Subsidized households (public housing authority) who are only responsible for periodic payment of individual excess utility usage charges (heating expenses included in rent) are not eligible for heating assistance. Subsidized households (public housing) whose heating costs are included in the rent (utilities paid by the housing authority) are not eligible for heating assistance. The Virginia Case Management System (VaCMS) assigns points according to energy burden, awarding the highest value to households with the highest percentage of energy burden, resulting in a weighted benefit. Priority is given to households which include vulnerable individuals (elderly, disabled, or a child under the age of six); the VaCMS assigns points according to vulnerability status, awarding the highest value to whichever condition is present, resulting in a weighted benefit. Please see Attachment I for an explanation of how points are determined.

Applicants may apply for multiple VDSS programs by completing one online application.

Through contact with other federal, state and community agencies, Virginia coordinates services and activities to low-income households. At a minimum, the LIHEAP Weatherization component will be coordinated with the Department of Energy (DOE) Weatherization Assistance Program (WAP) and other housing rehabilitation programs operated by local weatherization agencies. During the application process or during the onsite estimation for weatherization, the local administrator will inquire and assess for other health and safety needs or problems related to the home and its occupants.

The VDSS provides an Energy Assistance referral list three times per year to the DHCD for outreach activities by local weatherization agencies.

LDSS in 120 cities and counties are responsible for coordinating programs locally with other community agencies, faith-based organizations, and non-profit organizations.

Through automated systems, the grantee is able to identify low-income households for mass mailings.

The Virginia General Assembly passed and the Governor signed into law, House Bill 2473 and House Bill 71 in March 2002. These laws created the Home Energy Assistance Program (HEAP). Donations made to HEAP are used to supplement LIHEAP benefits.

Other program review mechanisms are in place. Describe:

EAP activities will be monitored by the grantee. VDSS staff monitors cases via the online "Pending", "Unpaid", and "Client Management" reports. A sampling of all case types will be randomly selected for review. Case reading reviews will be conducted and findings submitted to management at the state and local level. When necessary, LDSS will be required to develop and submit corrective action plans (CAP) for errors detected.

The Virginia EAP has a strong sub-recipient monitoring plan/policy in place. Virginia is state supervised and locally administered by 120 LDSS. State staff monitors LDSS case management via various online reports. Additionally, a random sample of cases is selected and reviewed by state staff based on a predetermined schedule. Case reading reviews are scheduled/conducted based on LDSS caseload size with other factors sometimes taken into consideration (i.e. staff changes, significant requests for technical assistance, etc.). Based on size, LDSS are reviewed either every year, every two years, or every three years. A random sample of cases is pulled and reviewed for guidance/policy compliance, timely processing, and payment accuracy (including a secondary review of invoices and payments). Findings are reported to the LDSS Director and EAP Supervisor as well as the VDSS EAP Manager and Benefit Programs Division Director; if necessary, case correction is required and, when appropriate, a CAP is submitted by the LDSS.

DHCD staff completes onsite administrative and financial monitoring annually for each of their subgrantees. Subgrantees are required to have an inspection of the completed WAP work done by a certified Quality Control Inspector (QCI). At least five percent of all completed units must be physically inspected by DHCD's inspector for compliance with State and Federal standards. DHCD staff submits copies of all completed monitoring reports to VDSS EAP staff for review. Additionally, DHCD staff completes reviews of invoices and payments when their subgrantees submit invoices for payment.

Local Administering Agencies / District Offices:

Other program review mechanisms are in place. Describe:

In addition to various sub-recipient monitoring activities, each LDSS must submit a Fraud Plan annually; a Fraud Plan is required for a LDSS to receive a fraud allocation. The Fraud Plan covers multiple programs. The Fraud Plan template is attached (Attachment III).

State Fraud staff conducts Fraud Program Compliance Reviews. Completed investigations are reviewed; the review focuses on the accuracy of the investigative decision.

Classroom and online training is available for both new and experienced EAP workers.

DHCD staff completes on-site evaluations; annual program reviews; monitoring through a central database; and client file testing/sampling for their subgrantees.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

In addition to the individual case monitoring completed as part of providing technical assistance and financial and case management report monitoring, EAP consultants, conduct case reading reviews for all three EAP components.

Decisions on which LDSS to review are based on the types and the frequency of requests for technical assistance, LDSS staff issues (new or inexperienced staff) and the Division's commitment to annual case reading reviews for the largest LDSS, with case reading reviews for smaller agencies completed on either a biennial or three year rotating schedule.

Upon completion of LDSS case reading reviews, written correspondence is sent to the LDSS Director and EAP Supervisor as well as the VDSS Benefit Programs Division Director and EAP Manager. Written correspondence includes a summary of the case reading findings, a copy of the individual case reading documents, instructions on error corrections (if necessary) and information on possible trends and/or LDSS process/ organizational changes that may help reduce the errors.

