THE PAPERWORK REDUCTION ACT OF 1995 (Pub. L. 104-13)Use of this model plan is optional. However, the information requested is required in order to receive a Low Income Home Energy Assistance Program (LIHEAP) grant in years in which the grantee is not permitted to file an abbreviated plan. Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. #### Provide further explanation for the dates of operation, if necessary

If funding permits Crisis assistance will run the entire length of the program with an end date of no earlier than 3/31/2018. We will do a cooling program if there are funds left to do a cooling program. The funds would be what is leftover after heating assistance, so nothing is being obligated for cooling at this time. If funds have been exhausted then there will be no cooling program.

1.6 How do you ensure there is no difference in the treatment of categorically eligible households from those not receiving other public assistance when determining eligibility and benefit amounts? This is ensured as a client that is not categorically eligible will receive the same application and time frame as a client that is categorically eligible. Benefit levels are programmed into a computerized system and are based on income, size of houshold, and cost of energy. Distinction is made regarding the appliant's categorical or non-categorical status. Receipt of other benefits are considered in determining eligibility for LIHEAP benefits. Benefits for crisis payments are based solely on the above criteria plus the presence of an immediate need for home heating and lack of resources to meet the emergent need. All applicants must submit a signed form for heating benefits and all crisis applicants must be interviewed.  SNAP Nominal Payments  1.7a Do you allocate LIHEAP funds toward a nominal payment for SNAP households? Explanations of policies for each "yes" checked above:  Assistance groups that have utilities included in the rent but are not billed seperately for a heating cost must be evaluated for LIHEAP eligibility. If a client applies for LIHEAP and indicates their utilities are included in their rent, the worker requests verification of those said utilities. This can be done via phone call, rent receipt, lease, contract, etc. We also want to give priority to households that have someone in the household that is elderly, disabled, or there is a young child in the home as these are the most vulnerable to cooler tempuratures. We also want to give priority to those that have higher energy burdens as they may not have the extra money to pay higher heating bills.

### LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) **MODEL PLAN**

SF - 424 - MANDATORY
Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7
9.1 Do you make payments directly to home energy suppliers?
Heating • Yes O No
Cooling C Yes C No
Crisis • Yes O No
Are there exceptions? • Yes O No
If yes, Describe.
Some of the home energy suppliers are vendors in our data system. If they are vendors we can pay them instead of paying the clients directly for the services. We pay approximately 72,713 payments to vendors and approximately 1200 directly to clients. These numbers vary each year based on the number of clients that apply for LIHEAP.
9.2 How do you notify the client of the amount of assistance paid?  The benefit-issuance system generates an approval letter to the client with the amount of assistance being sent to the home-heating vendor. Clients are notified no later than 30 days after the receipt of the application.
9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?  We have updated the vendor agreement and it now contains the following language. Households that receive LIHEAP, in the normal billing process, we be charged no more than the difference between the cost of the home energy used and the payment that is provided by the DHHR.
9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?
The vendor's simply accept the LIHEAP payment just like they would accept payment from a client that is not getting any public assistance. The clients not coded differently in their vendor system to give special treatment of any kind. Our data system creates a payment file and when refunds are necessal vendors return LIHEAP funds back to the state auditors office. Vendors have a direct line of communication with the auditors office to resolve any issues. The vendors have been trained how to handle any funds that need to be returned. Our vendor agreement also states, no household that is received LIHEAP will be treated adversely because they are receiving assistance from the DHHR.
9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?  • Yes No
If so, describe the measures unregulated vendors may take.  Direct payments are generally made to clients who use bulk fuel unless crisis funds are involved. In a crisis situation, vendor payment is preferred unle the client must self-deliver in partial amounts and no vendor is willing to set up such "credit" accounts

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

#### 10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

Federal funds awarded to West Virginia are committed and identified in the WV OASIS (Our Advanced Solution with Integrated Systems) LIHEAP customer payments are also entered into OASIS and daily payments are tracked and monitored to determine that expenditures do not exceed amounts awarded. The state's Recipient Automated Payment and Information Data System (RAPIDS) is the benefits issuance data processing program that workers access to determine customer eligibility for LIHEAP. The system provides individual approvals and daily batch approvals which allows for dual controls. Benefits approved in RAPIDS can be compated to OASIS payments to utility companies, bulk fuel providers, etc.

Weatherization funds are not transferred to other state agencies. West Virginia Development Office runs the weatherization program for WV. They are allotted 15% of the total grant funds.

The WV DHHR Finance department tracks all fundings spent for this grant. This includes refunds, weatherization, administration, heating assistance, crisis and carryover.

12.1 How many fair hearings did the grantee have in the prior Federal fiscal year? 6

12.2 How many of those fair hearings resulted in the initial decision being reversed? 2

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

None

#### 12.4 Describe your fair hearing procedures for households whose applications are denied.

Applicants who indicate they want a fair hearing receive a form on which they must indicate whether they want a pre-hearing conference or a fair hearing or both. Requests must be made within 60 days of the denial, and the Hearings Officer must render a decision within 60 days of the hearing. In most cases, the issue is resolved in a pre-hearing conference. The applicant is informed of his rights to a fair hearing at the time of application and when he is notified of the decision made on the application. A poster at each agency office informs applicants of these rights.

Weatherization applicants are entitiled to a fair hearing by the sub-grantee agency.

#### 12.5 When and how are applicants informed of these rights?

The applicant is informed of his rights to a fair hearing at the time of application and when he is notified of the decision made on the application. A poster at each agency office informs applicants of these rights. The applicant also signs off on the rights and resposibility section of the application form which informs him/her of their rights.

Weatherization applicants are entitiled to a fair hearing by the sub-grantee agency.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

Applications for LIHEAP benefits are required to be processed within 30 days of receipt of the application by DHHR. Clients may request a fair hearing when this processing is not done timely. As with denials, a pre-hearing conference usually resolves the issue.

Weatherization applicants are informed that there are very long waiting lists for assistance and it may take 2-3 years to get to them. Rejected applicants must be notified within 10 days and given the reason for the rejection. Approved applicants are kept informed as to the status on the waiting list and an approximate date for completion.

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

We will be doing classes for clients to learn how to weatherize their home. We will provide each person that attends a weatherization kit once they complete a survey for us. The survey will be used to capture the demographic information of those who attend to see how this class and kit helps them reduce their energy burden.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

We will not set aside more than 5% for this. Our accounting department will assist in monintoring our spending to make sure that we do not spend more than 5% on this.

 ${\bf 13.3 \ Describe \ the \ impact \ of \ such \ activities \ on \ the \ number \ of \ households \ served \ in \ the \ previous \ Federal \ fiscal \ year.}$

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

West Virginia will collect and report on LIHEAP performance measures data to ensure we are targeting and serving bill payment assistance to households with the highest energy costs in relation to income. We will concentrate on restoration or prevention of loss, energy source, energy burden, income and imminent risk of running out of fuel. West Virginia has defined "Imminent Risk" as being without, disconnected, or within 3 days of being without heat.

The eRAPIDS system currently collects annual household income, annual LIEAP benefit, and main fuel type.
