Section 2 - Heating Assistance

Eligibility, 2605(b)(2) - Assurance 2

2.1 Designate the income eligibility threshold used for the heating component:

Add	Household size	Eligibility Guideline	Eligibility Threshold
1	All Household Sizes	State Median Income	60.00%

2.2 Do you have additional eligibility requirements for HEATING ASSISTANCE? No

2.3 Check the appropriate boxes below and describe the policies for each.

Do you require an Assets test ? No

Do you have additional/differing eligibility policies for:

Renters?	No
Renters Living in subsidized housing ?	Yes
Renters with utilities included in the rent ?	Yes

Do you give priority in eligibility to:

Elderly?	Yes
Disabled?	Yes
Young children?	Yes
Households with high energy burdens ?	Yes
Other?	

Explanations of policies for each "yes" checked above:

2.3 Renters living in subsidized housing, the amount of the utility allowance is deducted from the total energy cost. Households receiving a utility allowance greater than the utility bill are not eligible. Applicants over 60 years old are exempt from this requirement.

Contractors may utilize an appointment system to schedule a specific date and time to complete the application process for the elderly, and persons with disabilities or infirmity.

Determination of Benefits 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable populations, e.g., benefit amounts, early application periods, etc.

Households containing one or more members of the targeted priority groups (elderly, disabled, young children) are eligible for one additional \$100 benefit payment per household.

The applicant's energy burden is automatically calculated using the Hancock Energy Software (HES). The highest total energy cost (TEC) is divided by the total household monthly gross income to determine the percentage of the household income used for energy costs.

The applicant's benefit amount is determined using a benefit matrix. Households with zero income are eligible to receive the maximum benefit payment allowed for their family size.

Eligible households can receive two non-crisis benefit payments, during a twelve-month calendar period.

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):

4.2 Provide your LIHEAP program's definition for determining a crisis.

A crisis exists when a household's energy source for heating and/or cooling has been disconnected or scheduled for disconnection, depleted and there are insufficient resources to resolve the situation. A crisis may also include weather-related alerts and supply shortage emergencies declared by state or federal government.

Young Children?	No
Households with high energy burdens?	No
Other?	No

In Order to receive crisis assistance:

Must the household have received a shut-off notice or have a near empty tank?	Yes

Determination of Benefits		
4.8 How do you handle crisis situations?		
<input checked="" type="checkbox"/>	Separate component	
<input type="checkbox"/>	Fast Track	
<input type="checkbox"/>	Other - Describe:	
4.9 If you have a separate component, how do you determine crisis assistance benefits?		
<input checked="" type="checkbox"/>	Amount to resolve the crisis.	
<input type="checkbox"/>	Other - Describe:	
Eligible households can receive only one crisis benefit payment, not to exceed \$475, during a 12 month period.		
The crisis benefit payment will cover only the amount of the disconnect notice, if the services have NOT been disconnected, at the time of application. If utilities services have been disconnected, at the time of application, the total benefit requested should include all costs to connect or reconnect services, except any other non-energy related charges.		
In the event a household is in transition, a <u>Final Bill</u> and proof of a new account showing the total cost to restore services should be used to provide assistance and calculate the benefit. The referenced bill should clearly state " <u>Final Bill</u> ." A recent statement from the vendor, preferably on letterhead, within the past 30 days may be used to calculate a benefit payment. The intent of this provision does not arbitrarily substitute the mandatory Disconnect Notice, or cause any inconsistency with the LHC's established policy for LIHEAP crisis assistance.		
Crisis Requirements, 2604(c)		
4.10 Do you accept applications for energy crisis assistance at sites that are geographically accessible to all households in the area to be served?		
Yes Explain.		
Contractor are required to provide crisis assistance to all eligible households within the designated service delivery area, indicated in the contract.		
4.11 Do you provide individuals who are physically disabled the means to:		
Submit applications for crisis benefits without leaving their homes?		
Yes If No, explain.		
Travel to the sites at which applications for crisis assistance are accepted?		
No If No, explain.		
If you answered "No" to both options in question 4.11, please explain alternative means of intake to those who are homebound or physically disabled?		
Contractors are required to make provisions for home-bound and infirmed applicants to complete an application by either traveling to the applicant's home or accepting a signed statement by the applicant that names an authorized representative to apply for LIHEAP services on their behalf.		
Benefit Levels, 2605(c)(1)(B)		
4.12 Indicate the maximum benefit for each type of crisis assistance offered.		
Winter Crisis	\$0 maximum benefit	
Summer Crisis	\$0 maximum benefit	
Year-round Crisis	\$475 maximum benefit	
4.13 Do you provide in-kind (e.g. blankets, space heaters, fans) and/or other forms of benefits?		
Yes If yes, Describe		
Contractors may provide an in-kind benefit, in lieu of a benefit payment, to repair or replace heating or cooling equipment, during times of extreme heat or cold tempertures. An explanation of the emergency should be included in the applicant's file.		

