Provide further explanation for the dates of operation, if necessary

Heating Assistance: November through March are the coldest months in Interior Alaska, where temperatures can drop to below -60 plus degrees, although it starts getting a chill in the air around end of August and continues through May and beginning of June. Tanana Chiefs Conference will provide wood and oil throughout the Fiscal Year 2023. Cooling Assistance: Only 1% of funding set aside to assist Elders and vulnerable population in each village as the temperatures can reach 90 degrees or more in June, July, or August, which is dangerous without help. Crisis Assistance: This will be utilized on a case by case basis, throughout most of the fiscal year, with direction from the Tribe to eligible households, serving vulnerable populations first and foremost. Weatherization Assistance: Available to eligible households throughout most of the year, they have to request it on their initial application for energy assistance but bulk of this assistance is in summer months for easier repairs. The price of heating fuel skyrocketed in 2023, and this will affect our region significantly.

The vulnerable populations can be assisted with fans, window screens for airflow and keep out the mosquitos, and air conditioners for local gathering places such as Tribal Halls. Only a few Tribes have air conditioned office space or Elders meeting room for a community cooling area for relief. If heat stress is an option allowed by DHHS, elders will be assisted with electricity relief under this component.

<input type="checkbox"/>	Fast Track
<input type="checkbox"/>	Other - Describe: When a crisis situation arises that is the top priority and we work to ensure heating fuel or wood be delivered that day or as soon as possible. Both the Tribe and the vendor is communicated with immediately, along with the client/ recipient of the crisis benefit. Alaska's winters can become very cold for long periods of time and usually the Tribal Offices or family members keep track of the welfare of the vulnerable population. We are alerted by either the Tribe, the person working with Energy Assistance at the Tribal office, the Chief, the Tribal Administrator, the client or a family member to make us aware of any crisis situation. Usually crisis is diverted within the same day.
4.9 If you have a separate component, how do you determine crisis assistance benefits?	
<input checked="" type="checkbox"/>	Amount to resolve the crisis.
<input checked="" type="checkbox"/>	Other - Describe: Crisis payments are 25% of the persons EA benefit amount, unless there is a supply shortage of fuel, natural disaster, or vendor mismanagement then additional payment will be made if no other agency will provide for the applicants energy and fuel sources needed and freight costs; therefore maximum benefit amount would be 50% of the EA benefit award.

Section 11: Timely and Meaningful Public Participation, 2605(b)(12), 2605(C)(2)

**11.1 How did you obtain input from the public in the development of your LIHEAP plan?
 Select all that apply.**

- Tribal Council meeting(s)
- Public Hearing(s)
- Draft Plan posted to website and available for comment
- Hard copy of plan is available for public view and comment
- Comments from applicants are recorded
- Request for comments on draft Plan is advertised
- Stakeholder consultation meeting(s)
- Comments are solicited during outreach activities
- Other - Describe:

Flyers are distributed to each Tribal Council Office within Tanana Chiefs Conference LIHEAP service area notifying the public of a public toll-free teleconference being held for public comment in addition where the LIHEAP draft plan can be found on-line at www.tananachiefs.org. Also, public comment is available and arranged when staff travels out to the villages. All Tribal offices in the Villages have toll free contact numbers to the manager and intake specialist for LIHEAP public comment access throughout the year.

Training 1-on-1 basis with tribes is provided. TCC leaders also did several boat trips in 2021 and 2022 to discuss tribal needs and concerns. TCC hosted a timber symposium in May 2022, where energy needs was discussed. Other meetings are noted where energy is addressed by TCC staff.

Emails out to tribes to update on the current year's LIHEAP, and we offered assistance in helping with the application process and any energy assistance related issues.

We allowed for public comments, and got feedback from tribal leaders regarding retirement/pension benefits, vendor agreements, and year round application process.

11.2 What changes did you make to your LIHEAP plan as a result of this participation?

We reached out to all the villages starting August 2021 through August, 2022. Attached are some recorded notes showing discussions regarding outreach provided to TCC's LIHEAP service area. With the winter phone/email outreach to tribes, it was apparent that tribes wanted more assistance with application process. Tribes support using the State Median Income at 60%, instead of the 150% of the Federal Guidelines for Alaska. This would allow for more households to qualify for the energy assistance, which is especially needed during this time of the COVID pandemic, and high cost of heating oil. Another request made by several tribal members is to exclude retirement/pension benefits from countable income, for elders, age 60 and older.

