Section 2 - Heating Assistance

Eligibility, 2605(b)(2) - Assurance 2

2.1 Designate the income eligibility threshold used for the heating component:

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	State Median Income	60.00%

2.2 Do you have additional eligibility requirements for HEATING ASSISTANCE? Yes No

2.3 Check the appropriate boxes below and describe the policies for each.

Do you require an Assets test ? Yes No

Do you have additional/differing eligibility policies for:

- | | |
|--|---|
| Renters? | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| Renters Living in subsidized housing ? | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| Renters with utilities included in the rent ? | <input checked="" type="radio"/> Yes <input type="radio"/> No |

Do you give priority in eligibility to:

- | | |
|--|---|
| Elderly? | <input checked="" type="radio"/> Yes <input type="radio"/> No |
| Disabled? | <input checked="" type="radio"/> Yes <input type="radio"/> No |
| Young children? | <input checked="" type="radio"/> Yes <input type="radio"/> No |
| Households with high energy burdens ? | <input type="radio"/> Yes <input checked="" type="radio"/> No |
| Other? | <input type="radio"/> Yes <input checked="" type="radio"/> No |

Explanations of policies for each "yes" checked above:

1. Renters with Utilities Included in the Rent, please see section 3.4.18

3.4.18 Field #12 Own or Rent Residence (If Applicable, Landlord Information)

If the applicant lives in a mobile home and claims to own the unit, indicate they are an owner even if they pay lot rent in a mobile home park.

Agencies shall enter as much landlord or management company contact information as the applicant is able to provide. Landlord or management company contact information is essential to Weatherization referrals.

The landlord's or management company name and phone number is *required* when heat or electric is included in rent or a separate payment is made to the landlord. Applicants are required to provide verification for the following payment methods and the means of verification must be indicated in HE+ System Notes:

- Heat and/or non-heating electric included in rent
- Separate payment is made to the landlord, mobile home park owner, or no direct account with vendor
- Do not pay

Verification may include, but not is limited to:

- Observation of utility allowance on Form 50059 or Form 50058
- Observation of a lease or rental agreement,
- Observation of previous year's information if the applicant is at the same residence,
- Verbal contact with the landlord, or
- In some cases the heating vendor can verify if heat is included.

2. Priority in eligibility to elderly, disabled and households with young children, please see sections:, 8.2.3, 4.2.4

8.2.3 Outreach

- 1) Agencies are required to provide outreach services to maximize participation of eligible persons for WHEAP benefits. Outreach activities must target households with disabled persons, elderly persons, children under six years old, and persons working at low-wage jobs (working poor). The "outreach indicator" is a question on the paper and system application. See Section 3.4.4 for more information about the outreach indicator.
- 2) Agencies are required to prominently display the Home Energy Plus Weatherization/WHEAP Co-Branding Poster in the agency's main waiting area for WHEAP intake. WHEAP agencies shall also consider displaying the poster in intake workers' offices, outreach locations, and other appropriate areas.
- 3) Agencies are required to ensure that persons with limited English proficiency (LEP) have meaningful and equal access to benefits and services. The agency is required to provide spoken interpretation in addition to translated written publications as some individuals may not read English or other language. The agency must have a mechanism to communicate orally with people with LEP. Providing the Spanish version of the Home Energy Plus (HE+) Application is not fulfilling this policy requirement. If the applicant requires spoken communication and/or explanation in addition to the translated application, agencies shall ensure verbal interpretation is available.
- 4) Agencies are required to provide services to the disabled and impaired, including but not limited to assisting applicants with the completion of the application form, translation of material, interpretation services for deaf, and reading services for blind.
- 5) Agencies must establish HE+ application sites that are accessible to targeted households.
- 6) Agencies must comply with Federal Law and provide an alternate intake site separate from a site which administers W-2/TANF.
- 7) Agencies must provide assistance with the preparation and submittal of applications by persons who are homebound.
- 8) Agencies must arrange an early application period for persons in targeted groups and **high-risk households**.
- 9) Agencies are required to complete a Program Operations and Community Service Plan (POCS) Plan. The Division provided template is available on the HE+ public website under WHEAP Grantee Information. The goal of this plan is to provide agencies with a means to describe how the agency will conduct outreach, how they will identify and enroll eligible households in their communities, and explain how the agency will reach targeted households. The POCS Plan should indicate what other community resources/stakeholders play a role in this outreach effort and identify key stakeholders that the agency coordinates efforts/referrals with. In addition, the list should indicate the local agency's contact person and the resource services provided. The plan must be made available to the Division upon request.
- 10) Agencies may choose to subcontract with non-profit organizations that administer W-2/TANF as long as an alternate intake method is offered which does not require applicants to apply in person.
- 11) Agencies may establish interagency agreements with other low-income program offices to perform some of the outreach activities to targeted groups.

