This is considered a renewal, however, applicant must submit required document and update household information to include phone number(s), household members, address, utility account information and so on.

1.6 How do you ensure there is no difference in the treatment of categorically eligible households from those not receiving other public assistance when determining eligibility and benefit amounts?

SNAP, TANF and VA are not received in American Samoa. A household is eligible whether one or more household member(s) receives SSI benefit.

Basic eligibility requirements are the same for all households. Benefits amounts in every LIHEAP component are determined based on each household's income, family size and percentage of poverty. There is no differentiation among income-eligible households and categorically eligible households and, no difference is made in payment amounts.

In crisis assistance, payment is made according to the amount verified by the utility company to prevent service termination or restore service with the same payment for income-eligible and categorial eligible households.

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

Payment is processed and routed through the relevant government departments for payment. When the check is ready, Treasury will let us know and TEO contacts the utilities vendor. The vendor then applies LIHEAP assistance according to the household utilities accounts listed and the amount of assistance.

9.2 How do you notify the client of the amount of assistance paid?

Via phone and/or email. These practices began with Covid and we continue to use it now.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

When we process payment, the utility account of each household and the amount of assistance is included in the invoice. Once assistance is applied to the household account, a note is made to the account for the customer's information.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

We have a contact person with the utilities company that updates the LIHEAP staff when assistance is rendered.

Yes No

If so, describe the measures unregulated vendors may take.

MODEL PLAN
Section 10 - Program, Fiscal Monitoring, and Audit**

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of funds?

Submission and Logging of Purchase Requests: When a purchase request is submitted by the Program Manager or Assistant, it is initially logged in the Daily Transaction Tracking log/spreadsheet. This spreadsheet is accessible to all management for detailed information and real-time updates on the status of the request.

Review and Verification by Finance Division: The Finance Division reviews the purchase request to ensure it aligns with the approved budget and that all required documentation is included. Upon verification, the request is uploaded to the Integrated Financial Accounting System (IFAS) to obligate funds and generate a purchase request number.

Digital Routing for Multi-Agency Approvals: The numbered purchase request will now be digitally routed for approvals across multiple agencies:

- Department Approval by the Director of TEO
- Office of Program Planning and Budget Approval by Budget Analyst
- Department of Treasury Approval by Treasury Analyst
- Final processing by the Office of Procurement to print a Purchase Order (PO).

The Procurement Office manages all aspects of the procurement and receiving process.

Upon receipt of goods or services, Procurement submits payment requests to the Accounts Payable Office, a division under the Department of Treasury.

When a payment is made, the encumbered amount becomes an expenditure for that current period. The Finance Division monitors all encumbrances/obligations and expenditures by the Tracking Transaction Log and draws reports from IFAS. Daily follow-ups are conducted to ensure obligations and encumbrances are expended within the assigned period and/or timely manner.

10.1a Provide your definitions of the following:

Obligation

Obligations and Expenditures: Once funds are obligated, the amount is encumbered for the specific purchase within IFAS and recorded internally. Expenditures

Funds used for purchases, payments, etc., as specified in the budget narrative and approved by the grantor.

This is our policy, however, there has never been a need to have a fair hearing for any client.

To ensure we use 5% of LIHEAP funds, this amount is used to print fact sheets and relevant information on energy conservation tips for homes. Also, we use events sponsored/coordinated by other agencies to promote LIHEAP, saving us money spent on advertisements, tents, tables, chairs, banners, etc., to set up a booth. These events include Earth Day, Arbor Day, Coast Weeks, STEAM and so on.

13.3 Describe the impact of such activities on the number of households served in the previous federal Fiscal Year.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN Section 16 - Performance Goals and Measures

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP (Benefit Targeting Index, Burden Reduction Targeting Index, Restoration of Home Energy Service, and Prevention of Loss of Home Energy Service). Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

We plan to work with Everblue (software company) to create a software for LIHEAP intake that will collect and capture relevant data. We have been in communication with Everblue since the beginning of 2024 and this software will also collect DOE WAP data. This is a plus LIHEAP and DOE WAP will pay for the software. We should be ready to test the software in the second quarter of PY 2025.

Currently, we are manually collecting data which is arduous and timely. We hope the new system will reduce manual data collection and calculation of benefits. Fortunately (unfortunately), we have one utility vendor for both electricity and water.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
