No priority groups will be established under the 2023 LIHEAP State Plan, as a response to high energy prices and COVID-19 and in order to also assist households in need. The program will continue until May 31, 2023, or until funding is exhausted. The Weatherization program started July 1, 2022 utilizing HHS funding. Illinois will not administer a separate Cooling assistance program during FY2023. Eligible customers will be assisted with both gas and electric until May 31, 2023.

Renters with utilities included in their rent have to verify their rent is greater than 30% of their income for 30 days prior to application in order to be eligible to receive benefits. In addition, the furnace component is for homeowners. Since landlords have legal responsibility to provide heat to their tenants during the winter months, renters are not eligible for Furnace Assistance.

2.4 Describe how you prioritize the provision of heating assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.

The Department will continue considering households categorically eligible if one household member receives SNAP or TANF benefits in the previous month from the date of application.

Section 4 - CRISIS ASSISTANCE

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES
ADMINISTRATION FOR CHILDREN AND FAMILIES

August 1987, revised 05/92,02/95,03/96,12/98,11/01
OMB Clearance No.: 0970-0075
Expiration Date: 12/31/2023

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 4: CRISIS ASSISTANCE

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	7	HHS Poverty Guidelines	200.00%
2	11	State Median Income	60.00%
3	15	HHS Poverty Guidelines	150.00%

4.2 Provide your LIHEAP program's definition for determining a crisis.

In the event of a household related crisis, the Illinois Department of Commerce and Economic Opportunity (the Department), in coordination with other pertinent agencies, will develop an appropriate response designed to eliminate the threat to life and health. Under such condition, the Department may utilize a portion of available 2023 LIHEAP funding to provide crisis assistance to low-income households affected by threatening conditions.

Reconnection Assistance (RA) will be provided when a household is in imminent disconnection status or is already disconnected by the utility from its primary heat source or from any secondary energy source that is heat related. Disconnection will be considered imminent when disconnection will occur within (7) days without the provision of crisis assistance. During Fiscal Year 2021, the Department changed the imminent threat definition to a \$300 outstanding balance in light of the utility shut-off winter moratorium for gas and/or electric services that ended on March 31st, 2021 and further assist customers who continued to struggle during the Public Health Emergency who were subject to disconnection from nonpayment of utility charges. However, the Department is reverting back to seven (7) days prior to disconnection in order to conserve crisis assistance funds until March 15.

Crisis assistance (Reconnection Assistance and Furnace Assistance) will be provided within 48 hours or 18 hours in the event of a life-threatening situation affecting the individual household. The 48/18 hour timeframe is from the day the customer's application is completed and all required documentation has been received and verified. Although the Local Administering agencies are aiming to serve households within the 18/48 hours timeframe this requirement continues to be exempted by HHS, in response to COVID-19.

The amount of Reconnection Assistance will be the minimum amount needed to restore energy service to the household. Households are eligible for Reconnection Assistance payments not to exceed a total of \$1,200 per household per year. Eligible households are limited to one Reconnection Assistance payment for the primary energy source and one for the secondary. Both payments combined cannot exceed the applicant benefit limit of \$1,200. Applications for primary and secondary Reconnection Assistance payments do not have to be done simultaneously. The household is allowed to apply for a Reconnection Assistance payment for one vendor. This is not to be interpreted to mean that the household is entitled to the maximum benefit. The time of the application, the amount for reconnection, and the availability of funding will determine if each household is applying for Reconnection Assistance benefits will receive the maximum.

Previously, Reconnection Assistance was not to be made on behalf of a household unless it restored the household's energy service and/or the household made a good faith effort to pay its home energy bills. The Department will continue overriding the Good Faith Effort (GFE) and/or Customer Payment Responsibility (CPR) requirement during Program Year (PY) 2023 as part of our energy prices increase and COVID-19 response to assist households in need.

Furnace Assistance will be provided until March 31, 2023 or until the furnace allocation is exhausted, to households that qualify for and receive a LIHEAP energy assistance benefit in the 2023 Program Year. Furnace Assistance benefits are for households that do not have an operating furnace and/or a safe heat source for their residence. Furnace Assistance benefits, which may include true-up, repair, or replacement, will be utilized to restore a vital heat supply to the home. The Furnace Assistance component will be operated in collaboration with the LAA's Weatherization program. The LAAs are uniquely situated to define and develop individualized responses to energy related emergencies. Packaged (heating and cooling) units may be repaired or replaced using Furnace Assistance, as with any other furnace, replacements of these units must be justified as the safest, most effective measures needed to safely restore heat to the residence. Additionally, water heating venting correction are allowable health and safety expenditure.

The Department will continue administering the Furnace Assistance Voucher Program as part of the Furnace Assistance Program. This was a pilot program that began in FY22 and is now moving to Phase 1- adding more LAAs. This voucher program will continue to be optional and LIHEAP Local Administering Agencies that decide to administer this pilot will be pre-approved by the Department. Some LAAs will administer the Furnace Assistance Program as a 100% Furnace Voucher Pilot Program and others may offer a hybrid program where some customers can be assisted through the traditional Furnace Assistance Program and others through the Furnace Voucher Pilot Program.