4.2.4 Exceptions to the Crisis Benefit Limit

The Division may grant an exception to the \$1,200 Crisis Assistance benefit limit for an applicant during a program year upon request by the local agency. Exceptions require an explanation from the agency as to why they wish to exceed this limit.

The following guidance applies to any crisis override request:

1. The agency should identify several of the following conditions to justify the request for an exception:

- Household has met the minimum contribution requirement, or
- Household faces an emergency (loss of heat) during the heating season, or
- Household faces a loss of electrical service, which will create an emergency (loss of heat) during the heating season, or
- During the past twelve (12) months the household has made payments toward the heating bills that represent more than 10% of household's annual gross income, or
- Household contains a vulnerable individual (child under 6, verified disabled individual or individual 60 or older), or
- The expected high temperatures for the next 72 hours will be below freezing (32° F), or
- Other housing options do not exist for the household (no family, friends, or other resources

are available), or

- The household has no other resources (savings or other assets) to draw upon, or
- Assisting with arrearage will help establish a payment plan the applicant will be able to meet, or help establish an account in their name. The proposed payment plan should be included in the notes.

An explanation in HE+ System Notes or customer request reason field are required to describe which circumstances justify granting the exception to the household. Be specific about the household situation on the exception to exceed the \$1,200 cost limits that has been chosen.

Crisis applications over the cost limits will have an application status of 'Paid On Hold' or 'Reserved On Hold' (for Co-payment codes). These applications will be reviewed by DEHCR, and will be approved or rejected after reviewing the notes left by the agency.

Application status on immediate pay crisis codes will change to 'Paid/Denied Submitted' status after DEHCR approves or denies the override; no further action is required by the agency.

Application status on co-payment or match payment crisis codes will change to 'Reserved Submitted' status if approved, or 'Denied Submitted' if denied. The agency must release the payment from the crisis application after the override is completed in order for the crisis application to extract.

The agency should not make a promise to pay to the vendor or applicant until the cost limits have been approved by DEHCR. If this is an emergency situation, contact the HE+ Help Desk for assistance.

The benefit formula for the State of Wisconsin provides a 4:1 ratio for households with high energy burdens. Households with the highest energy burden and the lowest income receive the highest benefit. The State of Wisconsin rounds down the median income guidelines for determining income eligibility. The benefit matrix is attached to this plan for further information.

Determination of Benefits 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.

There is no differentiation in the formula for calculating benefits however, funds are allocated specifically to allow for outreach to vulnerable households including those with elderly, disabled or young children as residents. These households are encouraged and assisted to apply for LIHEAP benefits.

In addition, there is an early application period targeted to households with fixed income (Social Security Benefits, Pensions, dividends/interest income and/or Veteran's Benefits) which allows them to apply in the summer months for the following Federal Fiscal Year.

