance: a disconnection, notice of disconnection, establishing new service, a medical certification and/or recent diagnosis of COVID-19, or elderly (age 60 or older) are criteria to be considered in crisis.

4.3 What constitutes a life-threatening crisis?

Development's Energy Assistance Programs Guidelines, in keeping with the LIHEAP statute, require local HEAP providers to, no later than 18 hours after a household applies, provide assistance that will resolve the crisis if the household is eligible to receive such benefits and *is in a life-threatening situation*. Development and our local provider agencies understand a life-threatening situation to be a situation that is very dangerous or serious with the possibility that death could be the outcome. An example could be an eligible household containing a member with a disability or a frail elder who would be more vulnerable to experiencing a serious outcome if heat and light are not expeditiously restored. A household with a newborn baby is another example of how a utility/energy service crisis e.g. imminent shut-off, disconnection or empty fuel tank, can have more dire outcomes, up to and including death, if not quickly remedied. A life-threatening crisis could also exist when a household is without service and is using alternative heating sources such as kerosene heaters or using their oven.

Crisis Requirement, 2604(c)

4.4 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households? 48 hours once application is completed **Hours**

4.5 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households in life-threatening situations? 18 hours once application is completed **Hours**

4.17 Describe the terms of the moratorium and any special dispensation received by LIHEAP clients during or after the moratorium period.			
<p>It is rare in Ohio for the Governor to issue a moratorium prohibiting regulated utilities from issuing disconnection notices. This only occurs when there is an extreme weather event or a significant economic downturn. However, the Public Utilities Commission of Ohio, annually issues a Reconnection Order that coincides with the Winter Crisis Program. The annual Reconnect Order requires regulated utilities to stop a disconnection or restore service for a maximum of \$175. The Reconnection Order and the Winter Crisis Program is in place from October 5th to April 15th. See attached sample in PDF version of 2020-2021 Reconnect Order issued by PUCO.</p>

Section 5 - WEATHERIZATION ASSISTANCE

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
ADMINISTRATION FOR CHILDREN AND FAMILIES

August 1987, revised 05/92,02/95,03/96,12/98,11/01
OMB Clearance No.: 0970-0075
Expiration Date: 12/31/2023

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 5: WEATHERIZATION ASSISTANCE

Eligibility, 2605(c)(1)(A), 2605(b)(2) - Assurance 2

5.1 Designate the income eligibility threshold used for the Weatherization component

Add	Household Size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	HHS Poverty Guidelines	200.00%

5.2 Do you enter into an interagency agreement to have another government agency administer a WEATHERIZATION component? Yes No

5.3 If yes, name the agency.

5.4 Is there a separate monitoring protocol for weatherization? Yes No

WEATHERIZATION - Types of Rules

5.5 Under what rules do you administer LIHEAP weatherization? (Check only one.)

- Entirely under LIHEAP (not DOE) rules
- Entirely under DOE WAP (not LIHEAP) rules
- Mostly under LIHEAP rules with the following DOE WAP rule(s) where LIHEAP and WAP rules differ (Check all that apply):
 - Income Threshold
 - Weatherization of entire multi-family housing structure is permitted if at least 66% of units (50% in 2- & 4-unit buildings) are eligible units or will become eligible within 180 days
 - Weatherize shelters temporarily housing primarily low income persons (excluding nursing homes, prisons, and similar institutional care facilities).
 - Other - Describe:
- Mostly under DOE WAP rules, with the following LIHEAP rule(s) where LIHEAP and WAP rules differ (Check all that apply.)
 - Income Threshold
 - Weatherization not subject to DOE WAP maximum statewide average cost per dwelling unit.
 - Weatherization measures are not subject to DOE Savings to Investment Ratio (SIR) standards.
 - Other - Describe:

The differences are as follows: U.S. Department of Energy income eligibility requirements (200 percent of the Federal Poverty Level); Health and Safety is limited to no more than 25 percent of Program Operations (Materials + Support total) for LIHEAP (limit is 14.9 percent for DOE); and an additional \$1,200 for incidental repairs is available per single family unit with LIHEAP funds (in an effort to avoid deferrals).

