1.5 Do you automatically enroll households without a direct annual application? Yes No

If Yes, explain:

1.6 How do you ensure there is no difference in the treatment of categorically eligible households from those not receiving other public assistance when determining eligibility and benefit amounts?

In determining benefits for the heating component, there is no differentiation between non-categorically and categorically eligible participants. The benefit level is established by using a heating matrix which shows an average heating cost by region in the State. The benefit amount received by an eligible household is based on the household income, fuel type and energy burden. The household with the greatest energy burden receives the greatest energy benefit. Households with members who are disabled, over 60 and have children under the age of six (6) are considered vulnerable populations and are given a target benefit. Application intake for vulnerable populations begins on October 1 and all other application intake begins on November 1 each season.

If any of your LIHEAP components are not centrally-administered by a state agency, you must complete questions 8.6, 8.7, 8.8, and, if applicable, 8.9.

8.6 What is your process for selecting local administering agencies?

In Idaho, Community Action Agencies are exempt from the bidding process for contracts. In the Department of Purchasing bid exemption, Community Action Agencies are defined as follows:

- **Community Action Agencies** -- Community action agencies and other neighborhood-based organizations providing direct services as detailed in the CSBG Act, Public Law 105-285 (42 US Code 9901); community action associates who provide CSBG administrative oversight responsibilities.

In Idaho's Administrative Rules Governing the Low Income Home Energy Assistance Program, the definition of Community Action Agency is as follows:

- **010. Definitions**
- Definitions applicable to this chapter of rules (3-30-07).
- **01. Community Action Agency.** A private non-profit organization serving the low income population in specified counties of the state with which the Department has entered into a contract for the provision of services for purposes of LIHEAP. (3-30-07)

And later in the rules we specify that the LIHEAP application intake process takes place at Community Action Agencies (CAAs):

- **200. Intake Process.**
- Low-income participants may complete an application for LIHEAP benefits at a CAA. The CAA will submit the participant household information contained on the application to the Department on-line computer system for issuance of eligibility notification. (7-1-99)

August 1987, revised 05/92,02/95,03/96,12/98,11/01

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP)
MODEL PLAN

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

Idaho does make payments directly to the participant when the following conditions are met: household benefit is for heat in rent payment, home energy supplier is a two-party vendor, or household utilizes small (25 gallons or less) propane tanks for primary heating fuel. The two-party vendor payments are dual endorsement warrants which are mailed directly to the household.

9.2 How do you notify the client of the amount of assistance paid?

Upon completion of their application the household receives an eligibility notice stating whether or not the household is eligible for assistance.

If the household is determined to be eligible the notice includes the benefit amount, energy supplier and account number as applicable. When requested, a copy of the eligibility notice is provided to the home energy supplier who is then expected to provide the required protections to the eligible household.

If the household is determined ineligible, the eligibility notice states the reason for denial of services and their appeal rights.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

Idaho requires a signed agreement with each participating energy supplier to be on file prior to the start of the program season or when a new vendor begins providing services to LIHEAP households. The signed Vendor Agreement ensures that program eligible households are treated fairly and not discriminated against in the cost of goods or services provided and that the full amount of assistance is applied to the household account. The Department works with a contractor to manage vendor agreements and monitor to verify energy suppliers are in compliance with the terms as outlined in the vendor agreement.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

All energy suppliers participating in the LIHEAP program must have a signed vendor agreement prior to receiving LIHEAP funds for eligible households. The signed Vendor Agreement contains language that ensures program eligible households are treated fairly and not discriminated against in the cost of goods or services provided and that the full amount of assistance is applied to the household account.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

LIHEAP funds are tracked using Direct Service Provider invoices which are submitted at least weekly and at a maximum, monthly. The funds requested by Direct Service Providers are reviewed by the primary contractor and the Department prior to payment. Fiscal activities are monitored throughout the year. Additionally, monitoring is performed annually. Monitoring includes an in-depth financial review of the program year. The Direct Service Providers are also required through contracts to have an annual audit conducted in accordance with the Single Audit Act.

Program activities are monitored during the season using reports generated by the Department computer system (i.e., number of applications per county and per Direct Service Provider; number of days to process applications).

The Department monitors all fiscal and program performance activities of the primary contractor on an annual basis (unless more frequent monitoring is indicated due to poor monitoring results) and is subject to an annual independent financial audit.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

12.1 How many fair hearings did the grantee have in the prior Federal fiscal year? 0

12.2 How many of those fair hearings resulted in the initial decision being reversed? 0

12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

None

12.4 Describe your fair hearing procedures for households whose applications are denied.

Process for households whose applications are denied:

The household is given an informal eligibility notice upon completion of their application. The participant's appeal rights are included on the informal eligibility notice and also on the formal 'Notice of Denial'. If the participant feels they were wrongly denied services, the Direct Service Provider holds an informal conference with the participant to attempt to resolve their appeal. If unresolved, the Direct Service Provider assists the household with completing and mailing the appeal form to the Department of Health and Welfare's Fair Hearing Unit.

Upon receipt of the participant's appeal request, the Department of Health and Welfare proceeds with the standard fair hearing procedure as outlined in the section below. To accommodate the applicant, hearings are conducted at the Regional Health and Welfare office closest to their residence through a telephone conference.