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):

- Income
- Family (household) size
- Home energy cost or need:
 - Fuel type
 - Climate/region
 - Individual bill
 - Dwelling type
 - Energy burden (% of income spent on home energy)
 - Energy need
 - Other - Describe:

Benefit Levels, 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.6 Describe estimated benefit levels for FY 2018:

Minimum Benefit	\$30	Maximum Benefit	\$1,765
------------------------	------	------------------------	---------

2.7 Do you provide in-kind (e.g., blankets, space heaters) and/or other forms of benefits? Yes No

If yes, describe.

Wisconsin Home Energy Assistance Program (WHEAP) agencies (sub-grantees) can provide additional services such as blankets, space heaters, weatherization stripping, light bulbs, etc. LIHEAP funds are used to provide the additional services.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	State Median Income	60.00%

4.2 Provide your LIHEAP program's definition for determining a crisis.

Households must have existing/imminent lack of adequate heat/cooling in dwelling (emergency), or a risk of a heating emergency (proactive). While there is not a formal asset test, consideration may be given to resources available to the household before assistance is provided. No household will be eligible for crisis cooling assistance without a declaration by a local or state public health agency of a heat emergency and authorization is given by the Department of Administration.

A household may receive more than one crisis assistance payment.

Determination of eligibility for regular heating assistance benefits will determine a household eligible for crisis assistance for the remainder of the program period if the household has contributed \$25 or more towards their heating costs in the three months prior to application for crisis assistance.

4.3 What constitutes a life-threatening crisis?

To qualify for potentially life-threatening crisis, the weather and other conditions must create a concern for the health and life of the household's residents. Determination of a threat to health or safety of an eligible household is based on four factors: expected low temperature, condition of the dwelling unit (habitable, operable furnace, etc.), presence of vulnerable persons (persons with medical need for heat -- elderly, handicapped, children under six, etc.), and alternatives available to the household (place for temporary relocation, etc.). Medical need for heat and/or cooling may be considered in determining the presence of an emergency for vulnerable persons, including households with young children, handicapped and/or elderly persons. The presence of vulnerable persons may affect the amount and type of benefit provided to the household.

<p>1. Priority in eligibility to elderly, disabled, young children, and households with high energy burdens, please see sections: 8.2.3, 4.2.4</p> <p>8.2.3 Outreach</p> <p>1) Agencies are required to provide outreach services to maximize participation of eligible persons for WHEAP benefits. Outreach activities must target households with disabled persons, elderly persons, children under six years old, and persons working at low-wage jobs (working poor). The "outreach indicator" is a question on the paper and system application. See Section 3.4.4 for more information about the outreach indicator.</p> <p>2) Agencies are required to prominently display the Home Energy Plus Weatherization/WHEAP Co-Branding Poster in the agency's main waiting area for WHEAP intake. WHEAP agencies shall also consider displaying the poster in intake workers' offices, outreach locations, and other appropriate areas.</p> <p>3) Agencies are required to ensure that persons with limited English proficiency (LEP) have meaningful and equal access to benefits and services. The agency is required to provide spoken interpretation in addition to translated written publications as some individuals may not read English or other language. The agency must have a mechanism to communicate orally with people with LEP. Providing the Spanish version of the Home Energy Plus (HE+) Application is not fulfilling this policy requirement. If the applicant requires spoken communication and/or explanation in addition to the translated application, agencies shall ensure verbal interpretation is available.</p> <p>4) Agencies are required to provide services to the disabled and impaired, including but not limited to assisting applicants with the completion of the application form, translation of material, interpretation services for deaf, and reading services for blind.</p> <p>5) Agencies must establish HE+ application sites that are accessible to targeted households.</p> <p>6) Agencies must comply with Federal Law and provide an alternate intake site separate from a site which administers W-2/TANF.</p> <p>7) Agencies must provide assistance with the preparation and submittal of applications by persons who are homebound.</p> <p>8) Agencies must arrange an early application period for persons in targeted groups and high-risk households.</p> <p>9) Agencies are required to complete a Program Operations and Community Service Plan (POCS) Plan. The Division provided template is available on the HE+ public website under WHEAP Grantee Information. The goal of this plan is to provide agencies with a means to describe how the agency will conduct outreach, how they will identify and enroll eligible households in their communities, and explain how the agency will reach targeted households. The POCS Plan should indicate what other community resources/stakeholders play a role in this outreach effort and identify key stakeholders that the agency coordinates efforts/referrals with. In addition, the list should indicate the local agency's contact person and the resource services provided. The plan must be made available to the Division upon request.</p> <p>10) Agencies may choose to subcontract with non-profit organizations that administer W-2/TANF as long as an alternate intake method is offered which does not require applicants to apply in person.</p> <p>11) Agencies may establish interagency agreements with other low-income program offices to perform some of the outreach activities to targeted groups.</p> <p>4.2.4 Exceptions to the Crisis Benefit Limit</p> <p>The Division may grant an exception to the \$1,200 Crisis Assistance benefit limit for an applicant during a program year upon request by the local agency. Exceptions require an explanation from the agency as to why they wish to exceed this limit.</p> <p>The following guidance applies to any crisis override request:</p> <ol style="list-style-type: none"> The agency should identify several of the following conditions to justify the request for an exception: <ul style="list-style-type: none"> Household has met the minimum contribution requirement, or Household faces an emergency (loss of heat) during the heating season, or Household faces a loss of electrical service, which will create an emergency (loss of heat) during the heating season, or During the past twelve (12) months the household has made payments toward the heating bills that represent more than 10% of household's annual gross income, or Household contains a vulnerable individual (child under 6, verified disabled individual or individual 60 or older), or The expected high temperatures for the next 72 hours will be below freezing (32° F), or Other housing options do not exist for the household (no family, friends, or other resources re available), or The household has no other resources (savings or other assets) to draw upon, or Assisting with arrearage will help establish a payment plan the applicant will be able to meet, or help establish an account in their name. The proposed payment plan should be included in the notes. 	