The number of cases reviewed per LDSS will be a minimum of 30 cases for large, 20 for medium, and 15 for small. Guidance for breakdown of case types is as follows:

Total	Fuel	Crisis	Cooling
30	15	7	8
20	10	4	6
15	8	3	4

The following is a list of the reports and forms used by EAP consultants for monitoring:

- Unpaid Fuel/Crisis/Cooling Report
- Fuel/Crisis/Cooling Pending Report
- EAP Client Management Report Case Disposition by Locality
- Locality Expenditure Report
- Financial Monitoring Forms Correction of Payment Errors (COPE), Case Payment Adjustment, Affidavit on Check Endorsement, Stop Payment Request, Check Cancellation

When a component is operational, all of the above listed reports are reviewed weekly. When deadlines approach (i.e. benefit determination, final check writing, etc.) reports are reviewed daily with follow up to LDSS initiated as required. Reports are monitored to ensure applications are processed timely (pending reports) and to ensure vendors are submitting bills and being paid promptly (unpaid reports). Initial correspondence to LDSS indicating a need for improvement (cases in pending or unpaid status for an excessive amount of days) is informal, email, or phone call is sufficient. If there is a recurring problem with an individual LDSS, reports with cases chronically overdue for processing or payment, the EAP consultant will work with the LDSS to improve performance.

DHCD staff completes onsite administrative and financial monitoring annually for each of their subgrantees. The "Financial and Administrative Monitoring Tool" and the "Technical Monitoring Tool" are completed with each subgrantee. Although all units are inspected by the subgrantee's own certified Quality Control Inspector at completion of the job, at least five percent of all completed units must be physically inspected by DHCD's inspector for compliance with State and Federal standards. The requirement is ten percent when the subgrantee's energy audit and the quality control inspection are performed by the same person.

10.7. Describe how you select local agencies for monitoring reviews.

Site Visits:

Each EAP consultant develops a monitoring schedule to be completed during the following State Fiscal Year. Decisions on which LDSS to review are based on the types and the frequency of requests for technical assistance, LDSS staff issues (new or inexperienced staff), and the Division's commitment to annual case reading reviews for the largest LDSS, with case reading reviews for smaller agencies completed on either a biennial or three year rotating schedule.

For DHCD, subgrantees visits are required annually.

For VDSS, site visits are not scheduled as part of each LDSS review due to budget constraints. However, periodic site visits are conducted by VDSS if there are issues in the LDSS or if requested by the LDSS.

For DHCD, subgrantee site visits are required annually. The visits rotate unless there are identified issues that trigger a review sooner than it would normally occur.

Desk Reviews:

See process listed in Sections 10.5 and 10.6 for VDSS.

All DHCD reviews are completed onsite annually. Monitoring through the electronic database takes place by reviewing invoices monthly.

10.8. How often is each local agency monitored ?

Each LDSS is scheduled for monitoring at least once every three years.

Each DHCD subgrantee is monitored yearly.

10.9. What is the combined error rate for eligibility determinations? OPTIONAL

Neither VDSS nor DHCD have data to calculate this rate at this time.

10.10. What is the combined error rate for benefit determinations? OPTIONAL

Neither VDSS nor DHCD have data to calculate this rate at this time.

10.11. How many local agencies are currently on corrective action plans for eligibility and/or benefit determination issues? 0

10.12. How many local agencies are currently on corrective action plans for financial accounting or administrative issues? 0

Other - Describe:

The grantee encourages public participation in the development of the state plan through: (1) input from LDSS and DHCD as well as (2) a public hearing. A broadcast was posted on FUSION, an internal website for LDSS, soliciting comments on a draft version of the LIHEAP state plan. Additionally, the draft plan was emailed to DHCD staff for review and comments. Prior to the public hearing, VDSS and DHCD staff discussed proposed changes for Weatherization Assistance.

Notification of the LIHEAP public hearing was published in the legal notices section of the Richmond Times Dispatch, Washington Post, Roanoke Times, Bristol Herald Courier, and Virginian Pilot newspapers. Notification of the LIHEAP public hearing was also posted on the Commonwealth Calendar of Events located on the Official Commonwealth of Virginia Government website. The draft plan was posted to both the VDSS internal website and public site in advance of the hearing. The VDSS public website was included in the public notices.

11.2 What changes did you make to your LIHEAP plan as a result of this participation?

A discussion was held with DHCD staff during the comment period (while the plan was in draft form); clarifications as needed were made at that time.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 12: Fair Hearings, 2605(b)(13) - Assurance 13

12.1 How many fair hearings did the grantee have in the prior Federal fiscal year? $\,164$

12.2 How many of those fair hearings resulted in the initial decision being reversed? 5

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

There were no policy and/or procedural changes for VDSS or DHCD.

12.4 Describe your fair hearing procedures for households whose applications are denied.

For VDSS, an applicant for and/or recipient of Heating, Crisis, and/or Cooling Assistance has the right to appeal and receive a fair hearing if: the application or the right to make application is denied; the application is not approved or denied in a timely manner unless the delay was caused by the applicant's lack of cooperation in providing necessary and reasonable evidence; an approved case is closed and the household believes it should not have been; or for any action taken on the case/application for which he/she disagrees.

