Utility services -- Enforcement of lien -- Limitations on termination of service for residential

- The lien for charges for service by a city waterworks, or electric light or power plant may be enforced only by cutting off the service until the delinquent and unpaid charges are paid, except that until June 30, 1991, utility service for residential space heating may be terminated between November 15 and March 15 only as provided in subsections (2) and (4) of this section. In the event of a disputed account and tender by the owner of the premises of the amount the owner claims to be due before the service is cut off, the right to refuse service to any premises shall not accrue until suit has been entered by the city and judgment entered in the case.
- Utility service for residential space heating shall not be terminated between November 15 through March 15 if the customer:
 - Notifies the utility of the inability to pay the bill, including a security deposit. This notice should be provided within five business days of receiving a payment overdue notice unless there are

extenuating circumstances. If the customer fails to notify the utility within five business days and service is terminated, the customer can, by paying reconnection charges, if any, and fulfilling the requirements of this section, receive the protections of this chapter;

- Provides self-certification of household income for the prior twelve months to a grantee of the department of community, trade, and economic development which administers federally funded energy assistance programs. The grantee shall determine that the household income does not exceed the maximum allowed for eligibility under the state's plan for low-income energy assistance under 42 U.S.C. 8624 and shall provide a dollar figure that is seven percent of household income. The grantee may verify information in the self-certification;
- Has applied for home heating assistance from applicable government and private sector organizations and certifies that any assistance received will be applied to the current bill and future utility bills;
- Has applied for low-income weatherization assistance to the utility or other appropriate agency if such assistance is available for the dwelling;
- Agrees to a payment plan and agrees to maintain the payment plan. The plan will be designed both to pay the past due bill by the following October 15 and to pay for continued utility service. If the past due bill is not paid by the following October 15, the customer shall not be eligible for protections under this chapter until the past due bill is paid. The plan shall not require monthly payments in excess of seven percent of the customer's monthly income plus one-twelfth of any arrear-age accrued from the date application is made and thereafter during November 15 through March 15. A customer may agree to pay a higher percentage during this period, but shall not be in default unless payment during this period is less than seven percent of monthly income plus one-twelfth of any arrear-age accrued from the date application is made and thereafter. If assistance payments are received by the customer subsequent to implementation of the plan, the customer shall contact the utility to reformulate the plan; and
- Agrees to pay the moneys owed even if he or she moves.

1. The utility shall:

- Include in any notice that an account is delinquent and that service may be subject to

termination, a description of the customer's duties in this section;

- Assist the customer in fulfilling the requirements under this section;
- Be authorized to transfer an account to a new residence when a customer who has established a plan under this section moves from one residence to another within the same utility service area;
- Be permitted to disconnect service if the customer fails to honor the payment program. Utilities may continue to disconnect service for those practices authorized by law other than for nonpayment as provided for in this section. Customers who qualify for payment plans under this section who default on their payment plans and are disconnected can be reconnected and maintain the protections afforded under this chapter by paying reconnection charges, if any, and by paying all amounts that would have been due and owing under the terms of the applicable payment plan, absent default, on the date on which service is reconnected; and
- Advise the customer in writing at the time it disconnects service that it will restore service if the customer contacts the utility and fulfills the other requirements of this section.

1. All municipal utilities shall offer residential customers the option of a budget billing or equal payment plan. The budget billing or equal payment plan shall be offered low-income customers eligible under the state's plan for low-income energy assistance prepared in accordance with 42 U.S.C. 8624(C)(1) without limiting availability to certain months of the year, without regard to the length of time the customer has occupied the premises, and without regard to whether the customer is the tenant or owner of the premises occupied.

1. An agreement between the customer and the utility, whether oral or written, shall not waive the protections afforded under this chapter.

NOTES: Findings -- 1991 c 165: "The legislature finds that the health and welfare of the people of the state of Washington require that all citizens receive essential levels of heat and electric service regardless of economic circumstance and that rising energy costs have had a negative effect on the afford-ability of housing for low-income citizens and have made it difficult for low-income citizens of the state to afford adequate fuel for residential space heat. The legislature further finds that level payment plans, the protection against winter heating shutoff, and house weatherization programs have all been beneficial to low-income persons." Sub-grantees have the option of providing alternate outreach and intake services. Each local agency must have their outreach plan approved by Commerce in their annual application to provide LIHEAP services. Sub-grantees may elect to provide intake and/or outreach opportunities by partnering with local agencies that work with or provided resources for the elderly and/or disabled populations. These partnerships establish a means of getting program information to our most vulnerable households as well as creating a more accommodating means of accessing services.

8.3 How do you provide alternate outreach and intake for COOLING ASSISTANCE?

8.4 How do you provide alternate outreach and intake for CRISIS ASSISTANCE?

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

When there is not an available home energy supplier with a current LIHEAP vendor agreement on file or when heat is included in rent, LIHEAP benefits are awarded directly to the household.