An explanation in HE+ System Notes or customer request reason field are required to describe which circumstances justify granting the exception to the household. Be specific about the household situation on the exception to exceed the \$1,200 cost limits that has been chosen.

Crisis applications over the cost limits will have an application status of 'Paid On Hold' or 'Reserved On Hold' (for Co-payment codes). These applications will be reviewed by DEHCR, and will be approved or rejected after reviewing the notes left by the agency.

Application status on immediate pay crisis codes will change to 'Paid/Denied Submitted' status after DEHCR approves or denies the override; no further action is required by the agency.

Application status on co-payment or match payment crisis codes will change to 'Reserved Submitted' status if approved, or 'Denied Submitted' if denied. The agency must release the payment from the crisis application after the override is completed in order for the crisis application to extract.

The agency should not make a promise to pay to the vendor or applicant until the cost limits have been approved by DEHCR. If this is an emergency situation, contact the HE+ Help Desk for assistance.

2. Renters with Utilities Included in the Rent, please see section 3.4.18

3.4.18 Field #12 Own or Rent Residence (If Applicable, Landlord Information)

If the applicant lives in a mobile home and claims to own the unit, indicate they are an owner even if they pay lot rent in a mobile home park.

Agencies shall enter as much landlord or management company contact information as the applicant is able to provide. Landlord or management company contact information is essential to Weatherization referrals.

The landlord's or management company name and phone number is *required* when heat or electric is included in rent or a separate payment is made to the landlord. Applicants are required to provide verification for the following payment methods and the means of verification must be indicated in HE+ System Notes:

- Heat and/or non-heating electric included in rent
- Separate payment is made to the landlord, mobile home park owner, or no direct account with vendor
- Do not pay

Verification may include, but not is limited to:

- Observation of utility allowance on Form 50059 or Form 50058
- Observation of a lease or rental agreement,
- Observation of previous year's information if the applicant is at the same residence,
- Verbal contact with the landlord, or
- In some cases the heating vendor can verify if heat is included.

