Must the household have received a shut-off notice or have a near empty tank?

Fast Track:

The household must 1) have received a 48-hour disconnect notice from their heating or electric service, or 2) have been disconnected, or 3) be in need of heating fuel and have less than 10% in their tank, or 4) need a deposit to establish service, or 5) have a life-threatening situation if they lose energy; and, 6) have paid at least \$25 on their utility bill(s) during the sixty (60) days prior to the emergency; and 7) have requested a payment plan and been denied or already have a payment plan established but are unable to meet the payment requirements.

Other:

Nevada has the following crisis components available: 1) Fast Track, 2) Crisis Intervention, and 3) Arrearage Payment (When funding permits at the discretion of the Administrator).

Do you have additional / differing eligibility policies for:

Renters living in subsidized/public housing where all utilities are included in the rent and they are not billed separately for their energy costs are ineligible for an EAP benefit.

If the utility account(s) are in the landlord's name and the utilities are included in the rent, and the residence is not master-metered, and eligible household may receive the annual minimum payment of \$240 paid directly to the household if all other eligibility criteria are met.

Eligible households with a solar vendor are eligible for the minimum payment of \$240 for the solar vendor.

Determination of Benefits 4.8 How do you hand to risis situations? Separate component Fast Track Other - Describe: See attachment for section 4 or see below: Fast Track: The Fast-Track Component is the expedited processing of an energy assistance application to respond in emergent situations.

Application Processing Times:

a) When an eligible household, if having a loss of energy causes a life-threatening situation, applies for energy crisis benefits their case will be processed within 18 hours of receipt of their application and proof of eligibility.

b) If an eligible household has received a 48-hour disconnect notice their case will be processed within 48 hours of receipt of their application and proof of eligibility.

The Crisis Intervention Component assists households experiencing a special circumstance or crisis and whose gross annual income exceeds the current income limits to be set by the Administrator, not to exceed 150% of poverty except for allowable qualifying expenses that reduce the annual income to the current income limits of poverty or less.

Qualifying expenses may include: 1) Unreimbursed medical expenses for medical emergencies or long-term, chronic medical conditions; 2) Unreimbursed compulsory and necessary home repairs; 3) Automobile repairs only if transportation is needed for ongoing medical care, the repairs are critical to the operation of the vehicle, and, it is the only registered vehicle in the household. Regular maintenance is excluded, including tire purchases. The qualifying expense must be supported by valid and verifiable documentation, and must create a financial hardship for a period of no less than three (3) months.

A household that meets the criteria for Fast Track or Crisis Intervention receives the amount to which they are entitled based on the FAC benefit not to exceed the benefit cap for the household's size and income.

And/or Arrearage Payment Component:

Other:

This component enables targeted low-income households to achieve energy self-sufficiency through a combined one-time arrearage payment and an ongoing FAC benefit. The DWSS Administrator has the flexibility to restrict the Arrearage Payment Component to special households (child under 6, elderly, or disabled), suspend the program entirely when program funding is limited following a 30 day public notice period or to reduce or eliminate the energy burden to optimize the assistance provided to eligible households based on projected caseload, available program funding, and/or circumstances that warrant an adjustment (e.g. moratoriums on utility payments, etc.).

The arrearage payment is an amount eliminating the applicant's debt owed to their heating and/or cooling vendor(s). The following criterion applies:

- 1. The household's gross annual income must not exceed the current gross annual income limits of the federally designated level signifying poverty, as determined by the Division of Welfare and Supportive Services.
- 2. An eligible household may receive an arrearage payment once every five years based on the program year the prior arrearage payment was received. The only exceptions are households with chronic, long-term medical conditions that create a financial hardship and/or increase energy consumption. The payment may be for both energy vendors. However, a subsequent request for an arrearage payment may not be paid at a later date in the event the previous arrearage payment did not cover one of the household's energy vendors.

An eligible household that meets the criteria for the Arrearage Payment Component, receives both an arrearage payment, the amount necessary to satisfy the past due debt incurred with their energy vendor(s) and their regular FAC (not to exceed the cap) benefit.

Through a fully automated process, recipient households in NOMADS meeting LIHEAP/Energy Assistance Program (EAP) income guidelines, and who have not applied for energy assistance in the previous or current year, may be periodically mailed a special EAP application preprinted with data from NOMADS. A cover letter accompanies each application explaining the household may qualify for energy assistance by reviewing the application, completing missing information and correcting any errors in the preprinted data, signing and dating the application and submitting to the EAP.
- 2. Weatherization Assistance Program (WAP) Monthly, a list of all eligible EAP households is automatically provided to the Housing Division's WAP via an electronic transfer. These transfers are made to apprise the WAP of high-energy usage households.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

See attachment for Section 10 or see below.

The Division of Welfare and Supportive Services uses a system of checks and balances to ensure accurate fiscal accounting and tracking. The LIHEAP/EAP Program Manager develops and maintains spreadsheets to track obligations and expenditures against the federal fiscal year, which are regularly reconciled with the Accounting Unit's fiscal records utilizing the State fiscal year. Funds are disbursed by the State Controller, with proper disbursal of and accounting for funds monitored through the Integrated Financial System (IFS). This system records and reports all aspects of financial activity within the program.

 evaluation of the Energy Assistance Program to include: statutory compliance, performance measurements, information technology support,
 business operations, effectiveness, efficiency, and the identification of any benefit and program deficiencies with recommendations to improve
 them. Annual evaluations are provided to the governor, the legislative commission, and members of the legislative interim finance committee.
- Annual Management Evaluations Case reviews are conducted by central office program staff to ensure district offices are complying with
 established program policy and to evaluate the accuracy of benefit calculation/distribution. The review data is entered, compiled, and stored in
 a system application, which produces summary reports. Any review element which falls below a 95% compliance rate is subject to a corrective
 action plan involving the Deputy of Field Services, the Program Manager, Chief of Employment and Support Services and Program Staff. A
 subsequent targeted review is conducted to determine if the corrective action was sufficient to bring the office into compliance or if additional
 corrective action is required.
- Staff Performance Case Reviews Supervisors are required to complete a set number of case reviews per worker per month to monitor staff
 performance. Trainees and staff with performance issues are subject to 100% review prior to the posting of benefits. The Program Manager
 reviews a subset of the review completed by the supervisors to ensure they are adequately identifying and addressing performance issues. Staff
 who fail to meet performance standards are subject to progressive disciplinary procedures.

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
