Do you give priority in eligibility to:

- Yes No **Elderly?**
- Yes No **Disabled?**
- Yes No **Young children?**
- Yes No **Households with high energy burdens ?**
- Yes No **Other? See comments below:**

Explanations of policies for each "yes" checked above:

Oregon does not uniformly give priority eligibility to elders, disabled, and families with young children. However, sub-grantees may choose to target these groups for a brief time at the start of the heating season.

In addition, OHCS strongly encourages all sub-grantees to target households that have not received energy assistance from other sources (such as fuel/utility/rate-payer funds) in the current program year. When other energy assistance resources are available, targeting very limited LIHEAP funds to households that have yet to receive assistance will allow local providers to help more households in their community, many for the first time.

Sub-grantees must indicate within their work plan application whether or not they intend to target any portion of the population. At a minimum this includes a complete description of eligibility and outreach practices as well as safeguards to ensure that processes are applied consistently and fairly to all applicants.

Determination of Benefits 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.

Sub-grantees must indicate within their work plan application whether or not they intend to target any portion of the population and the time period dedicated to the targeted group. This includes a description of eligibility and outreach practices as well as safeguards to ensure that processes are applied consistently and fairly to all applicants.

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold

4.2 Provide your LIHEAP program's definition for determining a crisis.

A crisis exists when a household faces an energy burden which depletes or threatens to deplete financial resources, or which poses a potential health and/or safety threat to the well-being of the household.

4.3 What constitutes a life-threatening crisis?

A life-threatening crisis exists when a household member's health and/or well-being would likely be endangered if assistance is not provided to continue heating/cooling/energy services. Generally, this would require an active medical certificate but may be deemed a life-threatening crisis by the local service provider if extreme circumstances are present (e.g. extreme cold or heat, fuel supply shortages, etc.).

In addition to the above, the household must either be disconnected or at imminent risk of disconnection (within 5 days of application) to be considered as having a life-threatening crisis situation. Households with deliverable fuels must either be out of fuel or at imminent risk of being out of fuel.

Life-threatening crisis situations must be addressed within 18 hours of application. This timeframe must be documented to ensure compliance with the federal requirement and must include comments outlining how the situation was addressed.