Determination of Benefits

4.8 How do you handle crisis situations?

<input checked="" type="checkbox"/>	Separate component
<input type="checkbox"/>	Fast Track
<input type="checkbox"/>	Other - Describe:

4.9 If you have a separate component, how do you determine crisis assistance benefits?

<input type="checkbox"/>	Amount to resolve the crisis.
<input checked="" type="checkbox"/>	<p>Other - Describe:</p> <p>Crisis emergency benefits will be determined based on the minimum required to meet the immediate threat to health and safety. Benefits will generally not exceed \$1,200, but may be increased for special targeted populations on a case by case basis. Other resources available to the household are considered in determining benefit levels. Crisis heating emergency services may include emergency fuel delivery, furnace repair/replacement, education on energy conservation measures, and budget counseling. Crisis cooling emergency services may include room air conditioner repair/purchase, fans, education on energy conservation measures, or budget counseling. No household will be eligible for crisis cooling assistance without a declaration by a local or state public health agency of a heat emergency and authorization is given by the Department of Administration. Determination of a threat to health or safety of an eligible household is based on four factors: expected low temperature, condition of the dwelling unit (habitable, operable furnace, etc.), presence of vulnerable persons (persons with medical need for heat -- elderly, disabled, children under six, etc.), and alternatives available to the household (place for temporary relocation, etc.). Medical need for heat and/or cooling may be considered in determining the presence of an emergency for vulnerable persons, including households with young children, disabled and/or elderly persons. The presence of vulnerable persons may affect the amount and type of benefit provided to the household. Proactive services and payments will be provided to prevent the occurrence of emergencies. Examples of proactive crisis heating and cooling assistance services provided to clients are budget counseling, copayment plans, due to an energy crisis situation a first month's rent or security deposit and energy conservation counseling. Counties and tribes and their subcontractors will be required to provide some form of assistance to resolve home heating energy emergency situations within 48 hours of application and within 18 hours in a life threatening situation in eligible households. This is not to be construed as requiring the issuance of a benefit payment within the above specified time period.</p> <p>The Department of Administration (Wisconsin Energy Assistance) has annually been in contract with the Keep Wisconsin Warm Fuel Fund and/or Heat for Heroes. Once the fuel fund has raised match funds, LIHEAP matched funds are awarded. These funds are another resource made available to local sub-grantees for eligible low-income customers.</p>

A homeless applicant who has proof of a permanent address to move into may be eligible for an energy assistance benefit if the following conditions are met:

- verification of a move to a permanent address
- the applicant must have established energy accounts
- if the homeless applicant cannot secure a home energy account due to large arrearages on a previous account, or does not have the money for a deposit, proactive crisis assistance may be used to assist them with securing energy services which in rare cases may include a first month's rent.

Crisis Requirements, 2604(c)

4.10 Do you accept applications for energy crisis assistance at sites that are geographically accessible to all households in the area to be served?

Yes No **Explain.**

The State of Wisconsin allows for crisis applications to be taken via the phone, in office, or at alternate outreach locations. Outreach locations are both categorically and geographically diverse. For more information please see section 8.2.3 of the WHEAP Operations Manual.