Standard fair hearing procedure:

Administrative fair hearings are available to any household applying for or receiving a LIHEAP benefit in accordance with Idaho Administrative Code. Any program applicant or recipient may request a hearing. Included with all determination notices is a form that instructs customers how to request a hearing if they disagree with the action taken by the Department or if they feel they have been discriminated against. Fair Hearing Requests must be received within 30 days of the determination and can be submitted using the Department's Hearing Request Form (HW-0406) or by submitting in writing their name, address and phone number, and the remedy requested.

Once a fair hearing request is received, the Department acknowledges the fair hearing request and has 30 days to schedule a hearing. The Department contacts each individual before scheduling the hearing to discuss the basis of the hearing and to address any misunderstandings or miscommunication that may have occurred. If the individual does not request to withdraw their hearing request then the hearing will take place as scheduled. The hearing is conducted by a hearing officer. Once the hearing has taken place the hearing officer has 30 days to file a preliminary order, which is distributed to both the Department and the individual. The individual will receive a written copy of the hearing decision by mail. If the individual does not agree with the hearing officer's decision, he or she has an opportunity to appeal the decision. These appeals are managed by the office of the Director of Health and Welfare and the Deputy Attorney General.

- *DIVISION OF WELFARE: TIME FOR FILING APPEAL. A decision issued by the Department in a Division of Welfare program will be final and effective unless an individual or representative appeals within thirty (30) days from the date the decision was mailed, except that a recipient or applicant for Food Stamps has ninety (90) days to appeal. An individual or representative may also appeal when the Department delays in making an eligibility decision or making payment beyond the limits specified in the particular program within thirty (30) days after the action would have been taken if the Department had acted in a timely manner. (5-8-09)*

12.5 When and how are applicants informed of these rights?

Fair hearing notices are posted in local agency offices and satellite offices in the intake area, intake work stations and/or lobby area. Agencies who serve limited English proficiency applicants provide this information in Spanish.

The household is given an informal eligibility notice upon completion of their application. The participant's appeal rights are included on the informal eligibility notice and on the 'Notice of Denial.'

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

All fair hearing processes are handled within the process described under section 12.4.

12.7 When and how are applicants informed of these rights?

The household is given an informal eligibility notice upon completion of their application. The participant's appeal rights are included on the informal eligibility notice and on the 'Notice of Denial.'

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Services provided to encourage and enable households to reduce their home energy needs include informal and formal education. This includes printed materials on the following topics: energy budgeting, payment and energy conservation session with application intake, and assessment of household energy use. In addition, the Direct Service Providers provide referrals to address weatherization needs through networking between the LIHEAP program, Weatherization program, and other community services programs. The regulated electric utilities throughout Idaho provide low-cost/ no-cost weatherization materials for distribution to their customers.

We do not use Assurance 16 funds to provide incentives or direct benefits to households at this time.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

Each budget component is assigned a Program Cost Accounting (PCA) code. Expenditures applicable to these activities are coded to the specific PCA. The fiscal accounting of the Direct Service Providers is monitored to ensure costs are coded to the appropriate PCA for the type of activity being billed.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

Idaho did not track this metric for PY15. While we had planned to develop a methodology for tracking impact in PY15, the state's primary contractor and its agencies began using a new data system for application intake and data reporting. Roll-out of the new system took longer than anticipated to train users and address data input and reporting issues. To date, the state has had approximately 1,600 direct contacts with LIHEAP participants through energy education events, personalized training or providing energy conservations kits. An additional 13,000 individuals received printed educational materials.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

13.5 How many households applied for these services? N/A

13.6 How many households received these services? N/A

7	Donated Wood	Community Members	Contribution of cut firewood to supplement agency efforts to provide LIHEAP services to eligible households and increase impact of utility bill assistance to these households.
8	Donated Services	Community Members	Handymen, community members, and chimney sweepers donated services to low income households to increase impact of utility bill assistance to these households.
9	Paint Magic	Local Businesses	Painting services donated to local low income community members to improve dwelling durability.

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

Idaho began collecting data on the four required LIHEAP performance measures in FFY 2015. The statewide data tracking system has new data fields to track all necessary information required for reporting.

Policy Manual Updates and Staff Training: Beginning in the PY15 program year, intake staff was trained on the new data elements and processes for collecting information. Idaho's LIHEAP Intake Manual includes the process changes necessary to collect and enter the new data elements appropriately into the LIHEAP intake database. Pre-season training sessions are held annually for LIHEAP workers. Intake Manual updates and worker training will be completed by October 1, 2015. After October 1 and throughout the PY 16 heating season, data entry in the new database fields will be reviewed to ensure that new data elements are being entered correctly into the LIHEAP statewide data tracking system.

Modified Vendor Agreements: Idaho's Vendor Agreements identify the new data elements and establish data reporting requirements. For larger vendors, it is anticipated that data will be available through their respective online interfaces. Smaller vendors or vendors without an online interface will be required to submit data to the Department on an annual basis. Throughout the PY 16 program year, Idaho will continue to work with vendors to address any challenges and/or concerns that arise regarding the new data elements and reporting requirements. Per the agreement, vendors are required to submit their data reports by July 15 annually. The data will be analyzed in preparation for reporting on the new LIHEAP performance measures.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.
