According to developed policies and procedures, and benefits matrix, households with incomes below the 30% income guideline of the SMI are given a benefit amount higher than what the 60% benefit award, which lessor than 30% benefit award. Those families with higher energy burdens, or when in crisis, and/or life-threatening situations, are given priority, along with those that have elderly, children, and veterans in the home.

**Determination of Benefits 2605(b)(5) - Assurance 5, 2605(c)(1)(B)**

**2.4 Describe how you prioritize the provision of heating assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.**

The benefit matrix is our tool to assess the most vulnerable households. Household size, and income are factored to determine the benefits for base amount of assistance requested. The base amount for those families under the 30% (SMI), varies from the base amount for those families that exceed to 60%. An additional \$20 (30%), and \$10 (60%) per household member in excess after 4 people is awarded. This allows additional heating assistance for the largest households, with the least income.

**2.5 Check the variables you use to determine your benefit levels. (Check all that apply):**

##### If yes, Describe.

All approved payments are to the approved utility vendor.

Energy Assistance payments will be made to the energy vendor on behalf of the client household. No payments will be made to the LIHEAP client. The OST Energy Office LIHEAP Benefits Coordinator will be using a voucher system and direct intervention with the energy providers on behalf of the clients. The system of energy payments to the vendors will vary with the type of vendor and their location within the State. OST LIHEAP Office will assure that the proper credits are applied to each client's energy account, and that the credits are applied to the clients' account statement. The OST Energy Program – LIHEAP Office will utilize bulk payments when applied when it pertains to utility payments, such electric and propane bills.

##### 9.2 How do you notify the client of the amount of assistance paid?

In an effort to best use the limited LIHEAP funds towards Tribal members' energy related needs, OST LIHEAP certifies the applicant at the time of intake, and the recipient received their certification letter at the time of completion of the intake process, and the client is notified at that time when the utility vendor will receive payment. If the applicant does not receive that certification at the time of intake, the applicant will then receive their certification of benefits by mail.

The OST LIHEAP will provide the District with the LIHEAP eligibility listings for their District Tribal members that have received benefits from the Department of Health and Human Services – Administration for Families and Children – Office of Community Services – Division of Energy Assistance (DHHS). The Oglala Sioux Tribe Energy Program will identify their members most in need of LIHEAP services, assist the members with completing the required forms and gathering the necessary information, and transmit the forms and information to the OST Energy Office – LIHEAP Coordinator for eligibility review and processing of the energy assistance.

##### 9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