Additionally, Development requested and received a waiver to transfer an additional 10 percent of LIHEAP funds to weatherization and energy related home repairs. This will make the total transfer of LIHEAP funds 25 percent. A portion of the transferred funds will be used to serve households as described above. The additional transfer will be used for a complimentary program to Ohio's weatherization program. The Ohio Home Weatherization Assistance Program Enhancement will install specific measures in households that are at or below 175% (LIHEAP Income Guidelines) of the Federal Poverty Guidelines and may have been deferred previously for weatherization services. The measures to be installed will include heating system repair and replacement, electric repair and replacement, ventilation measures (i.e. ASHRAE fans), minor plumbing repair and replacement, pest infestation, air conditioning repair/replacement for households with a member at least 60 years of age or with a documented medical condition (mirroring Summer Crisis Program guidelines), multi-family unit energy conservation measures, and minor roof repair. Utilizing these additional funds for these specific measures will allow the weatherization program to serve homes that would have been deferred due to costs and to install more energy conservation measures in homes.

It is important to note, the Ohio Legislature passed, and Governor DeWine signed into law House Bill 6 (HB 6) in July 2019. One of the provisions of HB 6 directs Development to request a waiver from Health and Human Services beginning July 2021 to transfer an additional 10% of LIHEAP funds for weatherization and energy efficiency purposes, with a total transfer amount of 25%.

Eligibility, 2605(b)(5) - Assurance 5

5.6 Do you require an assets test? Yes No

5.7 Do you have additional/differing eligibility policies for :

Renters Yes No

Renters living in subsidized housing? Yes No

5.8 Do you give priority in eligibility to:

Elderly? Yes No

Disabled? Yes No

Young Children? Yes No

House holds with high energy burdens? Yes No

Other? High energy user households Yes No

If you selected "Yes" for any of the options in questions 5.6, 5.7, or 5.8, you must provide further explanation of these policies in the text field below.

The applications are prioritized as required by 10 CFR 440.16 "Minimum Program Requirements": Elderly person(s), Disabled person(s), Dependent child(ren) in the home, high energy burden households, high energy user households.

Appropriate documentation is required in the client file to substantiate the assigned priority for service delivery. Clients meeting one or more of the priorities for service delivery as described above will be considered "Priority Applicants". Clients that apply for HWAP services and do not meet one or more of the priorities for service delivery will be considered "Traditional Applicants". All clients will be placed on the subgrantee waiting list for the county in which they reside. Priority Applicants will be placed on the waiting list ahead of Traditional Applicants and ordered by eligibility date (oldest to newest). Under no circumstances shall a Traditional Applicant be served before a Priority Applicant. Each subgrantee is assigned a specific minimum number of units to complete per program year based on funds allocated.

Weatherization funds are to be used to equitably serve all eligible clients with priority for service delivery to households meeting the conditions of 10 CFR 440.16. High energy burden users are defined as a household at or below 175% of the Federal Poverty Level at the time of application. These households tend to expend more of their income on utility costs than the median for low-income users. To ensure permission of the landlord there is an agreement signed by the landlord, the tenant, and the local provider.

Benefit Levels

5.9 Do you have a maximum LIHEAP weatherization benefit/expenditure per household? Yes No

5.10 If yes, what is the maximum? \$7,776

Types of Assistance, 2605(c)(1), (B) & (D)

Section 6: Outreach, 2605(b)(3) - Assurance 3, 2605(c)(3)(A)

6.1 Select all outreach activities that you conduct that are designed to assure that eligible households are made aware of all LIHEAP assistance available:

Place posters/flyers in local and county social service offices, offices of aging, Social Security offices, VA, etc.

Publish articles in local newspapers or broadcast media announcements.

Include inserts in energy vendor billings to inform individuals of the availability of all types of LIHEAP assistance.

Mass mailing(s) to prior-year LIHEAP recipients.

Inform low income applicants of the availability of all types of LIHEAP assistance at application intake for other low-income programs.

Execute interagency agreements with other low-income program offices to perform outreach to target groups.

Other (specify):

Development has a comprehensive marketing plan for client education. It's a multi-platform plan that includes: brochures, a video, social media posts, posters, a website, and press release templates. These materials provide program information as well as instructions on how to apply for assistance. The brochures, posters, and press releases are formatted for co-branding with local Energy Assistance Providers.

Our website (energyhelp.ohio.gov) provides comprehensive information on the Energy Assistance Programs, including contact information for local Energy Assistance Providers, a portal for clients to check the status of their application, and an online application process for clients to apply for certain programs online. Development also operates an (800) number to direct clients to their local Energy Assistance Provider. Development works with the Ohio Association of Foodbanks, Ohio Department of Veterans Services, Public Utilities Commission of Ohio, Ohio Department of Job and Family Services, local libraries, and local Community Action Agencies to educate clients on the available Energy Assistance Programs. Development also partners with the Ohio Department of Aging to help older Ohioans. Last year, the Ohio Department of Aging distributed a total of 62,985 HEAP applications (31,831 of these were distributed to homebound residents), 60,788 people were assisted (20,670 of these were homebound), and 1,081 presentations were held with a total attendance of 94,462 people.