Under the Furnace Voucher Pilot Program customers will: 1- apply for Furnace Assistance through their LAA; 2-LAA will document whether the customer has a safe place to go if they do not have heat so the 48/18 hours requirement is met. The LAA provides a list of all HVAC contractors in the area. The list should state there may be more contractors in the area, this is a helpful tool for the customer to find an appropriate HVAC service provider; 3- customer is made aware the repair/replacement must be made by an established HVAC contractor; 4- customer receives a document that tells them the voucher amount is based on the type of existing heating system; 5- customer finds a contractor to make repairs/replace of existing HVAC equipment; 6- customer calls the LAA with information on furnace vendor selected, 7-LAA works with the contractor to make allowable voucher payment. Customer may have a Customer Payment Responsibility, if total bill exceeds the maximum Furnace Assistance benefit amount; 8-Contractor signs a voucher acceptance form stating that safe heat has been restored to the customer, prior to

voucher being paid.

4.3 What constitutes a life-threatening crisis?

Reconnection Assistance and Furnace Assistance will be provided within 18 hours from the date and time the customer's application is complete; if the energy crisis is life-threatening. For the purpose of implementing the 18-hour processing provision exists if the following conditions are met:

- The temperature is 32 Fahrenheit or below.
- The household is not protected by the Illinois Commerce Commission (ICC) rules or similar local laws.
- Reconnection is the only available remedy, i.e, the household does not have alternate shelter, lacks a safe temporary means of heat, and/or is homebound.

Each local agency is required to develop specific written procedure to implement the 18-hour provision in an equitable manner, including from which the outside temperature was established (e.g. via Intellicast.com for the customer's city of residence). Outreach sites are required to securely scan and email applications that require an 18-hour response along with the supporting documentation to the LAA-Main Office via a secure file transfer system with the Department's prior approval.

Crisis Requirement, 2604(c)

4.4 Within how many hours do you provide an intervention that will resolve the energy crisis for eligible households? 48Hours

Priority eligibility for elderly, disabled, young children and/or disconnected households continue to be removed during this time as part of our high energy prices and COVID-19 response to assist households in need. In other words, all eligible households can start applying for Reconnection Assistance beginning September 1, 2022. The Department must set aside a portion of the State's allocation for use in crisis situations. Under this component funds may be used for either weather or supply emergencies that affect the entire eligible population or for crisis-related situations that affect an individual household to the extend funds are available. The policies for eligibility to receive crisis benefits are explained in Section 4.2 of this Model Plan.

The Department will continue considering households categorically eligible if one household member receives SNAP, TANF Cash and AABD Cash benefits in the previous month from the date of application.

The additional/differing policy for renters whose utilities are included in rent state a one-time "Cash" benefit (in the form of a check to the customer) is available when the household's rent is greater than 30% of the household's monthly income.

In response to the increase in need of assistance programs and the availability of funds, the Department is maintaining the LIHEAP income guidelines to 200% of the Federal Poverty Level and 60% State Median Income.

The Department has developed a network of Local Administering Agencies (LAAs) to act as local service providers in accordance with this assurance. We will continue utilizing these agencies, whenever possible, to operate the LIHEAP program. A Notice of Funding Opportunity (NOFO) process is issued for the replacement of a local agency due to poor performance and/or non-compliance.

The Department will give special consideration to the designation of such agencies, to any local or private nonprofit agency that was receiving federal funding under any low income energy assistance program or weatherization program under the Economic Opportunity Act of 1964 or any other provision of law on the day before the date of the enactment of this Act, except that: (1) the state shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the state, and (2) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, the state shall give special consideration in the designation of LAAs to any successor that is operated in substantially the same manner as the predecessor agency that did receive funds for the fiscal year preceding the fiscal year which the determination is made.

To be eligible for funding opportunity, a local agency must submit an annual application to the Department for funding. In addition, LAAs are required to submit a standard grantee application and a program implementation plan prior to the start of the program year. Applications must include/demonstrate the following areas:

- 1- An effective outreach referral program (evidenced by services to customers in accordance with their incidence in the census-based client population of the service area) and continuing planning process and capability (evidenced by demonstrated applicant staff capability to complete federal and/or state grant applications and reporting documents).
- 2- An accounting system that meets generally accepted accounting principles of the American Institute of Certified Accounts (AICPA) (1989).
- 3- An effective citizen participation/community involvement program.

Tazwood Community Services, Inc. has been the emergency provider during FY22 and will continue operating as the emergency provider in FY23 to serve these counties. A Notice of Funding Opportunity (NOFO) will be issued by the Department for these counties to find a permanent provider prior to the next Fiscal Year 2024.

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For grantees other than individuals, Alternate I applies.
4. For grantees who are individuals, Alternate II applies.
5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).