9.2 How do you notify the client of the amount of assistance paid?

Clients are notified of the amount of assistance they are eligible for at the time intake is completed. This information will be provided for them in writing on a LIHEAP application form, referred to as the Household Information Form (HIF), which is signed by the primary applicant. In instances where program eligibility and a benefit cannot be determined at the completion of intake, the client will receive a letter confirming the household's eligibility status as well as their benefit amount, if applicable.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Energy vendors must be approved and sign an annual LIHEAP vendor agreement in order to receive LIHEAP payments. In that agreement it states that energy vendors must, "not treat adversely, or discriminate against any household that receives LIHEAP payments, either in the cost of the goods supplied or the services provided.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

Local administering agencies work directly with the energy suppliers in their area. These vendors understand the program requirements, and they sign an annual LIHEAP vendor agreement that states they may not, "treat adversely, or discriminate against any household that receives LIHEAP payments, either in the cost of the goods supplied or the services provided

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

12.5 When and how are applicants informed of these rights?

Applicants are notified of their right to request a fair hearing during their intake appointment interview and in writing on their LIHEAP Household Information Form (HIF), which is signed by each primary applicant of the household to complete their application and the intake process.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

Fair hearing procedures are the same for all households whether their applications were denied or not acted on in a timely manner.

We are aware that our policy does not clearly state a 30 day delay is grounds for a fair hearing and we are in the process of revising our policy and procedure manual to clarify timeliness.

12.7 When and how are applicants informed of these rights?

Fair hearing procedures are the same for all households whether their applications were denied or not acted on in a timely manner.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Each local agency has the option to provide conservation education to applicants. This can occur during the intake process, through a group work shop, or an in home visit. Local agencies provide their conservation plan in their annual application to provide LIHEAP services which Commerce approves. Any conservation education services provided are done so equitably to all households served. Conservation education services include but are not limited to:

- Energy conservation education classes
- Informational videos
- Handouts/flyers
- Energy conservation kits
- Review and education of household's energy usage and costs
- Hands on conservation exhibits
- In home visits in conjunction with weatherization home energy efficiency assessments

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

In Commerce's budget matrix, we set a ceiling of 3.75% for Assurance 16 activities. When allocated and contracted to local agencies, these activities are tracked, recorded and reported as an individual line item referred to as conservation education. Each local agency is required to establish specific accounting codes to identify Assurance 16 expenditures from other allowable costs.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

No study has been completed to date. We will begin collecting data in the 2020 program year.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

N/A

13.5 How many households applied for these services? N/A. Households do not apply for conservation education services. Contractors who elect and are approved by Commerce to provide conservation education services will do so equitably to all households.

13.6 How many households received these services? Same as above

Section 14:Leveraging Incentive Program, 2607(A)

14.1 Do you plan to submit an application for the leveraging incentive program?

Yes No

14.2 Describe instructions to any third parties and/or local agencies for submitting LIHEAP leveraging resource information and retaining records.

Commerce distributes leveraging program instructions, requirements, and data reporting tools to local agencies. Local agencies work internally and with local energy providers to collect qualified leveraging data. Using the provided data reporting tool local agencies submit their leveraging data to Commerce. Commerce reviews and approves the data received from local agencies. Commerce also collects additional weatherization leveraging data which is available in the State's weatherization database. Once all the data is collected, Commerce completes the HHS leveraging report and submits all required documentation. Leveraging funding has not been released from HHS since 2012. While we have this process and information gathering infrastructure in place, Commerce will not require agencies to collect at this time. We will wait to see when funds become available and begin in earnest.

14.3 For each type of resource and/or benefit to be leveraged in the upcoming year that will meet the requirements of 45 C.F.R. § 96.87(d)(2)(iii), describe the following:

Resource	What is the type of resource or benefit ?	What is the source(s) of the resource ?	How will the resource be integrated and coordinated with LIHEAP?

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

Washington collects performance measure data at the sub grantee level. In the past legislative session Washington passed the Clean Energy Transformation Act, which was Senate Bill 5116. It asks us in Section 12 to look at the energy burden that folks in Washington State are experiencing. This bill will give us the inroads we've lacked in terms of establishing data exchanges with utilities. We will work with our State Energy Office on this effort.

Section 19: Certification Regarding Drug-Free Workplace Requirements

Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For grantees other than individuals, Alternate I applies.
4. For grantees who are individuals, Alternate II applies.
5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of

the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

Certification Regarding Drug-Free Workplace Requirements

Alternate I. (Grantees Other Than Individuals)

The grantee certifies that it will or will continue to provide a drug-free workplace by:,

- (a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
- (b) Establishing an ongoing drug-free awareness program to inform employees about --
 - (1) The dangers of drug abuse in the workplace;
 - (2) The grantee's policy of maintaining a drug-free workplace;
 - (3) Any available drug counseling, rehabilitation, and employee assistance

programs; and
