The winter crisis program maximum benefit is a component of the basic heating assistance program and the maximum benefit amount for that program is \$1,000.00. The winter crisis program relates to LEAP applicants who are facing disconnect on metered fuel or are already disconnected, or households whose bulk fuel is almost out or already out of fuel. The winter crisis amount of the benefit is the amount the household is found eligible to receive under the basic heating fuel program not to exceed the \$1,000.00 maximum benefit allowance.

The year round crisis benefit maximum, listed as \$4,000, is an average maximum benefit for the furnace repair/replacement households. The year round crisis benefit is our furnace repair/replacement program.

Colorado LIHEAP requires that Energy Outreach Colorado, the agency responsible for the management of the Crisis Intervention Program, make blankets, space heaters, and alternative lodging available if deemed necessary to assure the health and safety of the eligible LIHEAP households where the primary heating system is inoperable or when a fuel tank cannot be accessed due to severe weather.

4.14 Do you provide for equipment repair or replacement using crisis funds?

4.16 Do any of the utility vendors you work with enforce a moratorium on shut offs?

Yes No

If you responded "Yes" to question 4.16, you must respond to question 4.17.

4.17 Describe the terms of the moratorium and any special dispensation received by LIHEAP clients during or after the moratorium period.

The Colorado Public Utilities Commission set forth the following mandate for the State's four regulated utility providers: Medical Certificates - a customer who has a medical certificate may not be shut off for 60 days with a potential 30 day extension.

In addition, Xcel Energy (serves the largest number of LIHEAP households) has the following moratorium: Xcel Energy will not shut off a customer 55 or older that lives alone during the winter months. Xcel offers a company sponsored program for customers who are on ventilators whereby electric service will not be discontinued for 12 months with potential for recertification.

Regulated utility providers who enter into agreement with Colorado LIHEAP agree to provide continuous service for 60 days to LIHEAP households from the date of approval. Households that have been disconnected, will have service restored within 24 hours of approval and will continue utility services for at least 60 days.

Section 6: Outreach, 2605(b)(3) - Assurance 3, 2605(c)(3)(A)

6.1 Select all outreach activities that you conduct that are designed to assure that eligible households are made aware of all LIHEAP assistance available:

Place posters/flyers in local and county social service offices, offices of aging, Social Security offices, VA, etc.

Publish articles in local newspapers or broadcast media announcements.

Include inserts in energy vendor billings to inform individuals of the availability of all types of LIHEAP assistance.

Mass mailing(s) to prior-year LIHEAP recipients.

Inform low income applicants of the availability of all types of LIHEAP assistance at application intake for other low-income programs.

Execute interagency agreements with other low-income program offices to perform outreach to target groups.

Other (specify):

A media campaign is conducted each year that includes paid advertising on television including interviews on major state wide news stations, interviews on a Spanish speaking network, ads on radio stations and monthly publications in local newspapers. The State maintains a website that provides eligibility information, a current application and instructions on the application process. Colorado LIHEAP also maintains a toll-free phone line, which is highly publicized. The customer service representatives provide information on the LIHEAP application process, answer questions, assist with taking applications over the phone and will provide the customer with instructions to access the application online or mail applications to interested households.

The Colorado Department of Human Services maintains a website that provides information about the program, criteria, directions on how to apply, access to an application that can be downloaded and a link to an on-line application.

Section 7: Coordination, 2605(b)(4) - Assurance 4

7.1 Describe how you will ensure that the LIHEAP program is coordinated with other programs available to low-income households (TANF, SSI, WAP, etc.).