If any of your LIHEAP components are not centrally-administered by a state agency, you must complete questions 8.6, 8.7, 8.8, and, if applicable, 8.9.

8.6 What is your process for selecting local administering agencies?

Most of Ohio's administering agencies have been administering LIHEAP at the local level for many years. In addition, it is extremely rare in Ohio for a local Energy Assistance Provider to be added or replaced, except in cases where Assurance 16 is administered. If a provider needs replaced, Development ensures that services to clients continue during the transition to a different provider by identifying a contiguous local Energy Assistance Provider in good standing to take over services in the territory being vacated on an interim "emergency" basis. A short-term contract of 6 -12 months is typically provided. Providers near the unserved area know the landscape and the population to be served. Development works with the new provider to quickly establish intake sites that can be easily accessed by local clients. If the interim arrangement proves to be satisfactory, Development will name the entity providing services as the "permanent" provider of services for the area. In selecting a contiguous

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

For the Crisis Programs, payments are made directly to suppliers by both Development and the local Energy Assistance Providers.

9.2 How do you notify the client of the amount of assistance paid?

Heating: All households who complete an application receive written notice of eligibility that includes the amount of the benefit.

Crisis: local Energy Assistance Providers are required, by the terms of their executed agreement, to provide each customer with a written notice of decision that includes the amount of the benefit.

Cooling: Not Applicable

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Bulk fuel vendors are required to provide a delivered invoice for payment so only the benefit amount is charged to the program. For utilities (regulated and un-regulated), Development may require the client make co-payments for amounts above the benefit threshold after confirming with the utilities the client's actual usage charges.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

Development has a Home Energy Assistance Vendor Agreement and local Energy Assistance Provider grant agreements that both include a nondiscrimination policy. Copies of both are attached.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

Development's grant management and database software is Salesforce, a web-based application. Local Energy Assistance Providers are required to complete and submit an application in Salesforce detailing their management plan and budget.

The online application is designed and built with various validations to assist and ensure good fiscal accounting and tracking of LIHEAP funds in the following ways:

1. Prevent budgeting greater than the maximum grant award.
2. Only allow the maximum administration amount to be budgeted and track expenditure during the grant period. Track and prevent reporting total cash received smaller than sum of monthly cash received, and track and prevent reporting expenditures greater than the grant award amount.
3. Track final expenditures with grant balance.

Reports are available from all of Development's systems to produce statewide obligation/expenditures and number of households served reports to track expenditures on heating, crisis, and weatherization by program year.

Local Energy Assistance Providers have the opportunity to submit budget revisions, as necessary by program needs, and/or to align with actual expenditures at the end of the grant period. All requested revisions go through a review and approval process by Development staff.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

Yes No

10.3. Describe any audit findings rising to the level of material weakness or reportable condition cited in the A-133 audits, Grantee monitoring assessments, inspector general reviews, or other government agency reviews of the LIHEAP agency from the most recently audited fiscal year.

- Local agencies/district offices are required to have an annual audit in compliance with Single Audit Act and OMB Circular A-133
- Local agencies/district offices are required to have an annual audit (other than A-133)
- Local agencies/district offices' A-133 or other independent audits are reviewed by Grantee as part of compliance process.

<p>A structured monitoring system was implemented by Development for on-site visits by trained personnel for review of all computer collected/compiled data and through identification of special problems. Development implemented a web-based centralized client application and database called the Ohio Community and Energy Assistance Network (OCEAN) in 2006. This system is shared with local Energy Assistance Providers and allows for real-time reporting as well as access to client intake processes, income calculations, eligibility determination and client comments. There is also an audit log which tracks any updates to a client's record. Development created a monitoring Review Tool in the client entry Salesforce system. Both local Energy Assistance Providers and Development can access and review client applications that are in the system. These reviews can track where errors are being made, what team member may need additional assistance, and allow the intake worker to view their mistakes and make corrections. There are reports designed to track how many reviews have been completed and if they are expected to reach the required number of reviews in each individual category (as outlined in the Energy Assistance Programs Guidelines).</p>
10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.
<p>It is Development's practice to monitor local Energy Assistance Providers annually. The monitoring process may be conducted remotely in order to comply with current State health and safety measures to address the COVID-19 pandemic. Development will send each local Energy Assistance Provider a copy of the monitoring tool, a list of items to submit through a secure website, along with submission instructions. Development will review all items and schedule an exit interview with the local Energy Assistance Providers. During the exit interview, the Community Development Analyst will review the tool with staff and may provide a copy of the tool for review and comments, if necessary.</p>