The cost for equipment plus installation, if any, will be reimbursed to the contractor. The total reimbursement from LIHEAP may not exceed the total amount for a Crisis benefit payment. The contractor should obligate the funds necessary to resolve the crisis situation in a timely manner.

4.14 Do you provide for equipment repair or replacement using crisis funds?

Yes

If you answered "Yes" to question 4.14, you must complete question 4.15.

4.15 Check appropriate boxes below to indicate type(s) of assistance provided.

- 2) Meeting the fiscal requirements established in regulations and state polices;
- 3) The quality of service delivered by the local agency;

✓ Annual program review

✓ Monitoring through central database

✓ Desk reviews

✓ Client File Testing / Sampling

Other program review mechanisms are in place. Describe:

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

Louisiana Housing Corporation (LHC) has adopted a systems approach to monitoring Contractors for compliance with applicable regulations and achievement of performance goals.

Program activities are monitored both electronically and by conducting on-site visits annually. The State mandated software is used to record application input and monitor Contractors' production, i.e., how many applications are taken in a given time frame? How many of those applications were Non-Crisis applications and how many were Crisis Applications? How many households were served and how many priority members were included in those households. We are also able to monitor the rate of benefit delivery to the specific service area. This information is utilized to not only monitor the rate of service delivery but also the areas being served. Those areas can be identified within a service provider's geographical service area, needing extra attention and outreach.

During the on-site monitoring visits, the physical files are reviewed for documentation of various program mandated activities, such as:

- (A) Written policies and procedures that prohibit discrimination in both service delivery and employment,
- (B) Compliance with Minimum Wage laws,
- (C) Written policies regarding grievance procedures for both applicants and employees,
- (D) Written policies regarding providing services to eligible applicants on a first come, first served basis,
- (E) Written policies that document adherence to written Program Guidelines approved by Louisiana Housing Corporation,
- (F) Documentation of employee training on program guidelines,
- (G) A review of various documents that demonstrate program outreach activities including newspaper ads, radio and/or television advertising, copies of any printed material distributed in the community to applicants and potential applicants,
- (H) A review of Client Education material distributed to applicants regarding energy conservation activities,
- (I) A review of a random sample of applicant files to verify the collection of required support documentation from eligible applicants, including income, vulnerability of the client for the cost of the energy bill, confirmation of residence at the service address indicated on the bill, copies of Social Security Cards or other government documents that contain social security numbers for each member of the household being served.

Eligibility and benefit determination is handled through the web-based computerized application system adopted by the LHC. The program is designed to calculate benefits based on parameters that are entered at the state level and that are unalterable at the service provider level. Benefit calculations are based on income levels for each household, the number of eligible household members, and the identification of priority members of the household, i.e., persons over 60 years of age, persons disabled, or persons five years old or less. The benefit calculation is totally automated requiring only data input from the agency provider. Eligibility is also determined by the same system utilizing social security numbers of applicants and flagging those applicants or household members that may have received a benefit within the prohibited time frame. Applicants may currently apply for non-crisis benefits once every six months, and if necessary, applicants may also apply for a crisis benefit once in a twelve month period.

10.7. Describe how you select local agencies for monitoring reviews.

Site Visits:

LHC, as the state grantee, is required to conduct annual on-site compliance monitoring visits to all LIHEAP contractors.

Desk Reviews:

LHC staff conducts on-going desk monitoring of agency reports, budget tracking and statistical reports, and rate of expenditures.

10.8. How often is each local agency monitored ?

All Contractors are monitored at least once annually.

10.10. What is the combined error rate for benefit determinations? OPTIONAL

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

Since 2004, Louisiana has been utilizing the web-based software, LIHEAP Online, developed by Hancock Energy Software to manage real-time program performance data.

Beginning with FY2015, the LHC will discuss the LIHEAP performance measures with the Hancock Energy Software developer, during our quarterly meetings. The preliminary discussion will introduce the tiered approach to determine the extent of the modification or enhancements necessary to gather the data being requested. Since the service delivery statistics are currently being captured in HES, the configuration should be minimal to implement Tier 1 of the performance measurement system.

Through a collaboration with APPRISE, there is potential to move expeditiously to full implementation.