8.2.3 Outreach

- 1) Agencies are required to provide outreach services to maximize participation of eligible persons for WHEAP benefits. Outreach activities must target households with disabled persons, elderly persons, children under six years old, and persons working at low-wage jobs (working poor). The "outreach indicator" is a question on the paper and system application. See Section 3.4.4 for more information about the outreach indicator.
- 2) Agencies are required to prominently display the Home Energy Plus Weatherization/WHEAP Co-Branding Poster in the agency's main waiting area for WHEAP intake. WHEAP agencies shall also consider displaying the poster in intake workers' offices, outreach locations, and other appropriate areas.
- 3) Agencies are required to ensure that persons with limited English proficiency (LEP) have meaningful and equal access to benefits and services. The agency is required to provide spoken interpretation in addition to translated written publications as some individuals may not read English or other language. The agency must have a mechanism to communicate orally with people with LEP. Providing the Spanish version of the Home Energy Plus (HE+) Application is not fulfilling this policy requirement. If the applicant requires spoken communication and/or explanation in addition to the translated application, agencies shall ensure verbal interpretation is available.
- 4) Agencies are required to provide services to the disabled and impaired, including but not limited to assisting applicants with the completion of the application form, translation of material, interpretation services for deaf, and reading services for blind.
- 5) Agencies must establish HE+ application sites that are accessible to targeted households.
- 6) Agencies must comply with Federal Law and provide an alternate intake site separate from a site which administers W-2/TANF.
- 7) Agencies must provide assistance with the preparation and submittal of applications by persons who are homebound.
- 8) Agencies must arrange an early application period for persons in targeted groups and high-risk households.
- 9) Agencies are required to complete a Program Operations and Community Service Plan (POCS) Plan. The Division provided template is available on the HE+ public website under WHEAP Grantee Information. The goal of this plan is to provide agencies with a means to describe how the agency will conduct outreach, how they will identify and enroll eligible households in their communities, and explain how the agency will reach targeted households. The POCS Plan should indicate what other community resources/stakeholders play a role in this outreach effort and identify key stakeholders that the agency coordinates efforts/referrals with. In addition, the list should indicate the local agency's contact person and the resource services provided. The plan must be made available to the Division upon request.
- 10) Agencies may choose to subcontract with non-profit organizations that administer W-2/TANF as long as an alternate intake method is offered which does not require applicants to apply in person.
- 11) Agencies may establish interagency agreements with other low-income program offices to perform some of the outreach activities to targeted groups.

4.11 Do you provide individuals who are physically disabled the means to:

Submit applications for crisis benefits without leaving their homes?

Section 6: Outreach, 2605(b)(3) - Assurance 3, 2605(c)(3)(A)

6.1 Select all outreach activities that you conduct that are designed to assure that eligible households are made aware of all LIHEAP assistance available:

Place posters/flyers in local and county social service offices, offices of aging, Social Security offices, VA, etc.

Publish articles in local newspapers or broadcast media announcements.

Include inserts in energy vendor billings to inform individuals of the availability of all types of LIHEAP assistance.

Mass mailing(s) to prior-year LIHEAP recipients.

Inform low income applicants of the availability of all types of LIHEAP assistance at application intake for other low-income programs.

Execute interagency agreements with other low-income program offices to perform outreach to target groups.

Other (specify):

Allocate funds specifically for the purpose of outreach to households with elderly, disabled, rural poor, and/or young children.

An early application period is utilized prior to the heating season. This process includes accepting applications during the summer for the following Federal Fiscal Year from targeted households.

Accept applications for energy assistance at sites geographically accessible to all households in the area to be served. This includes setting up LIHEAP application sites for targeted households (contacting targeted persons or their representatives to ascertain convenient times and places, contacting community leaders to locate and serve application sites, providing information on alternate sites to organizations/programs likely to reach targeted persons, contacting targeted persons to arrange application appointments, transportation, etc.).

Provide information directly or by selective mailing to targeted applicants, e.g., assistance to understand the application form, translation of material, interpretation services for deaf, reading for blind.

Facilitate access to state weatherization programs targeted to LIHEAP eligible households and other energy-related services e.g., utility early identification and emergency intervention.

Counties and tribal agencies are required to provide outreach services to maximize participation of eligible persons in the Low Income Home Energy Assistance Program. It is the responsibility of each county/tribe to provide application sites accessible to the eligible population in the county/tribe, with particular attention to overcoming barriers for targeted households. Outreach client benefits include: taking applications, certifying application information, and processing applications at an alternate site.

Section 7: Coordination, 2605(b)(4) - Assurance 4

7.1 Describe how you will ensure that the LIHEAP program is coordinated with other programs available to low-income households (TANF, SSI, WAP, etc.).