Section 13 - Reduction of home energy needs, 2605(b)(16) - Assurance 16

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
ADMINISTRATION FOR CHILDREN AND FAMILIES

August 1987, revised 05/92,02/95,03/96,12/98,11/01
OMB Clearance No.: 0970-0075
Expiration Date: 12/31/2023

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

In order to comply with Section 2605(b)(16) of the LIHEAP statute (42 U.S.C & 8624(b)(16))-Assurance 16, Development will provide a maximum of 5% of the total annual State of Ohio LIHEAP allocation to encourage and enable households to reduce their home energy needs. Funding is available annually through a request for proposal process. Applications will be received and reviewed on a first come, first served basis during the open application period. The request for proposal will outline the following:

- Duration of program (Annual award vs. One-time)
- Requested funding amount, uses and any leveraged resources
- Description of the project and how the project will reduce the household's energy burden
- Anticipated outcomes
- Methodologies for tracking outcomes

If the applicant is awarded funds, they will be required to report on the number of households served and the impact on those households (including pre- and post-testing, client survey responses, etc.).

Examples of how LIHEAP funds have been provided through Assurance 16 include:

The Breathing Association, a HEAP grantee, operates a health care clinic and a mobile medical van serving low-income, HEAP eligible individuals. The Breathing Association provides HEAP educational materials to clients that are receiving medical care. Prior to being evaluated by a Nurse Practitioner, the client is provided a pre-test, focusing on residential energy conservation questions. After the pre-test, the client is required to watch a seven-minute video about residential energy conservation. After the client has been seen by the Nurse Practitioner, they are given a post-test on energy savings and provided additional educational materials such as brochures that highlight energy residential savings techniques.

KHCA aids households served by rural electric cooperatives that do not qualify for other energy efficiency programs by providing them with energy saving materials, including energy efficient LED bulbs to replace their incandescent and compact florescent light bulbs (CFLs), shower heads and aerators, discharge pipe and smart strips, and pipe wrap.

Harcatus provides households with boxes of energy saving measures. Boxes are composed of LED bulbs, LED nightlights, aerators, energy savings showerheads, pipe wrap, a smart strip surge protector, and energy savings tips.

Ohio Energy Project targets low-income families that have children in historically low-income schools. While in the schools, energy efficiency measures are addressed through a series of 5 hands-on lab experiments. Energy efficiency kits are provided for household to reduce their energy burden at home. Kits include LED light bulbs, low-flow showerhead, sink aerator, LED nightlight and weather stripping.

MYCAP provides households with budgeting help, conservation tips, 60 day reviews of energy bills (or more), education, an initial energy audit in the home are conducted. Energy Conservation Kits are issued to assist customers with achieving their goals.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

Development will allocate funds in the methods described in 13.1 up to a maximum of 5% of the LIHEAP funds allocated to the State of Ohio.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

The Breathing Association has been funded by the HEAP Assurance 16 to provide clients with residential energy savings education along with receiving a HEAP benefit. For PY20 there was a 12% increase in patients' knowledge after energy assistance guidance related to energy usage and health was given.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

Clients received residential energy savings education along with receiving a HEAP benefit, and medical care. Some agencies also provided energy conservation kits to clients in addition to education materials.

13.5 How many households applied for these services? In PY20, The Breathing Association reported 725 Ohioans applied for assistance with their Mobile Medical Unit, Lung Clinic, Home Visits and Health Fairs. In PY20, Kno-Ho-Co-Ashland CAC reported 227 Ohioans applied for assistance. In PY20, Mahoning Youngstown Community Action Partnership (MYCAP) reported 36 Ohioans applied for assistance. In PY20, Har-Ca-Tus Tri County Community Action Organization reported 70 Ohioans applied for assistance. In PY20, Ohio Energy Project reported 1,317 Ohioans applied for assistance. Total clients applied for PY20 was 2,375.

13.6 How many households received these services? The Breathing Association assisted 725 Ohioans by providing medical assistance and energy savings education. Kno-Ho-Co-Ashland CAC assisted 227 Ohioans with energy conservation measures. Mahoning Youngstown Community Action Partnership (MYCAP) assisted 36 Ohioans with energy conservation education, audits, and kits. Har-Ca-Tus Tri County Community Action Organization assisted 70 Ohioans with energy conservation education and kits. Ohio Energy Project assisted 1,317 Ohioans through their e3 Smart Program with energy conservation education and kits. Total clients assisted for PY20 was 2,375.

Section 14:Leveraging Incentive Program, 2607(A)

14.1 Do you plan to submit an application for the leveraging incentive program?

Yes No

14.2 Describe instructions to any third parties and/or local agencies for submitting LIHEAP leveraging resource information and retaining records.