DHCD's hearings process is the same for denials and applications not acted on in a timely manner. The local weatherization administrator develops procedures that are adopted by their Board of Directors. Typically, the procedures involve an opportunity to meet with the local agency head and/or a representative group of the Board of Directors.

12.5 When and how are applicants informed of these rights?

All applicants for and recipients of Heating, Crisis and Cooling Assistance will be informed in writing, at the time of application of the right to a fair hearing, of the method by which a hearing may be obtained, and of the right to be represented by others or to represent him/herself. Additionally, LDSS will inform all clients of the right to a fair hearing if the client is dissatisfied with any action taken by the LDSS. Notification will occur via the following methods: applicants seen in person will be informed verbally and in writing via the EAP Fact Sheet and all applicants, whether seen or not, will be in informed of the right to request a fair hearing in writing via the Client Notice of Action.

In addition to filing an appeal, the applicant has the right to request a conference with the LDSS to discuss the actions listed above or any action taken on his/her case/application. At this conference, the LDSS must provide the applicant with an explanation of the action taken. The applicant must also be given the opportunity to present an explanation and state why he/she disagrees with the LDSS action. At the conference, the applicant has the right to have his/her side presented by an authorized representative, such as a friend, relative, or lawyer. Requesting a conference does not prevent the applicant from requesting a fair hearing. If a hearing is requested, a VDSS Hearings Officer will conduct the hearing and make a decision on the appeal. The appellant will be notified in writing of the Hearings Officer's decision within 60 days of the receipt of the appeal request.

Applicants for Weatherization are informed of the right to appeal an application denial or an untimely action on an application at the time the application is taken or denied. Files of denied applicants are monitored during the field/client file monitoring.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

An applicant for and/or recipient of Heating, Crisis and/or Cooling Assistance has the right to appeal and receive a fair hearing if the application is not approved or denied in a timely manner unless the delay was caused by the applicant's lack of cooperation in providing necessary and reasonable evidence.

The Weatherization component's hearings process is the same for denials and applications not acted on in a timely manner. The local weatherization administrator develops procedures that are adopted by their Board of Directors. Typically, the procedures involve an opportunity to meet with the local agency head and/or a representative group of the Board of Directors.

12.7 When and how are applicants informed of these rights?

All applicants for and recipients of Heating, Crisis and Cooling Assistance will be informed in writing, at the time of application of the right to a fair hearing, of the method by which a hearing may be obtained, and of the right to be represented by others or to represent him/herself. Additionally, LDSS will inform all clients of the right to a fair hearing if the client is dissatisfied with any action taken by the LDSS. Notification will occur via the following methods: applicants seen in person will be informed verbally and in writing via the EAP Fact Sheet and all applicants, whether seen or not, will be in informed of the right to request a fair hearing in writing via the EAP Fact Sheet and the Client Notice of Action.

In addition to filing an appeal, the applicant has the right to request a conference with the LDSS to discuss the actions listed above or any action taken on his/her case/application. At this conference, the LDSS must provide the applicant with an explanation of the action taken. The applicant must also be given the opportunity to present an explanation and state why he/she disagrees with the LDSS action. At the conference, the applicant has the right to have his/her side presented by an authorized representative, such as a friend, relative, or lawyer. Requesting a conference does not prevent the applicant from requesting a fair hearing. If a hearing is requested, a VDSS Hearings Officer will conduct the hearing and make a decision on the appeal. The appellant will be notified in writing of the Hearings Officer's decision within 60 days of the receipt of the appeal request.

Applicants for Weatherization are informed of the right to appeal an application denial or an untimely action on an application at the time the application is taken or denied. Files of denied applicants are monitored during the field/client file monitoring.

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

For several years, the VDSS was in the process of migrating multiple legacy eligibility systems to a single case management/eligibility system. The new system, VaCMS, includes Child Care, Medical Assistance, SNAP, TANF and LIHEAP. During FFY 2016, LIHEAP launched in VaCMS; from that point forward, all LIHEAP applications have been processed, eligibility determined, and benefits issued through VaCMS.

Prior to the the migration to VaCMS Performance Measure (PM) activities/changes included changes to paper applications (additional questions to capture new data elements and revised language included in the applicant certification) and soliciting and securing new EAP vendor agreements. PM questions to collect information on restoration of services and prevention of loss of services were added to data collection screens in VaCMS prior to the launch.

During the last three years, system change requests have been submitted to Information Systems to collect additional PM data during the online application process in CommonHelp as well change requests to collect data and generate necessary reports in VaCMS to report PM on the LIHEAP Performance Data Form Sections V, Vi and VII. Design, development, and testing completed during FFY18 allowed VA to report/ submit data for sections V, VI, and VII of the Performance Data form due May 2018.

During FFY19, we addressed data collection regarding the "other fuels" columns in Section V of the performance Data Form as well as the collection of data required for A in Section V. We are currently working with APPRISE to improve future reporting and will submit any necessary system change requests based on their recommendations.

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