<input checked="" type="checkbox"/>	Joint application for multiple programs
<input checked="" type="checkbox"/>	Intake referrals to/from other programs
<input checked="" type="checkbox"/>	One - stop intake centers
<input checked="" type="checkbox"/>	Other - Describe:

Wisconsin administers LIHEAP, DOE, Public Benefit weatherization programs and housing programs through the same state office, the Department of Administration, Division of Energy, Housing and Community Resources (DEHCR). LIHEAP is coordinated at the state level with income maintenance programs through agreements and data collection/sharing with the Department of Children and Families (DCF) and Department of Health Services (DHS). DCF operates the Temporary Assistance to Needy Families (TANF), W-2, including the jobs and welfare to work program as well as other assistance programs. DHS operates Medicaid and FoodShare (SNAP).

Beginning in FY2001, State of Wisconsin Public Benefits funds were used to make non-heating payments to eligible recipients. Public Benefit funds are fully integrated into the Wisconsin Home Energy Assistance Program, WHEAP.

Coordination between the state and local level is achieved by including representation from a variety of private and government agencies interested in energy services and/or services for low-income persons on the Low Income Energy Advisory Committee (LIEAC).

Local service providers are encouraged to coordinate their programs with each other, with utility-operated programs and with other government and nonprofit programs operated within their service area. Local service providers are required to develop a local coordination plan annually to show what is being done to coordinate with weatherization agencies, fuel providers (utility and bulk fuels), and other local groups.

If yes, Describe.

3. Exceptions, please see sections 7.1, 7.3, and 7.4

9.2 How do you notify the client of the amount of assistance paid?

At the time the LIHEAP payment is sent to the vendor, a payment notification is generated and sent to the client, indicating the amount of the payment and the vendor to whom the payment was made. When applications are completed interactively, customers are informed at the conclusion of the interview and are immediately provided with a benefit summary document that also provides the amount of benefits that will be paid to their energy provider. Additionally, each Wednesday, the Wisconsin system processes all completed applications. For those customers' whose payments are issued to a Class A Utility, the payments are issued on Friday (2 business days later). All other payments are issued the following Monday (3 business days later). In addition to the payments being processed 2-3 business days later, the Wisconsin system also mails customer notification letters.

Households receiving weatherization and/or energy related repairs receive a written work agreement of work to be performed.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

The Department of Administration requires vendors to register for participation in the heating assistance program and complete and sign a Vendor Agreement. To register, fuel suppliers agree that clients will be: treated equally with non-LIHEAP households, not be adversely affected, e.g., the eligible household will be charged in the supplier's normal billing process, the price charged will be the price normally charged non-LIHEAP eligible households, invoices will clearly indicate the amount and cost of home energy provided, and no discrimination will occur against eligible households with respect to terms, deferred payment plans, credit, conditions of sales or discounts offered other home energy customers.

In addition, a Vendor Desktop Monitoring process is in place to conduct a review of LIHEAP payments and fuel provided, in comparison to non-LIHEAP customers.

Crisis assistance fuel payments are made to vendors registered for heating assistance. In addition to signing assurances guaranteeing that LIHEAP clients will be treated equally with non-LIHEAP households and will not be adversely affected, registered vendors are required to provide information on costs and procedures for emergency fuel delivery.

Energy related home repair and weatherization purchases made by LIHEAP weatherization providers follow appropriate state or federal procurement guidelines and applicable material standards.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The Department of Administration requires vendors to register for participation in the heating assistance program and to sign a completed Vendor Agreement. To register, fuel suppliers agree that clients will be: treated equally with non-LIHEAP households, not be adversely affected, e.g., the eligible household will be charged in the supplier's normal billing process, the price charged will be the price normally charged non-LIHEAP eligible households, invoices will clearly indicate the amount and cost of home energy provided, and no discrimination will occur against eligible households with respect to terms, deferred payment plans, credit, conditions of sales or discounts offered other home energy customers.

In addition, a Vendor Desktop Monitoring process is in place to conduct a review of LIHEAP payments and fuel provided, in comparison to non-LIHEAP

customers.

