Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

Federally accepted accounting practices and fiscal controls are used to track administrative and benefit expenditures. Authorized funding is assigned budgetary codes by funding type for tracking, monitoring, and compliance purposes. The LIHEAP program is also subject to District of Columbia internal audits.

Both LIHEAP and WAP are administered by DOEE, therefore weatherization funds are not transferred to a separate state agency and LIHEAP funds are monitoring by in-house by the District's Office of the Chief Financial Officer (OCFO) staff.

All vendor transfers are reconciled on a regular basis and vendor refunds are returned to the same funding index from which they originated. DOEE program monitoring includes, but is not limited to, inspecting and reviewing a random sample of client records, administrative procedures and expenditures, vendor payments, requests for disbursement of funds, and other LIHEAP program-related activities.

Section 12: Fair Hearings, 2605(b)(13) - Assurance 13

12.1 How many fair hearings did the grantee have in the prior Federal fiscal year? 3

12.2 How many of those fair hearings resulted in the initial decision being reversed? 0

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

All of the fair hearings were dismissed by the Office of Administrative Hearings in DOEE's favor (i.e., none reversed DOEE's benefit determination).

12.4 Describe your fair hearing procedures for households whose applications are denied.

The District of Columbia's independent Office of Administrative Hearings (OAH) conducts hearings and resolves cases involving various programs administered by District agencies, including decisions concerning DOEE's LIHEAP non-entitlement benefit. See, generally, the District of Columbia's Municipal Regulations, 1 DCMR §§ 2970 -78.

An applicant, who is dissatisfied with a DOEE LIHEAP decision, including the denial of an application for a benefit, may follow the cited appeal procedures., 1 DCMR 2970.1(1)). An independent OAH administrative law judge issues a written decision for every case that is contested.

12.5 When and how are applicants informed of these rights?

Every applicant for LIHEAP assistance receives at the conclusion of the intake and the processing of their application: (a) a letter confirming the decision, (b) a printout of the database information on which the decision was based, (c) a copy of the matrix used to determine benefit level with a user key, and (d) detailed instructions on how to file an appeal if the applicant is dissatisfied with the decision. (See attached.) If the application was made at a DOEE office, these materials are provided to the applicant in person. If the application was taken at a home, as with a disabled or an elderly and frail person, DOEE provides the applicant with a copy of their rights and mails the benefit determination to the applicant promptly after the decision is made. If the application was completed online or via the mail, materials (a), (c) and (d) are available online and the applicant may request item (b) by calling the District's Office of Unified Communications at 311.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

Hearings are held before an administrative law judge at the independent Office of Administrative Hearings.

12.7 When and how are applicants informed of these rights?

At the conclusion of processing of the application, every in-person applicant for LIHEAP assistance receives (a) a letter confirming the decision, (b) a printout of the database information on which the decision was based, (c) a copy of the matrix used to determine benefit level with a user key, and (d) a link to detailed instructions on how to appeal if the applicant is dissatisfied with the decision. If the applicantion was completed online, materials (a), (c), and (d) are available online and the applicant may request item (b) by calling the District's unified call center at 311. Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Up to two (2) percent of awarded funds are used to conduct educational activities to educate participants on how to identify energy waste, increase energy efficiency, and to understand and read their utility bills. These activities are conducted to assist clients in reducing their energy costs. For LIHEAP weatherization cases, DOEE's energy efficiency staff explains his findings to the LIHEAP household members.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

A separate line item budget is established for the funds that are used for this purpose. The funds are assigned an index number and tracked and monitored on a monthly basis to assure compliance with funding guidelines. The LIHEAP weatherization work is accounted for separately, as well.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

At the end of each fiscal year an analysis is conducted to determine the estimated savings a single-family household would receive based on the energy conservation measures installed. The following year the same household's energy bills are reviewed to determine the actual costs to quantify the data previously estimated. Please see the actual savings for fiscal years 2020 and 2021 and the estimated savings for fiscal year 2022.

