Wyoming uses a priority point system for the delivery of weatherization services. There is not enough resource to weatherize every eligible home in Wyoming. Thus, Wyoming provides weatherization to those most vulnerable and most in need first. When a household is approved for Weatherization Assistance, the Weatherization Agency for that region pulls the application and calculates the household priority points. Priority points are given to households with elderly members (age 60 and above), disabled members, children under age 6, and high energy costs. Those households with the highest total number of priority points will be contacted first to schedule an energy audit. The households with very few priority points may have to re-apply in the following year before they receive weatherization assistance as funding often runs out before they can be served. All weatherization work done in Wyoming is based on a comprehensive energy audit.

9.1 Do you make payments directly to home energy suppliers?
Heating • Yes O No
Cooling C Yes O No
Crisis • Yes C No
Are there exceptions? O Yes O No
If yes, Describe.
N/A
9.2 How do you notify the client of the amount of assistance paid?
Clients receive a Notice of Action letter for every action taken on their application. When approved for benefits, clients receive a letter informing them of the amount of the seasonal benefit. It also informs that the benefit will be applied monthly upon invoice from the fuel supplier until the benefit has been exhausted or the program year ends, which ever occurs first. Fuel suppliers are required to note LIEAP payments on client/customer billing statements. The LIEAP computer database also tracks payments to fuel suppliers on behalf of eligible clients.
9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?  We receive the same monthly invoice/statement that the fuel supplier sends clients/customers minus unallowable costs. We also utilize a Fuel Supplier Rights, Responsibilities & Agreement which must be signed by each active fuel supplier each season. Wyoming also hosts an annual Vendor Meeting with fuel suppliers for the purpose of providing education and training, and for receiving feedback from our network of fuel suppliers. Some of our fuel suppliers have granted direct access to their systems for the purpose of viewing LIEAP customer accounts.
9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?
This is stipulated in the Fuel Supplier Rights, Responsibilities, and Agreement which must by signed by the fuel supplier.
9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?  O Yes No
If so, describe the measures unregulated vendors may take.

Section	10:	Program.	Fiscal	Monitoring,	and Audit.	26050	(b)	(10)	1

10.1.	How do	vou ensure good	fiscal accounting	and tracking of	of LIHEAP funds?

LIEAP funds are budgeted and tracked separately. The LIEAP program is assigned a unique budget number. LIEAP benefits paid out to fuel suppliers on behalf of eligible clients are tracked within the LIEAP computer system. The Wyoming DFS utilizes a federally approved cost allocation plan and State personnel track their time via a time analysis system to ensure good fiscal accounting and tracking. Additionally, we receive an independent Single Audit as required.

The DFS internal controls and procedures are developed and maintained by representatives of the Financial Services Division (FSD) on behalf of the Department Director. These procedures are reviewed and followed by Department employees, supervisors, managers, administrators, contractors, and vendors. Proper and adequate control in handling of public funds is the responsibility of all state administrators, managers, supervisors, and employees.

#### **Audit Process**

On-Site quality control inspections of completed weatherization units.
10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.
There is only 1 local agency for LIEAP intake and processing which makes monitoring much simpler. The LIEAP grantee program manager has the ability to randomly select LIEAP files from the database for review. In the past, this review has been completed towards the end of the season. However, we have a new process in place that allows us to randomly select a percentage of all LIEAP client files for review periodically throughout the season. Much of the review can be done electronically. At minimum, 1 comprehensive administrative review will be completed annually as well. The program manager also requires monthly management meetings which include the local administering agendy's managers, grantee program manager and administrator, grantee fiscal staff, and grantee IT staff. The 2 Weatherization Program agencies receive a minimum of 1 comprehensive administrative review annually, in addition to ongoing on-site quality control inspections of completed weatherization units.
10.7. Describe how you select local agencies for monitoring reviews.
Site Visits:
All local agencies in Wyoming receive monitoring reviews annually. These agencies also receive site visits a minimum of once per year. We have a small enough number (3 total, counting Weatherization agencies) of local agencies that we do not have to select among them. We review them all.
Desk Reviews:
All local agencies in Wyoming receive a minimum of 1 desk review per year.
10.8. How often is each local agency monitored ?
Monitoring is an ongoing process in Wyoming; however, each local agency receives a minimum of 1 comprehensive administrative review per year. Quality assurance monitoring is ongoing.
10.9. What is the combined error rate for eligibility determinations? OPTIONAL
10.10. What is the combined error rate for benefit determinations? OPTIONAL
10.11. How many local agencies are currently on corrective action plans for eligibility and/or benefit determination issues? 0
10.12. How many local agencies are currently on corrective action plans for financial accounting or administrative issues? 0

Section 12: Fair Hearings, 2605(b)(13) - Assurance 13

- 12.1 How many fair hearings did the grantee have in the prior Federal fiscal year? 0
- 12.2 How many of those fair hearings resulted in the initial decision being reversed? 0
- 12.3 Describe any policy and/or procedural changes made in the last Federal fiscal year as a result of fair hearings?

