Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Rhode Island allocates 5% of available funds to Assurance 16 activities. R.I. assigns Assurance 16 via a contract with the seven community action agencies. The contract requires the funding to be used to provide services and enable households to reduce their home's energy need and thereby the need for energy assistance in the future. Services provided includes; energy assessments, counseling(budget and energy usage), assistance with fuel vendors for a better rate, as well as referrals to other assistance.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

These funds have a separate line item on the contract. Community Action agencies can not exceed the amount specified for Assurance 16 per the contract agreement. DHS tracks funds assigned to each Purchase order and line item sequence.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

The Assurance 16 funds are used by agencies to pay a portion of the intake worker salaries and case workers. Intake workers negotiate on a client's behalf reinstatement terms, refer clients to other assistance programs, and sign households up for a reduced Gas and Electric rate. Case workers helps clients create and understand the importance of a budget. It is difficult to determine if just the Assurance 16 funds were the sole reason for a decline in the overall number of clients served over the past two years.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

N/A

13.5 How many households applied for these services? 32,000

13.6 How many households received these services? 32,000