In FY20, 27 clients were served, overall estimated savings in BTUs and cost: 127,627,759; \$4,862; overall gas savings in therms and cost: 7,926 / \$11,126 \$412 Per Unit

In FY21, 104 clients were served, overall estimated savings in BTUs and cost: 504,413,540 / \$19,218; overall gas savings in therms and cost: 11,322 / \$14,492 (\$179 Per Unit)

In FY22, 59 clients served, overall estimated savings in BTUs and cost: 185,443,392 / \$11,445; \$193.98 per unit (estimate); overall gas savings in therms and cost: 16,932 / \$23,785 (\$403.14 Per Unit estimate)

13.4 Describe the level ofdirect benefitsprovided to those households in the previous Federal fiscal year.

Due to the pandemic EECB personnel focused on identifying the impact of COVID on recipients of LIHEAP-funded work through our Weatherization and Emergency Mechanical System Program. We administered the survey to 41 weatherization clients and 52 EMS clients. Based on the responses we also referred program participants to additional support services if they requested them.

EECB personnel was also able to create a partnership with local elementary schools. In Fiscal Year (FY) 2021 Two Tivers Elementary School and in FY22 Malcolm X Elementary School where we educated students on energy efficiency, reuse, and upcycling garments. Based on the bi-weekly visits conducted over a period of 6 months we were able to generate the "art-work" to disseminate the energy savers calendars in 2022 and 2023.

August 1987, revised 05/92,02/95,03/96,12/98,11/01 OMB Clearance No.: 0970-0075 Expiration Date: 12/31/2023

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

- 16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.
 - 1. Current practices: DOEE currently collects the data required for the LIHEAP performance measures. DOEE made steps in late FY15 and early FY16 to begin collecting the average annual electricity (non-heat) usage for LIHEAP applicants, which was previously not collected due to the difficulty in accessing this information. DOEE updated the applications forms to include language that granted the applicant's permission to share their secondary utility information. Additionally, DOEE updated the language in the vendor agreements to include the provision of usage data for all LIHEAP applicants regardless of home energy type.
 - 2. Areas of improvement: DOEE communicates regularly with Pepco, Washington Gas, and our software vendor to ensure that any issues that arise are attended to so that DOEE will meet the performance measures mandate.
 - 3. FY21: DOEE implemented a new software system to further improve our data collection and reporting procedures. FY22, FY21, FY20 and FY19: DOEE began working with APPRISE to evaluate and review the reported data in FY19 and plans to continue to do so in FY23. DOEE has also procured a new software vendor and has been working with this vendor and APPRISE to ensure that additional functionality is incorporated for the reporting of performance measures; including improved tracking of the prevention of disconnections and the restoration of service.
 - 4. Plan: DOEE executed revised multi-year Vendor Agreements and implemented revised procedures. DOEE is further working to align the software technology to match revised requirements within the Vendor Agreement.

Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. - (6) to the extent it is necessary to designate local administrative agencies in order to carry out the purposes of this title, to give special consideration, in the designation of such agencies, to any local public or private nonprofit agency which was receiving Federal funds under any low-income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 or any other provision of law on the day before the date of the enactment of this Act, except that -

 - (D) ensure that the provision of vendor payments remains at the option of the State in consultation with local grantees and may be contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households, including providing for agreements between suppliers and individuals eligible for benefits under this Act that seek to reduce home energy costs, minimize the risks of home energy crisis, and encourage regular payments by individuals receiving financial assistance for home energy costs;

(8) provide assurances that,

- (A) the State will not exclude households described in clause (2)(B) of this subsection from receiving home energy assistance benefits under clause (2), and
- (B) the State will treat owners and renters equitably under the program assisted under this title;

- (10) provide that such fiscal control and fund accounting procedures will be established as may be necessary to assure the proper disbursal of and accounting for Federal funds paid to the State under this title, including procedures for monitoring the assistance provided under this title, and provide that the State will comply with the provisions of chapter 75 of title 31, United States Code (commonly known as the "Single Audit Act");

- (14) cooperate with the Secretary with respect to data collecting and reporting under section 2610.
- (15) * beginning in fiscal year 1992, provide, in addition to such services as may be offered by State Departments of Public Welfare at the local level, outreach and intake functions for crisis situations and heating and cooling assistance that is administered by additional State and local governmental entities or community-based organizations (such as community action agencies, area agencies on aging and not-for-profit neighborhood-based organizations), and in States where such organizations do not administer functions as of September 30, 1991, preference in awarding grants or contracts for intake services shall be provided to those agencies that administer the low-income weatherization or energy crisis intervention programs.
- * This assurance is applicable only to States, and to territories whose annual regular LIHEAP allotments exceed \$200,000. Neither territories with annual allotments of \$200,000 or less nor Indian tribes/tribal organizations are subject to Assurance 15.
- (16) use up to 5 percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and