None.

#### 12.4 Describe your fair hearing procedures for households whose applications are denied.

Applicants who receive a denial notice may request a local conference to have the decision reviewed. The local conference starts at the local agency first. If it cannot be resolved there, it is escalated to the grantee Program Manager for further review. If it is found that the applicant should not have been denied, the application will be re-processed and approved. If the denial was accurate, the applicant is clearly informed of the reason(s) for the denial and is provided with referrals to other resources for which he/she may be eligible. Most concerns are resolved at the local conference step. It is rare for a concern to rise to the level of a fair hearing.

#### 12.5 When and how are applicants informed of these rights?

Applicant Rights and Responsibilities is attached and made part of the application package. All Notice of Action letters also inform applicants of these rights.

12.6 Describe your fair hearing procedures for households whose applications are not acted on in a timely manner.

Wyoming's LIEAP local agency is required by contract to act on all applications within 30 days and this is tightly tracked within the LIEAP computer system. Crisis applications are the exception as they must be expedited. We have not had issues with meeting this requirement during the past season. However, should an application not be acted on within this 30 day timeframe, the applicant may request a local conference as outlined in section 12.4 above. We have not had any issues of this nature rise to the level of a fair hearing.

#### 12.7 When and how are applicants informed of these rights?

Applicants are informed of all rights and responsibilities on the application package. They are also informed of the right to request a local conference and/or fair hearing on each notice of action letter that they receive from the LIEAP office.

#### Section 13: Reduction of home energy needs, 2605(b)(16) - Assurance 16

13.1 Describe how you use LIHEAP funds to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance?

Some of these funds are used to purchase energy conservation educational materials. These materials are distributed by our Weatherization agencies to households receiving weatherization assistance, as well as by our LIEAP contractor. We believe that behaviors impact energy usage and as we weatherize the home to make it more energy efficient educating the household members about energy conservation as well as energy efficiency helps them be more conservative energy consumers overall. We also distribute our educational materials at application fairs and other public venues where LIEAP applicants/clients are likely to show up. We also purchase a small number of low cost/no cost energy efficiency kits which we load with energy conservation educational materials for distribution to selected priority or high need households at the end of the LIEAP season. Going forward, Wyoming will also explore opportunities to use a small portion of Assurance 16 funds for advocacy for rate-payer program funds to be established and utilized to enhance our efforts to assist low-income families in reducing their home energy needs and costs.

13.2 How do you ensure that you don't use more than 5% of your LIHEAP funds for these activities?

We budget only 5% of funds for this purpose and track it closely.

13.3 Describe the impact of such activities on the number of households served in the previous Federal fiscal year.

We have received positive feedback regarding these activities. We will begin measuring energy consumption in the FFY 2016 season and will be better positioned to measure the impact of these activities. We do believe that educating clients about their energy consumption behaviors and the workings of their homes increases the overall energy efficiency of those homes. For example, educating clients about simple things like shutting lights off and unplugging appliances when not in use impacts the overall energy consumption in the home. Another benefit of distributing educational outreach materials at application fairs, etc. results in eligible applicants learning about the program and submitting applications for the first time.

13.4 Describe the level of direct benefits provided to those households in the previous Federal fiscal year.

There was no direct monetary benefit issued as part of our Assurance 16 activities.

13.5 How many households applied for these services? N/A

13.6 How many households received these services? ~3000

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

Wyoming began implementing the four required LIHEAP performance measures during the 2013-2014 program year. Wyoming has upgraded it's computer system to collect the data necessary to meet the reporting requirements. Wyoming has also met with Wyoming fuel suppliers/vendors in August of 2013, August of 2014, and August 2015 to refine the process for exchanging fuel usage and cost data between the State and fuel suppliers. Wyoming is well-prepared and will begin the data collection during FFY 2016. We expect to be able to meet the FFY 2016 reporting requirements.
