The presence of vulnerable persons may affect the amount and type of benefit provided to the household. Proactive services and payments will be provided to prevent the occurrence of emergencies. Examples of proactive crisis heating and cooling assistance services provided to clients are budget counseling, copayment plans, and energy conservation counseling. Section 6: Outreach, 2605(b)(3) - Assurance 3, 2605(c)(3)(A)
6.1 Select all outreach activities that you conduct that are designed to assure that eligible households are made aware of all LIHEAP assistance available:
<b>V</b> Place posters/flyers in local and county social service offices, offices of aging, Social Security offices, VA, etc.
<b>V</b> Publish articles in local newspapers or broadcast media announcements.
Include inserts in energy vendor billings to inform individuals of the availability of all types of LIHEAP assistance.
Mass mailing(s) to prior-year LIHEAP recipients.
Inform low income applicants of the availability of all types of LIHEAP assistance at application intake for other low-income programs.
Execute interagency agreements with other low-income program offices to perform outreach to target groups.
<b>✓</b> Other (specify):
Allocate funds specifically for the purpose of outreach to households with elderly, disabled, rural poor, and/or young children.

An early application period will be utilized prior to the heating season. This process includes accepting applications during the summer for the following Federal Fiscal Year from targeted households.

Accept applications for energy assistance at sites geographically accessible to all households in the area to be served. This includes setting up LIHEAP application sites for targeted households (contacting targeted persons or their representatives to ascertain convenient times and places, contacting community leaders to locate and serve application sites, providing information on alternate sites to organizations/programs likely to reach targeted persons, contacting targeted persons to arrange application appointments, transportation, etc.).

Provide information directly or by selective mailing to targeted applicants, e.g., assistance to understand the application form, translation of material, interpretation services for deaf, reading for blind.

Assist targeted applicants to gather needed documentation e.g., sorting documents, explaining what is needed.

Facilitate access to state weatherization programs targeted to LIHEAP eligible households and other energy-related services e.g., utility early identification and emergency intervention.

Generate and use computerized application information for some households that received heating assistance last year. This activity will not be occurring in FFY 2016.

Counties and tribal agencies are required to provide outreach services to maximize participation of eligible persons in the Low Income Home Energy Assistance Program. It is the responsibility of each county/tribe to provide application sites accessible to the eligible population in the county/tribe, with particular attention to overcoming barriers for targeted households. Outreach client benefits include: taking applications, certifying application information, and processing applications at an alternate site.

	Section 7: Coordination, 2605(b)(4) - Assurance 4

>	Joint application for multiple programs
>	Intake referrals to/from other programs
>	One - stop intake centers
>	Other - Describe:

Wisconsin administers LIHEAP, DOE, and Public Benefit weatherization programs through the same state office, the Department of Administration, Division of Energy, Housing & Community Resources (DEHCR). LIHEAP is coordinated at the state level with income maintenance programs through agreements and data collection/sharing with the Department of Children and Families (DCF) and Department of Health Services (DHS). DCF operates the Temporary Assistance to Needy Families (TANF), W-2, including the jobs and welfare to work program as well as other assistance programs. DHS operates FoodShare (SNAP).

Beginning in FY2001, State of Wisconsin Public Benefits funds were used to make payments to eligible recipients. Public Benefit funds are fully integrated into the Wisconsin Home Energy Assistance Program, WHEAP.

Coordination between the state and local level is achieved by including representation from a variety of private and government agencies interested in energy services and/or services for low-income persons on the Low Income Energy Advisory Committee (LIEAC).

Local service providers are expected to coordinate their programs with each other, with utility-operated programs and with other government and nonprofit programs operated within their service area. Local service providers are required to develop a local coordination plan annually to show what is being done to coordinate with weatherization agencies, fuel providers (utility and bulk fuels), and other local groups.