Crisis assistance fuel payments are made to vendors registered for heating assistance. In addition to signing assurances guaranteeing that LIHEAP clients will be treated equally with non-LIHEAP households and will not be adversely affected, registered vendors are required to provide information on costs and procedures for emergency fuel delivery.

Energy related home repair and weatherization purchases made by LIHEAP weatherization providers follow appropriate state or federal procurement guidelines and applicable material standards.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

Unregulated vendors are subject to the same program operation policies as regulated vendors. All vendors must register with the Wisconsin Home Energy Assistance Program (WHEAP) by submitting a complete and signed vendor agreement before any payments will be made to the vendor. The vendor access to the Home Energy Plus system is limited and does not allow vendors to enter information into the system. Vendor payments are Home Energy Plus system generated and based on approved applications. All WHEAP vendors must sign the standard vendor agreement after which they are placed on a registered vendor list.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

The Administrative Review (AR) team uses a multi-faceted approach to track sub-grantee awards. The AR team conducts regular analysis of sub-grantee spending which includes both contract and benefit funds. Contract fund analysis includes an ongoing assessment of the frequency and reasonableness of agency invoicing. The AR team monitors and enforces the policy governing the frequency of agency invoicing, which is required monthly for agencies with an annual contract allocation of \$25,000 or greater, and quarterly for those agencies receiving less than \$25,000. The AR team assesses spending across each of the five contract accounts to determine the appropriateness and reasonableness of agency spending. When on site, the AR team also evaluates staff activity logs and provides Training and Technical Assistance (T/TA) as needed to ensure that costs are assigned to the correct account lines. Agencies are also encouraged to segregate the invoice creation and invoice approver duties to maintain program integrity and will be a required process for Federal Fiscal Year (FFY) 2018. The AR team evaluates the three prior years of spending of contract and/or crisis benefit funds. This assessment occurs both on site and in the Desktop Monitoring (DTM) process.

The Division's Home Energy Plus (HE+) System, processes agency invoices for payment. There are safeguards built into the system to ensure that no funds are expended beyond the allowable contractual period. The Division proactively communicates with agencies via policy, training and network wide communications advising them to submit their invoices within the allowable contractual period. They are further advised that any expenses submitted outside of this period will not be paid.

The Division also relies on the findings from the required State Single Audit. Agencies are required to have a two-tier approval process for invoicing and must submit their financial audits to the State annually. Agency internal control deficiencies are discussed to determine if there is a potential to affect the integrity of the program. As part of this process, agencies are also required to disclose any instances of worker fraud.

Refunds are tracked and recorded on the HE+ System.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

Yes No

10.3. Describe any audit findings rising to the level of material weakness or reportable condition cited in the A-133 audits, Grantee monitoring assessments, inspector general reviews, or other government agency reviews of the LIHEAP agency from the most recently audited fiscal year.

Agencies are on a 3-4 year on-site review schedule. Agencies not scheduled for an on-site review are reviewed via Desktop Monitoring. Ongoing Desktop Monitoring includes, but is not limited to, the following areas: production activity, outreach activity, accuracy of eligibility determination, client complaint trends, current system access and user security, and overall worker documentation. When discrepancies are discovered, the local agencies are contacted to review and, when warranted, correct the problems. Many of these inquiries are conducted before benefits are issued to applicants, and questioned cases are set aside from payment until the problem is corrected. Local county and tribal agencies are required to conduct internal quality assurance reviews to ensure that agencies are correctly interpreting and applying WHEAP program requirements, policies and eligibility determination.
10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.
Agencies receive an on-site review every 3-4 years. Prior to each program year, DEHCR develops a provisional list of agencies identified for an on-site review. Desk compliance monitoring results along with other agency performance indicators are considered when developing the list. Agencies not identified for an on-site review receives a Desk Top Monitoring. This results in each agency's annual participation in either a full or abbreviated compliance review.
10.7. Describe how you select local agencies for monitoring reviews.