FY2022 response to requests from Tribes and public comment:

Energy Assistance Coordinator continued one one one trainings with tribes to help with the application process and provides regular status updates to tribes.

We will remain 60% State Median guidelines, instead of 150% of Federal Guidelines for State of Alaska to include more households to qualify. We updated our vendor agreement contract for in FY 22 and it remains in effect for FY23 and onward, to exclude green wood delivery and clarify that only dry spruce wood must be delivered to clients.

11.4. How many parties commented on your plan at the hearing(s)? 5

11.5 Summarize the comments you received at the hearing(s).

- For FY23, however, we reached out to tribes for public comments.
- There were comments from three tribal leaders to exclude retirement/pension benefits from countable income. The reasons given were some elders are on fixed incomes; elders are the vulnerable group; fuel costs are high this year. Two called to follow up and stated that the price of fuel is high this year and "Elders" are a vulnerable group in the application, and one elder is worried about how he will pay his energy bill this year at the prices in rural Alaska. Some areas in region range from to \$9/gallon to \$14/gallon for fuel. Clearly stated, "do not count retirement/pension" from elders."
- A comment made was for TCC to keep TCC's energy assistance application process open all year. We determined that was not allowable because of our weatherization and cooling phases of the grant.
- another tribal leader requested assistance with becoming a fuel vendor for their tribe.

Voiced by tribal leaders/members, without email: 60% SMI is preferred; collect applications as soon as they come in; help with applications; status reports needed on client assistance so no one is missed; helping a client who is just a little overcome with disabled child.

11.6 What changes did you make to your LIHEAP plan as a result of the comments received at the public hearing(s)?

Not very many changes made since we are using option 2 this year, and extending the FY22 application to FY23, with minor changes.

FY 23 Model plan- we will use State Median for Alaska at 60%. This is due to the high cost of fuel and this selection allows for more applicants.

We will not count pension or retirement income for elders 60 and older in FY23. No other group will be allowed this option.

TCC will keep the application opening as October 1-April 30. We will not keep open year round, as this would affect weatherization and cooling.

We will continue to work with our vendors.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Tanana Chiefs Conference Housing Program educates households on how they can reduce the cost of energy needs when weatherization work is being performed on their homes. Tanana Chiefs Conference has on staff a Rural Energy Coordinator who works closely with tribes on how to reduce energy cost and counsels households on reducing their energy burdens for the entire community and with internal coordination of services the LIHEAP program has been able to provide low energy cost items such as energy efficient light bulbs to be available during our annual Tanana Chiefs Conference Convention. Staff have also put out a newsletter in 2021 in The TCC Council on Energy Tips for its tribal members.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

Using accounting reporting systems allows for grants management report to be accessed ensuring expenditures do not exceed 5%.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

The impact has mostly affected the Tribal offices and community buildings such as the Tribal Hall and washeteria (laundromat, showers). The Rural Energy Coordinator has worked with the Tribes to ensure their village generator and power plant are working energy efficiently. Meetings with the Rural Energy Coordinator, David Pelunis-Messier we are looking at working more closely with the Tribal households to improve energy efficiency across the Region. TCC staff present to tribal chiefs about energy efforts around region.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

The direct benefit is lower costs of electricity so far in several of the villages, including using solar power in two villages. Partnering with our Rural Energy Program out of another Division we will be able to do more in FY22 for individual households, specifically in the following areas: Storm windows, seal air leaks, insulation, curtains that block drafts, wood stove or monitor maintenance for efficiency. To determine the actual direct energy conservation benefit we would like to partner with our Rural Energy Program to assist with energy audits, before and after improvements and look where we can have those done.

13.5 How many households applied for these services? N/A

13.6 How many households received these services? N/A

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For grantees other than individuals, Alternate I applies.
4. For grantees who are individuals, Alternate II applies.
5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).