Development has and will continue to engage in activities which enhance the value of basic LIHEAP assistance to eligible households. These activities are consistent with general definitions of "leveraging" as found in Section 707 of Public Law 101-501, Section 2607A. Regulations implementing the leveraging incentive program are contained in 45 CFR Part 96. Development will describe those activities for award of additional federal funds appropriated for this purpose.

14.3 For each type of resource and/or benefit to be leveraged in the upcoming year that will meet the requirements of 45 C.F.R. § 96.87(d)(2)(iii), describe the following:

Resource	What is the type of resource or benefit ?	What is the source(s) of the resource ?	How will the resource be integrated and coordinated with LIHEAP?
1	Fuel Funds	Electric Utilities / Gas Utilities	Several regulated gas and electric utilities in Ohio raise and provide funds for eligible low-income customers. Many of these fuel funds are directly administered by the State LIHEAP office or its grantees, which employ a certification of eligibility by the state office and its Local Energy Assistance Providers and often requires verification that the LIHEAP benefits are exhausted to qualify for assistance. Other policies, such as amount of benefit and months of availability, may vary by fund. Determination of income eligibility and certification of same is performed by the Local Energy Assistance Provider, as already specified in Ohio's state plan. Ohio's private fuel funds could not operate according to their program rules without information provided and/or verified by the Ohio LIHEAP program.
2	Percentage of Income Payment Plan	Universal Service Fund	The Percentage of Income Payment Plan (PIPP) is designed for low-income Ohioans who need assistance paying their utility bills to maintain gas and/or electric service. It can be combined with the Home Energy Assistance Program benefit to help income-eligible Ohioans manage their energy bills. PIPP is funded by the Universal Service Fund (USF). The USF is a rider on the utility bill of all customers of regulated utilities. A rider is an additional charge on a utility bill which must be approved by the Public Utilities Commission of Ohio (PUCO) for a specific purpose. The PUCO calculates the gas PIPP rate and audits utilities which provide gas PIPP. The Ohio Development Services Agency calculates the electric PIPP rate case, which determines the funding level of the USF and the electric PIPP program. The PIPP is available for Ohioans with a household income at or below 150% of the federal poverty guideline, receiving gas or electric service from a utility regulated by the PUCO.
3	Electric Partnership Program	Universal Service Fund	Each year, more than \$14 million of the USF is designated for education and energy efficiency measures. Some of the PIPP-eligible households with high consumption rates and high arrearages are identified to participate in the educational program. The program serves about 11,000 PIPP electric households each year with in-home audits to identify energy-saving measures and provide conservation education. Replacement light bulbs, weather-stripping and in some cases new appliances are provided. This service helps LIHEAP implement practices to reduce their energy consumption over time.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

We contacted our top 10 Propane/Bottle Gas, Fuel Oil/Kerosene and Wood/Coal/Other vendors and explained that the U.S. Department of Health and Human Services, which funds the Ohio Home Energy Assistance Program (HEAP), requires Development to collect and report data on Ohio HEAP customer usage.

We have previously enhanced our OCEAN system to make it more customer-friendly for vendors to provide the needed data. We emailed vendors the instructions on how to retrieve the customer information of our mutual HEAP customers. We provided specific dates for vendors to use to reflect the 12 months of data needed to report the annual bill amount, annual usage, full-year at service address and 12-month client.

We have received data from the following categories of vendors:

- (10) Propane/Bottle Gas
- (10) Fuel Oil/Kerosene
- (10) Wood/Coal/Other
- (5) Gas
- (5) Electric

Time frames and plans for meeting these requirements:

We require the data usage report to cover 10/1/20-9/30/21. We make weekly contact with fuel vendors to ensure progress is being made on data collection and to answer questions. We will process the data and prepare the Performance Measures Data Collection Report submission on January 31, 2022.

What we hope to accomplish in the coming federal fiscal year:

Development will make process improvements to the performance data collection and reporting based on feedback from HEAP vendors, customers and Development staff. Development will analyze the HEAP customer usage data to improve the program and customer service. Development will ensure data is being properly collected and reported from vendors. Our goal is to have 95 percent or more of our vendors participating in the data collection and reporting process. Some of our vendors are building capacity over the next year to pull their data extraction processes/systems together for full participation.

Section 19: Certification Regarding Drug-Free Workplace Requirements

Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For grantees other than individuals, Alternate I applies.
4. For grantees who are individuals, Alternate II applies.
5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

Certification Regarding Drug-Free Workplace Requirements

Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices.