9.1 Do you make payments directly to home energy suppliers?
Heating • Yes O No
Cooling C Yes © No
Crisis • Yes O No
Are there exceptions? • Yes O No
If yes, Describe.  For all of the items requiring policy references, please access the Wisconsin Home Energy Assistance Program (WHEAP) Operations Manual at: <a href="http://homeenergyplus.wi.gov/docview.asp?docid=25851&amp;locid=25 and access the following sections">http://homeenergyplus.wi.gov/docview.asp?docid=25851&amp;locid=25 and access the following sections:</a> 1. 9.2 How do you notify the client of the amount of assistance paid?  At the time the LIHEAP payment is sent to the vendor, a payment notification is generated and sent to the client, indicating the amount of the payment and the vendor to whom the payment was made.  Households receiving weatherization and/or energy related repairs receive a written statement of work to be performed.

#### 9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

The Department of Administration requires vendors to register for participation in the heating assistance program and complete and sign a Vendor Agreement. To register, fuel suppliers agree that clients will be: treated equally with non-LiHEAP households, not be adversely affected, e.g., the eligible household will be charged in the supplier's normal billing process, the price charged will be the price normally charged non- LIHEAP eligible households, invoices will clearly indicate the amount and cost of home energy provided, and no discrimination will occur against eligible households with respect to terms, deferred payment plans, credit, conditions of sales or discounts offered other home energy customers.

In addition, a Vendor Desktop Monitoring process is in place to conduct a review of LIHEAP payments and fuel provided, in comparison to non-LIHEAP customers.

Crisis assistance fuel payments are made to vendors registered for heating assistance. In addition to signing assurances guaranteeing that LIHEAP clients will be treated equally with non-LIHEAP households and will not be adversely affected, registered vendors are required to provide information on costs and procedures for emergency fuel delivery.

Energy related home repair and weatherization purchases made by LIHEAP weatherization providers follow appropriate state or federal procurement guidelines and applicable material standards.

#### 9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The Department of Administration requires vendors to register for participation in the heating assistance program and to sign a completed Vendor Agreement. To register, fuel suppliers agree that clients will be: treated equally with non-LIHEAP households, not be adversely affected, e.g., the eligible household will be charged in the supplier's normal billing process, the price charged will be the price normally charged non- LIHEAP eligible households, invoices will clearly indicate the amount and cost of home energy provided, and no discrimination will occur against eligible households with respect to terms, deferred payment plans, credit, conditions of sales or discounts offered other home energy customers.

In addition, a Vendor Desktop Monitoring process is in place to conduct a review of LIHEAP payments and fuel provided, in comparison to non-LIHEAP customers.

Crisis assistance fuel payments are made to vendors registered for heating assistance. In addition to signing assurances guaranteeing that LIHEAP clients will be treated equally with non-LIHEAP households and will not be adversely affected, registered vendors are required to provide information on costs and procedures for emergency fuel

Energy related home repair and weatherization purchases made by LIHEAP weatherization providers follow appropriate state or federal procurement guidelines and applicable material standards.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

#### If so, describe the measures unregulated vendors may take.

Unregulated vendors are subject to the same program operation policies as regulated vendors. All vendors must register with the Wisconsin Home Energy Assistance Program (WHEAP) by submitting a complete and signed vendor agreement before any payments will be made to the vendor. The vendor access to the Home Energy Plus system is limited and does not allow vendors to enter information into the system. Vendor payments are Home Energy Plus system generated and based on approved applications. All WHEAP vendors must sign the standard vendor agreement after which they are placed on a registered vendor list.

  - Agencies not scheduled for an on-site review will be reviewed via Desktop Monitoring.
  - Ongoing Desktop Monitoring includes, but is not limited to, the following areas: production activity, outreach activity, accuracy of eligibility determination, client complaint trends, current system access and user security, and overall worker documentation. When discrepancies are discovered, the local agencies are contacted to review and, when warranted, correct the problems. Many of these inquiries are conducted before benefits are issued to applicants, and questioned cases are set aside from payment until the problem is corrected.