<input checked="" type="checkbox"/>	Joint application for multiple programs
<input checked="" type="checkbox"/>	Intake referrals to/from other programs
<input checked="" type="checkbox"/>	One - stop intake centers
<input checked="" type="checkbox"/>	Other - Describe:

The State LIHEAP office coordinates with Colorado's four regulated utilities in the delivery of percentage of income payment plans (PIPP) that provide energy assistance to low income gas and electric consumers pursuant to rules established by the Colorado Public Utilities Commission. The PIPP program is offered to LIHEAP recipients that are customers of Atmos Gas, Black Hills Utilities, Colorado Natural Gas and Xcel Energy. Black Hills Utilities will offer their electric program to non-LIHEAP low income customers as well as LIHEAP customers and the gas program only to customers receiving LIHEAP. The State LIHEAP office provides LIHEAP eligibility criteria to the utilities through a secure automated transmission method for participating PIPP households upon written consent of the PIPP applicant. Utilities will calculate the "affordable" part of the bill as a prescribed percentage of the total household income as defined in the PUC ruling. The residual difference between the "affordable" portion and the annual bill will become the "non-affordable" portion. The LIHEAP benefit will be applied to the "non-affordable" portion of the bill for all the plans that are offered to LIHEAP eligible customers. Black Hills Utilities will apply the LIHEAP benefit to the "affordable" portion of the bill for those customers enrolled in their electric program because it is being offered to non-LIHEAP low-income customers. Utilities must treat any individual LIHEAP benefit amounts that are in total greater than the amount applied to the "unaffordable" portion of the utility bill by applying it first to pre-existing arrearages, and secondly, to the account of the program participant. For Black Hills Utilities electric program participants, any LIHEAP benefit amounts that are in total greater than the amount applied to the "affordable" portion of the utility bill will first be applied to the pre-existing arrearages and secondly to the account of the program participant.

8.6 What is your process for selecting local administering agencies?

Colorado LIHEAP is a state supervised and county administered program. The State is represented by 64 county offices who are responsible for the administration and or outreach for LIHEAP. The State currently contracts directly with Discover Goodwill, a non-profit agency, located in Colorado that determines eligibility on behalf of 54 counties for FFY 2023. The State is able to provide better oversight and monitoring through a direct contractual relationship with Discover Goodwill instead of each county subcontracting with Discover Goodwill, which was the process prior to October 2016.

County offices who are no longer processing eligibility are still responsible for outreach efforts, providing information and referral and assuring there is a coordinated process with Discover Goodwill to handle emergencies.

8.7 How many local administering agencies do you use? 64

8.8 Have you changed any local administering agencies in the last year?

- Yes
 No

8.9 If so, why?

- Agency was in noncompliance with grantee requirements for LIHEAP -
- Agency is under criminal investigation
- Added agency
- Agency closed
- Other - describe

One of the counties that has been administered by Goodwill CO has taken back their LIHEAP administration at the county level.

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

The State maintains a centralized LIHEAP eligibility system whereby local agencies determine eligibility and the State processes payment, which is sent directly to vendors through an electronic transfer of funds.

The State processes payments directly to a client's Electronic Benefit Transfer (EBT) card when heat is included in rent and/or the client utilizes a vendor who has not entered into an agreement with the State. Clients can also choose an electronic fund transfer of the LIHEAP payment to their bank account instead of an EBT card.

9.2 How do you notify the client of the amount of assistance paid?

A notice is generated from the LIHEAP computer system detailing the benefit amount that is paid on behalf of the applicant household to the specified utility provider. A notice is also generated with the benefit amount for those clients that will receive a direct payment on their EBT card when heat is included in rent or they use a vendor who has not entered into agreement with the State. The county administering agencies and contractor are responsible for mailing notices to applicant households.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

The State has included a provision in the LIHEAP vendor agreement that requires the vendor to charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment. The vendor agrees to implement this provision by signing the LIHEAP vendor agreement.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The vendor agrees that there will be no adverse treatment of a household due to receipt of LIHEAP assistance upon signing of the LIHEAP vendor agreement. The State will terminate a vendor agreement if it is determined that a vendor has treated LIHEAP households adversely and inactivate the vendor account in the LIHEAP eligibility system.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

Yes, unregulated utilities are required to sign a vendor agreement in order to serve LIHEAP households and receive payment from the State.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
